Small Screen, Big Feels Melissa Ames, 2020-12-02 While television has always played a role in recording and curating history, shaping cultural memory, and influencing public sentiment, the changing nature of the medium in the post-network era finds viewers experiencing and participating in this process in new ways. They skim through commercials, live tweet press conferences and award shows, and tune into reality shows to escape reality. This new era, defined by the heightened anxiety and fear ushered in by 9/11, has been documented by our media consumption, production, and reaction. In Small Screen, Big Feels, Melissa Ames asserts that TV has been instrumental in cultivating a shared memory of emotionally charged events unfolding in the United States since September 11, 2001. She analyzes specific shows and genres to illustrate the ways in which cultural fears are embedded into our entertainment in series such as *The Walking Dead* and *Lost* or critiqued through programs like *The Daily Show*. In the final section of the book, Ames provides three audience studies that showcase how viewers consume and circulate emotions in the post-network era: analyses of live tweets from Shonda Rhimes's drama, *How to Get Away with Murder* (2010–2020), ABC's reality franchises, *The Bachelor* (2002–present) and *The Bachelorette* (2003–present), and political coverage of the 2016 Presidential Debates. Though film has been closely studied through the lens of affect theory, little research has been done to apply the same methods to television. Engaging an impressively wide range of texts, genres, media, and formats, Ames offers a trenchant analysis of how televisual programming in the United States responded to and reinforced a cultural climate grounded in fear and anxiety.

The Death of Expertise Tom Nichols, 2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors

and public health officials were able to save countless lives through measures aimed at preventing its transmission--

Lincoln and the Fight for Peace John Avlon,2023-02-21 A groundbreaking, revelatory history of Abraham Lincoln's plan to secure a just and lasting peace after the Civil War-a vision that inspired future presidents as well as the world's most famous peacemakers, including Nelson Mandela, Mahatma Gandhi, and Martin Luther King, Jr. It is a story of war and peace, race and reconciliation

Midaq Alley Naguib Mahfouz,2016-06-15 Widely acclaimed as Naguib Mahfouz's best novel, *Midaq Alley* brings to life one of the hustling, teeming back alleys of Cairo in the 1940s. From Zaita the cripple-maker to Kirsha the hedonistic cafe owner, from Abbas the barber who mistakes greed for love to Hamida who sells her soul to escape the alley, from waiters and widows to politicians, pimps, and poets, the inhabitants of *Midaq Alley* vividly evoke Egypt's largest city as it teeters on the brink of change. Never has Nobel Prize-winner Mahfouz's talent for rich and luxurious storytelling been more evident than here, in his portrait of one small street as a microcosm of the world on the threshold of modernity.

War Nerd Gary Brecher,2009-03-01 “[A] raucous, offensive, and sometimes amusing CliffsNotes compilation of wars both well-known and ignored.” —Utne Reader Self-described

war nerd Gary Brecher knows he's not alone, that there's a legion of fat, lonely Americans, stuck in stupid, paper-pushing desk jobs, who get off on reading about war because they hate their lives. But Brecher writes about war, too. War Nerd collects his most opinionated, enraging, enlightening, and entertaining pieces. Part war commentator, part angry humorist à la Bill Hicks, Brecher inveighs against pieties of all stripes—Liberian generals, Dick Cheney, U.N. peacekeepers, the neo-cons—and the massive incompetence of military powers. A provocative free thinker, he finds much to admire in the most unlikely places, and not always for the most pacifistic reasons: the Tamil Tigers, the Lebanese Hezbollah, the Danes of 1,000 years ago, and so on, across the globe and through the centuries. Crude, scatological, un-P.C., yet deeply informed, Brecher provides a radically different, completely unvarnished perspective on the nature of warfare. "Military columnist Gary Brecher's look at contemporary war is both offensive and illuminating. His book, War Nerd . . . aims to explain why the best-equipped armies in the world continue to lose battles to peasants armed with rocks . . . Brecher's unrefined voice adds something essential to the conversation." —Mother Jones "It's international news coverage with a soul and acne, not to mention a deeply contrarian point of view." —The Millions

The Structuring of Organizations Henry Mintzberg, 1979 Presents methods and examples of organizational structure using empirical literature to describe how organizations structure themselves. The book discusses the nature of managerial work, strategy formation process and issues associated with each type of structure.

Common Nonsense Alexander Zaitchik, 2010-04-29 Who is this guy and why are people listening? Forget Rush Limbaugh, Bill O'Reilly, and Sean Hannity—Glenn Beck is the Right's

new media darling and the unofficial leader of the conservative grassroots. Lampooned by the Left and Lionized by the far Right, his bluster-and-tears brand of political commentary has commandeered attention on both sides of the aisle. Glenn Beck has emerged over the last decade as a unique and bizarre conservative icon for the new century. He encourages his listeners to embrace a cynical paranoia that slides easily into a fantasyland filled with enemies that do not exist and solutions that are incoherent, at best. Since the election of President Barack Obama, Beck's bombastic, conspiratorial, and often viciously personal approach to political combat has made him one of the most controversial figures in the history of American broadcasting. In *Common Nonsense*, investigative reporter Alexander Zaitchik explores Beck's strange brew of ratings lust, boundless ego, conspiratorial hard-right politics, and gimmicky morning-radio entertainment chops. Separates the facts from the fiction, following Beck from his troubled childhood to his recent rise to the top of the conservative media heap Zaitchik's recent three-part series in Salon caused so much buzz, Beck felt the need to attack it on his show Based on Zaitchik's interviews with former Beck coworkers and review of countless Beck writings and television and radio shows Explains why Beck is always crying, why he has so many conservative enemies, why he's driven by conspiracy theories, and why he's dangerous to the health of the republic A contributing writer to Alternet, Zaitchik's reporting has appeared in the New Republic, the Nation, Salon, Wired, Reason, and the Believer Beck, a perverse and high-impact media spectacle, has emerged as a leader in a conservative protest movement that raises troubling questions about the future of American politics.

The Manchurian Candidate Richard Condon, 2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: “Brilliant . . . wild and exhilarating.” —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors’ signal. Now he’s been returned to the United States with a covert mission: to kill a candidate running for US president . . . This “shocking, tense” and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). “Crammed with suspense.” —Chicago Tribune “Condon is wickedly skillful.” —Time

Uproarious Cynthia Willett,Julie A. Willett,2019 Placing theorists in conversation with comedians, Uproarious offers a full-frontal approach to the very foundation of comedy and its profound political impact. Here Cynthia Willett and Julie Willett address the four major theories of humor—superiority, relief, incongruity, and social play—through the lens of feminist and game-changing comics Wanda Sykes, Margaret Cho, Hannah Gadsby, Hari Kondabolu, and Tig Notaro.--

Invisible Man Ralph Ellison,2016-08-18 Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of the Brotherhood, and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.
