Special Places, Special People Wendy Titman, 1994

The research project Special Places; Special People is designed to provide insight and advice in the management of schools and their grounds for the benefit of children. This document describes the project's research methodology and findings, explores some of the wider implications arising from the study, and suggests ways in which schools might embark upon effecting change. Research findings are discussed on how children read the external environment and school grounds. Issues arising from these findings examine the importance of school grounds to children in a modern society, the messages school grounds convey about the ethos of schools, and children's attitudes and behavior that are determined by the school grounds and the way they are managed. The report's concluding section contains an alphabetical listing of references and resource information on school grounds development, play theory, children and the environment, children's games, and lunchtime supervision and management. Corporate Sustainability and Responsibility in Tourism Dagmar Lund-Durlacher, Valentina

Dinica, Dirk Reiser, Matthias S. Fifka, 2019-05-03
This book offers essential insights into how the world's second largest industry, tourism, is responding to challenges involved in expanding the corporate social responsibility (CSR) concept to corporate sustainability and responsibility, referred to as CSR 2.0. It analyzes the typical setup of tourism with various types of commercial agents: corporations, small and medium sized enterprises, public-private partnerships, social enterprises and local cooperatives. In addition, the book examines a broad range of voluntary initiatives, the effectiveness of these efforts, and how contextual and wider policy features shape these relationships. The book is divided into three parts, the first of which elaborates on strategic drivers and rationales for CSR. In turn, the second part introduces readers to design approaches for CSR programs and envisaged impacts, while part three focuses on implementation, certification, reporting, and possible outcomes. Each part offers a mixture of theoretical perspectives, synthesis analyses and case studies. The respective chapters tackle a broad spectrum of tourism sub-sectors, e.g. the cruise industry, aviation, gastronomy, nature-based tourism, and urban destinations.

Inclusive Tourism Development Regina Scheyvens, Robin Biddulph, 2020-12-17 This comprehensive volume seeks out ways in which those who are typically marginalized by, or excluded from, tourism can be brought into the industry in ways that directly benefit them. It addresses the central questions asked by an inclusive tourism approach: Who is included? On what terms? With what significance? Tourism is often understood and experienced as an exclusive activity, accessible only to the relatively wealthy. This volume seeks to counter that tendency by exploring how marginalized groups can gain more control over tourism. The book starts by defining the concept of inclusive tourism and discussing seven different elements which might indicate inclusivity in tourism. Research from a wide range of geographical contexts – from Cambodia to Australia, Sweden, Turkey and Spain – have been drawn upon to illustrate the need for more inclusive tourism. The examples encompass the actions of a multinational tour operator, hotel owners, and social enterprises, while also examining how to ensure tourism is accessible for those with disabilities. Inclusive tourism is offered here as both an analytical concept and an aspirational ideal. The authors hope that this

book inspires a restless quest to find ways to include new actors and new places in tourism on terms that are equitable and sustainable. The chapters were originally published as a special issue of the journal *Tourism Geographies*.

Application of the Systems Approach to the Management of Complex Water Systems Slobodan P. Simonovic, 2020-12-23 During the past five decades, we have witnessed a tremendous evolution in water resource system management. Three characteristics of this evolution are of particular note: First, the application of the systems approach to complex water management problems has been established as one of the most important advances in the field of water resource management. Second, the past five decades have brought a remarkable transformation of attitude in the water resource management community towards environmental concerns and action to address these concerns. Third, applying the principles of sustainability to water resource decision-making requires major changes in the objectives on which decisions are based, and an understanding of the complicated inter-relationships between existing ecological, economic, and social factors. The Special Issue includes 15 contributions that offer insights into contemporary problems, approaches, and issues related to the management of complex water resources systems. It will be presumptuous to say that these 15 contributions characterize the success or failure of the systems approach to support water resources decision-making. However, these contributions offer interesting lessons from current experiences and highlight possible future

work.

Fournival, 2017-09-09 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The

many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Corporate Sustainability & Responsibility Wayne Visser, 2013 Corporate Sustainability &

Responsibility (CSR) - incorporating corporate responsibility, sustainable development, business ethics and corporate citizenship - has become a widely taught subject in business schools and practiced in companies around the world. Presented here is a comprehensive textbook that introduces students and practitioners to CSR theory and practice, looking at the past, present and future. The text includes 25 case studies and over 60 sets of discussion questions (nearly 200 questions), which allow teachers, students and practitioners to reflect on the presented content and to discuss, debate and dig deeper into the issues. The text itself is written in a highly readable style, without sacrificing academic rigour (there are over 200 references cited). The result is an inexpensive, accessible and searchable introduction to a management discipline that has become critical to the future of business, written by one of the world's leading authorities on the subject.

Contemporary Tourism Erik Cohen, 2004-06

Publisher Description

Disability and Tourism in Nineteenth- and Twentieth-Century Italy Luciano Maffi, Martino Lorenzo Fagnani, 2021-05-10 Attention to the issue of disabilities has intensified in recent decades, prompting States and organizations to respond with appropriate measures to promote inclusion of persons with disabilities in all social environments. This book's thesis is that the seeds of this inclusivity were planted by the development of tourism for people with disabilities in the nineteenth and twentieth

centuries. The book explores the development of tourism for people with disabilities in Italy during this time period. It adds an important tessera to the mosaic of international literature that has rarely considered the history of tourism and the history of disabilities in a unified manner. While certainly of great interest to an Italian audience, the discussion of the various responses taking form in Italy to the needs of persons with disabilities, and the role these responses have played in the development of mass tourism generally, is also quite pertinent to international contexts. This book is based largely on unpublished sources. The authors' hope is that the presentation of these new materials combined with the innovative approach of a historical study of tourism through the lens of disabilities will open up international scholarly debate and discussion drawing in contributions from all disciplines.

Social Tourism in Europe Scott McCabe,Lynn Minnaert,Anyia Diekmann,2011-10-26 This book examines the concept of social tourism within a European context. It places social tourism within a historical context of social development in the region, highlighting the diverse ways in which social tourism has evolved, identifying commonalities and providing a comprehensive definition. The theoretical chapters approach social tourism from a multi-disciplinary perspective linking social tourism to concepts such as social inequality, welfare systems, sustainability, family diversity and mobilities.
