

Youngs Literal Translation Of The Bible 12

Robert Young, Ross Andrews

Young's Literal Translation of the Bible Young, Robert, 2014-06-14 Young's Literal Translation of the Bible is, as the name implies, a strictly literal translation of the Hebrew and Greek texts (from the Textus Receptus and Majority Text). Compiled by Robert Young in 1862, he went on to produce a revised version in 1887 based on the Westcott-Hort text which had been completed in 1885. Young died on October 14, 1888, and the publisher released a New Revised Edition in 1898. Young used the present tense in many places where other translations used the past tense- particularly in narratives. The Preface to the Second Edition states: "If a translation gives a present tense when the original gives a past, or a past when it has a present; a perfect for a future, or a future for a perfect; an a for a the, or a the for an a; an imperative for a subjunctive, or a subjunctive for an imperative; a verb for a noun, or a noun for a verb, it is clear that verbal inspiration is as much overlooked as if it had no existence. THE WORD OF GOD IS MADE VOID BY THE TRADITIONS OF MEN. [Emphasis in original.]" For example, the YLT version of Genesis begins as follows: 1. In the beginning of God's preparing the heavens and the earth--- 2. The earth hath existed waste and void, and darkness on the face of the deep, and the Spirit of God fluttering on the face of the waters, 3. And God saith, 'Let light be;' and light is. 4. And God seeth the light that it is good, and God separateth between the light and the darkness, 5. And God alled to the light 'Day,' and to the darkness He hath called 'Night;' and there is an evening, and there is a morning---day one. Young's Literal Translation in the 1898 Edition also consistently renders the Hebrew Tetragrammaton (the four Hebrew letters usually transliterated YHWH or JHVH that form a biblical proper name of God) throughout the Old Covenant/Testament as Jehovah, instead of the traditional practice of LORD in small capitals, which was used in editions prior to 1898. Young's usage of English present tense rather than past tense has been supported by scholars ranging from the medieval Jewish rabbi Rashi (who advised, If you are going to interpret [this passage] in its plain sense, interpret it thus: At the beginning of the creation of heaven and earth, when the earth was (or the earth being) unformed and void . . . God said, 'Let there be light.') to Richard Elliott Friedman in his translation of the Five Books in *The Bible with Sources Revealed* (2002). There is a linked Table of Contents for each book and chapter.

Young's Literal Translation of the Bible Robert Young, 2017-09-06 Robert Young's famous translation of the New Testament Gospels, in which each passage is written to reflect its exact and literal meaning, is presented here in this attractive edition. For his translation of Matthew, Mark, Luke

and John, Robert Young used two resources: The Textus Receptus (TR) are manuscripts in Greek whose origins date to antiquity. Collated and published by the Renaissance theologian Erasmus, these texts were used in translations by Christian luminaries such as William Tyndale, Robert Estienne and the scholars who composed the celebrated King James Bible. Prior to their arrangement by Erasmus, the Greek texts had been faithfully copied by monk scribes through the generations. Majority Text (MT) - or the Byzantine text - are the commonest form of text used for describing the character of the New Testament. This textual criticism was cross-referenced by Young, that he could present his own work in the most consistently literal manner possible. Many of the analyses underpin the Greek Orthodox translations of the Gospels and New Testament, and date to the time of the Byzantine Empire. The four books of the Gospels are translated such as to reflect the meaning behind the original words. Many Greek and Hebrew terms which are oblique or mystifying are rendered in English, making Young's work an excellent supplement to Bible study. Given the structure of the languages Young studied, the sentences are not arranged as we would expect of English - however all make sense, and the narrative flow is uninterrupted. This premium edition of Young's translation has every single verse of the Gospels highlighted in bold, facilitating quick and easy referencing. Furthermore, the print is sized at 12, and the text is arranged in dual columns in the same manner as a Bible. Thus students of this excellent work may read and absorb the contents, arriving at an understanding of the cultural and linguistic history of the Holy Bible. Robert Young taught himself how to read and speak several languages, and through his lifetime published several books relevant to the Old and New Testaments. A Scotsman, he undertook years of study in Edinburgh, where he was able to access a wide variety of old texts in ancient scripts.

LeClaire, Robert Young, 2005-08-01 The Modern Young's Literal Translation of the Bible is a modernization of the Young's Literal Translation. The text of the 1898 edition was used for this. The only changes made were to sentence structure and archaic language. The original meanings are still intact. All effort has been made to preserve the original meaning and flow of Young's Literal Translation. The Modern Young's Literal Translation is easier to read and understand with today's English. This is an excellent Bible translation because it retains the original literal translating and meanings, but is easier to read. This title here is the New Testament with Psalms and Proverbs.

Young's Literal Translation of the Bible Robert Young, Ross Andrews, 2013-12
Young's Literal Translation of the Bible by Robert Young This section of the Old Testament is the collection of the first five books often known as the Torah, it also contains the last 8 verses of Deuteronomy which were often omitted as they describe the death of Moses, and as tradition dictates that he wrote the books it is rather obvious that this cannot be so when we take the description of his death into account. The majority of scholars today all agree that the Torah does not have a single author, and that it was compiled over many centuries. There was a general consensus from the 19th century onwards about the documentary hypothesis, which suggests that the five books were created c.450 BCE by combining four originally independent sources, known as the Jahwist, or J (about 900 BCE), the Elohist, or E (about 800 BCE), the Deuteronomist, or D, (about 600 BCE), and the Priestly source, or P (about 500 BCE). This idea has been questioned since the 1970's, and today there are many more theories but no consensus. This text is taken from the 'Robert Young's Literal Translation' published in 1862 It aimed to be a literal translation and remove the added poetic license given to the King James edition, this translation was made using the original Hebrew and Greek translations. Young even uses the present tense where most English translations use the past, because this conforms to the original Hebrew text. This version is printed with students of the text in mind, printed in a large A4 format and each verse and chapter is placed at the start of a new line for easy reference Genesis creation Exodus departure Leviticus refers to the Levites and the regulations that apply to their presence and service in the Temple, which form the bulk of the third book. Numbers contains a record of the numbering of the Israelites in the wilderness of Sinai and later on the plain of Moab. Deuteronomy second law refers to the fifth book's recapitulation of the commandments reviewed by Moses before his death.

Young's Literal Translation of the Bible Robert Young,1989-03-01 Even those with no knowledge of languages can evaluate the plethora of versions and paraphrases with this word-for-word translation which strives for total fidelity to Greek, Hebrew, and Aramaic.

Bible Young's Literal Translation Robert Young,2013-08-05 Robert Young's 1898 translation edition. Both Old and New Testament. This Bible translation uses the same Elizabethian language as the King James Version. Because this is a word-for-word strictly literal translation you can now see exactly how the original bible authors said and how they said it. There is no change of words, no compromising or interpretation of words or sentences. The translation is strictly as it was written in the original languages. This translation will allow the reader to see exactly what the original Bible authors said and will allow a more exact study of the Bible. How can a reader study the Bible precisely when the translators have interpreted instead of translated? The majority of modern translations interpret (tell you what they think something means) instead of translating the words (what the original Bible authors actually said). Many times modern translations are merely paraphrasing instead of exactly translating. When Robert Young translated this edition, he was not trying to please anyone, he was not trying to be politically correct, he was not translating to fit his theological beliefs. With this Bible, you get the word of God precisely as it was originally written. Note: Paperback is 8.5x11 with regular thickness pages for durability. Also only 256 pages for portability. Small font to keep the price down, but readable and excellent as a reference.
