But times have changed, and companies are just discovering they must change with them. The good news is it's never too late to *Chase Greatness* in your leadership role. Kapur provides a powerful toolbox of practical advice that will enable you to not only be profitable but also reflect values that will enhance lives and make the world a better place.

Pacific Symposium on Biocomputing 2008 Russ B.

Altman,2007-12 The Pacific Symposium on Biocomputing (PSB)

2008 is an international, multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2008 will be held on January 4-8, 2008 at the Fairmont Orchid, Big Island of Hawaii. Tutorials will be offered prior to the start of the conference. PSB 2008 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and

other computational methods, as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's ?hot topics.? In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field.

**Augie's Quest** Augie Nieto, T.R. Pearson, 2011-01-15 What happens to orphan diseases that aren't big enough profit centers for the pharmaceutical industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as Real Heroes on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: Your contributions to the fitness industry are well known, and your dedication an inspiration. Lance Armstrong, seven-time Le Tour de France champion: I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has

been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest. Arnold Schwarzenegger, governor of California: Your success has been incredible. But you are so much more than just a successful businessman. You are the greatest husband, a great father, and a terrific friend. So,

**The Spare Room** Emily Chang, 2021-03-30 Define your own Social Legacy, unlock the power to live a more intentional life, and lead with greater purpose and authenticity. Emily Chang is a seasoned executive who has worked with some of the world's most renowned companies like Procter & Gamble, Apple and Starbucks. Over the last twenty-one years, her job has brought her and her family to eight different homes across the U.S and China. And everywhere she's lived, Emily has found herself at the unique intersection of her Offer and Offense. Life has served up young people who have been abused, neglected or marginalized, to find sanctuary in her spare room. Among her deeply personal accounts, Emily shares heart-wrenching stories of an emotionally abused child bride, a dying eighteen-month old boy born with hydrocephalus, and the abused daughter of a local prostitute. With the sixteen young people she and her family have cared for, Emily has found that living into her Social Legacy has not only deeply enriched her home life, it has also enabled her to become a more authentic and relatable leader in the workplace. Each time she opened the door to her spare room, Emily found herself in a front row seat, witnessing one of life's incredible stories unfold. Integrating work and life, she introduced her spare room kids to colleagues and encourages her team members to invest in their own Social Legacies. Now more than ever, social purpose has become an urgent leadership imperative. The Spare Room will help you identify your Social Legacy to live a more intentional life and lead with authentic purpose.
