Speed Reading Kam Knight, 2018-09-26 #1 Book on Speed Reading for 2 Straight Years This has become the go to book for students, teachers, educators, professionals, and home-school parents & children to rapidly improve their reading. It offers simple tips to not only accelerate reading, but comprehension and memory. Unlike other books that merely teach you to skim & scan, this book taps into your brain and eyes' amazing power to naturally read more words in a shorter time. Please Note: There are a growing number of trolls and copycats on Amazon that copy hard work of legitimate authors. They don't spend time to understand a topic, only summarize what others have written to make money. Many have taken material directly from here, though they miss the crucial instructions that create the important shifts in reading & habits. With a few simple changes, you can double or even triple reading speed in a matter of seconds. No skimming, no scanning, but reading every word with double or triple the speed. Then with the additional tips and exercises, you will raise that level until you are comfortably reading a 200+ page book in 1 hour.
