Easy Spanish Phrase Book for Travelers Mateo Ramirez, 2019-11-28 How to Learn the Spanish You'll Need for Your Trip Even If Your Flight Is Tomorrow You and your best friend get a little crazy when it comes to making vacation plans, but that's what vacation is all about, right? It's also why you've been traveling with your bestie since college. Never a dull moment would be an understatement. Your friend kicks it off excitedly, where should we go!? Your imagination runs wild. Europe! Bold! I like it... Which part? Looking at each other, you yell Spain! You've both had a thing for Picasso ever since your Art History class together. He didn't just push the boundaries of art with breathtaking work, he's cool, too. So, you set a course for Madrid. Some of Picasso's best work is there, and the capital seems like an easy place to ease into the new culture. You'll just figure the rest out when you get there. They speak English there, right? No big deal. Landing at Madrid-Barajas Airport, you look for the public transit to take you to your AirBnB. But the buses and tickets aren't all that clear. You ask the person at the information desk for help, but she just stares at you. Habla Ingles? She shakes her head. What? Scrambling to translate what you need on your browser, you notice that 65% of the population doesn't speak any English, and very few speak it fluently. Even the tourism industry has a reputation for not always speaking English. Getting around is going to be interesting. There is nothing more frustrating than being on vacation and struggling to communicate and make your way through the city. Most tourist destinations have English-speaking zones with attractions that have the English covered. But once you get outside of that, it can be tricky. And Spanish-speaking countries are no exception. The good news is that it doesn't take much to get covered. You'll find you can quickly learn the essentials that you need for most interactions and situations. And there's a lot of overlap between Spanish and English. Believe or not, you already know quite a few Spanish

words. A couple other inviting things about learning Spanish: words are pronounced the way they're spelled, and the grammar is rather intuitive for English speakers. Once you learn the fundamentals of Spanish, you'll get a lot of mileage from it. There are close to half a billion native Spanish speakers, globally. And over 40 million speak it as their first language in the US. Here's a select sample of what you'll discover in Spanish Phrase Book for Travelers Chit-Chat 101. Being polite and friendly from the get go Get a running head start! See all the Spanish words you already know Spanish words you should say in one country, but absolutely NOT say in another Less ¿Cómo?, More Sí! How to order and shop with confidence Fundamental rules so you get a solid foundational understanding to build on And much more. A lot of people resist learning the language of the country they're visiting. They assume they'll be fine with a translator. But life moves pretty quick. Anyone who's ever tried this, experiences a lot of impatient people. And you still have to understand what they're saying! The good news: the essentials you need don't take a lot to master. In just a few weeks, you can be proficient. If you want to quickly learn the fundamentals of Spanish without frustration, scroll up and click the Add to Cart button right now.

Language Hacking Spanish Benny Lewis, 2017-03-28 It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only other people can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

Fluent Forever Gabriel Wyner, 2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and

connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
