**Handbook of Psychology and Diabetes** Clare Bradley,2013-10-31 This Handbook fulfils a pressing need within the area of psychological measurement in diabetes research and practice by providing access to material which has either been widely dispersed through the psychological and medical literature or has not previously been published. Journal articles describing the psychometric development of scales have rarely included the scales themselves but this book includes copies of scales and a wealth of additional information from unpublished theses, reports and recent manuscripts. You will find information about the reliability, validity, scoring, norms, and use of the measures in previous research presented in one volume. The Handbook is designed to help researchers and clinicians: · To select scales suitable for their purposes · To administer and score the scales correctly · To interpret the results appropriately. Dr. Clare Bradley is Reader in Health Psychology and Director of the Diabetes Research Group at Royal Holloway, University of London. Dr. Bradley and her research group have designed, developed and used a wide variety of measures of psychological processes and outcomes. Many of these measures have been designed and developed specifically for people with diabetes. Together with diabetes-specific psychological measures developed by other researchers internationally, these instruments have played an important part in facilitating patient-centred approaches to diabetes research and clinical practice.

**Transparency and Public Accountability Fiscal Mismanagement Lack of Public Accountability** Nihal Sri Ameresekere,2011 This Book appallingly unravels insights into fiscal mismanagement devoid of public accountability, under the purview of IMF, World Bank, ADB, international developmental agencies, et al. Perverse amnesties were surreptitiously enacted into law by Parliament, transgressing the social contract and public trust doctrine, also frustrating the right of the citizenry to challenge their constitutionality. Amnesties granted immunity and pardon for offences, such as, terrorism funding, money laundering, drug peddling, human trafficking, proceeds of crime, etc., in contravention of international conventions, including UN Security Council Resolution on terrorism financing. The Supreme Court condemned the Statute, as 'inimical to the rule of law', 'violative of the Universal Declaration of Human Rights and International Covenant on Civil & Political Rights', and 'had defrauded public revenue, causing extensive loss to the State'. Consequent controversy resulted in the ouster of the Government, with the new Government repealing the perverse law; however, with strange resistance against enforcement ! The Book also reveals how Parliament ignored an Auditor General's Special Report on gross negligence of revenue administration and colossal VAT frauds, with tardy enforcement of the 'rule of law'. ! The Book also deals with challenges in the Supreme Court against the Appropriation Bill, the Budget, for non-disclosure of borrowings and for lacking transparency, with the Ministry of Finance being castigated for operating a 'Budget within a Budget', with dubious expenditures, sans accountability. This Book reveals realities in fiscal mismanagement at highest levels, disclosing indifference and condoning by international agencies ! This is an invaluable Book for advocates of good governance and combat of economic crime, fraud and corruption, and those interested in public finance and law, and constitutional obligations of social contract and public trust.
