Giving You All I've Got 2 A'Zayler,2017-02-02 Life is what you make it, relationships are what you make them, LOVE is what you make it, which is why when dealing with any of the three, you must give it all you've got. In order to gain the most, you have to give the most. Though it isn't always easy, if done right, it's worth it. Uzoma has patiently loved and guided Joc through all of her pain and trials with little to no help coming from her end. Emotionally battered and bruised, in her mind, she has nothing left to give. That is until he helps her find herself. To find the exact same love and passion inside of herself that she's found in him is not only everything that she's wished for, but everything that she plans to keep. Uzoma Youngblood is worth it, their love is worth it, their life together, and everything that they've fought for... is worth it. Having been abandoned one time after the next, Zino is no longer open to the idea of letting anyone in. He fights back any emotion that arises in order to ensure that he's never left alone again. Little does he know, Lonnie Bruce has absolutely no plans to leave. No matter how hard he pushes, no matter how far he strays away, she remains there to reel him back in. After putting up one tireless effort after the other, Zino finally gives in, only to notice that the very thing he's been running from is the only thing he needs.

Claiming the City in South African Literature Meg Samuelson,2021-08-23 This book demonstrates the insights that literature brings to transdisciplinary urban studies, and particularly to the study of cities of the South. Starting from the claim staked by mining capital in the late nineteenth century and its production of extractive and segregated cities, it surveys over a century of writing in search of counterclaims through which the literature reimagines the city as a place of assembly and attachment. Focusing on how the South African city has been designed to funnel gold into the global economy and to service an enclaved minority, the study looks to the literary city to advance a contrary emphasis on community, conviviality and care. An accessible and informative introduction to literature of the South African city at significant historical junctures, this book will also be of great interest to scholars and students in urban studies and Global South studies.

The Tattooed Hunter James Ralph Youngblood,2020-04-29 The hunter was dragged into Edna Jackson's house riddled with shotgun pellets imbedded into his back, butt, arms and head and bleeding everywhere. He was also unconscious. Edna was a nurse so she couldn't do anything but try and keep him alive and nurse him back to health. He had no identification, watch or valuables of any kind. When he regained consciousness, he didn't know who he was. Doc Wilson said that he had amnesia.Edna was supposed to leave after her mother's funeral but the hunter had no idea where he came from. Edna had no choice except to stay with him and try to get his memory back. She committed herself to see this through, wherever it led or how much time it took.

Leave No Man Behind George Galdorisi,Thomas Phillips,2009-01-16 Beginning with the birth of combat aircraft in World War I and the early attempts to rescue warriors trapped behind enemy lines, Leave No Man Behind chronicles in depth nearly one hundred years of combat search and rescue (CSAR). All major U.S. combat operations from World War II to the early years of the Iraq War are covered, including previously classified missions and several Medal-of-Honor-winning operations. Authors George Galdorisi and Tom Phillips (both veteran U.S. Navy helicopter pilots) highlight individual acts of heroism while telling the big-picture story of the creation and development of modern CSAR. Although

individual missions have their successes and failures, CSAR, as an institution, would seem beyond reproach, an obvious necessity. The organizational history of CSAR, however, is not entirely positive. The armed services, particularly the U.S. Air Force and Navy, have a tendency to cut CSAR at the end of a conflict, leaving no infrastructure prepared for the next time that the brave men and women of our armed forces find themselves behind enemy lines. The final chapter has not yet been written for U.S. combat search and rescue, but in view of the life-saving potential of these forces, an open and forthright review of U.S. military CSAR plans and policies is long overdue. Beyond the exciting stories of heroic victories and heartrending defeats, *Leave No Man Behind* stimulates debate on this important subject.

The Idol I. Seymour Youngblood, 2016-08-17 The impact was brutal. He turned his head and tried to grab one of Gage's meaty legs, but all he caught was a knee to the chest. His shoulder felt as if it had been ripped from its socket. His lungs burned. Luke wound up on the ground in a contorted, pretzel formation. His fingers tingled. His head throbbed and stars burst across his vision. Luke was brave and heroic and possessed strong character - none of which make him a good football player like his legendary father. Bigger guys like the insufferable Gage Knox make mincemeat of him in practice, and his coach calls him a waste of space. All that changes when, Luke finds an ancient Incan artifact. Suddenly, it is as if he is invincible, immortal - and there isn't anything he can't do when fear of pain and death are removed. But when the people begin falling ill to a strange, new disease, Luke has to decide whether his newfound immortality is from something sinister within...The Idol!

A History of the Mediterranean Air War, 1940-1945 Christopher Shores, Giovanni Massimello, Russell Guest, Frank Olynyk, Winfried Bock, Andy Thomas, 2018-11-05 This fourth volume in the comprehensive series "fills a gap in the existing narrative" of WWII's Mediterranean air war (Journal of Military History). The fourth volume in this momentous series commences with the attacks on the Italian island fortress of Pantellaria, which led to its surrender and occupation achieved almost by air attack alone. The account continues with the ultimately successful, but at times very hard fought, invasions of Sicily and southern Italy as burgeoning Allied air power, now with full US involvement, increasingly dominated the skies overhead. The successive occupations of Sardinia and Corsica are also covered in detail. This is essentially the story of the tactical air forces up to the point when Rome was occupied, just at the same time as the Normandy landings were occurring in northwest France. With regards to the long-range tactical role of the Allied heavy bombers, only the period from May to October is examined, while they remained based in North Africa, with the narrative continuing in a future volume. This volume also delves into the story of "the soldiers' air force." Frequently overshadowed by more immediate newsworthy

events elsewhere, the soldiers' struggle was often of an equally Homeric nature. "No future publication on the Mediterranean air war will be credible without use of this series." —Air Power History
