My Pet Goldfish Catherine Rayner, 2021-11-09 Follow Richard the growing

goldfish from an indoor tank to an outdoor pond in a story filled with gorgeous multilayered illustrations and sprinkled with fascinating facts. When I was four, I got my first pet: a fish no bigger than my hand, with red and orange scales. My very own goldfish! In his big tank in the kitchen, Richard the goldfish quickly bonds with—and even learns to recognize—his human companion, who tells him all about his day after school. A visiting friend, Sandy, shares some cool fish facts: Did you know that goldfish nap with their eyes open—because they don't have eyelids? Or that they can let you know they're hungry by swimming up and blowing bubbles? Sandy has a backyard pond filled with goldfish of all shapes and jewel-like colors, some much bigger (and older) than his friend's new pet. What might Richard's own future hold? Drawn in by the expressive illustrations and child-friendly tone, readers will emerge with a new appreciation for the beauty and personality of these classic pets. Kids inspired to care for a goldfish of their own will find a list of things they will need in the back matter.

This is a remarkable children's book that has a lesson." –Fred Kampo, President of the Labrador Retriever Club This story hits many notes: A family story about cousins, Dennis and Mellie Information on dog breeds Responsible dog ownership Mentor-text for teaching writing Model opinion essay for elementary students Models the writing process, especially the importance of pre-writing or planning before you write Completes the writing process by showing the results of Dennis's essay I WANT A DOG almost makes opinion essays look too easy. Underwater Dogs Seth Casteel, 2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

Beth Ann Hill, herself a mother and educator of AD/HD children, clearly explains the basics of AD/HD and lays out its complexities. She logically takes parents from symptoms, diagnoses and tests, medication, a treatment strategy designed to combine medical treatment, and special parenting techniques to break through problem behaviors. Whether readers browse through the question-and-answer format or read from start to finish, they will come to: - understand the biological causes of AD/HD - get the facts on prescription drugs - cope with AD/HD's emotional impact on family and friends - find comfort in real-life examples of challenges and their solutions With the help of pediatric AD/HD specialist Dr. James Van Haren, Hill also develops unique strategies for teaching social

and coping skills to children-and for having fun in the process. She includes worksheets, charts, daily planners, and more to help kids grow into adulthood with the tools to lead successful and productive lives.

How Stella Learned to Talk Christina Hunger,2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. **How Stella Learned to Talk** is part memoir and part how-to guide. It chronicles the journey Christina and

Stella have taken together, from the day they met, to the day Stella “spoke” her first word, and the other breakthroughs they’ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.
