Active Price Management Sven Reinecke, Laura Johanna Noll, 2023-12-03 This book demonstrates how to transform pricing, often considered the neglected aspect of marketing, into the most influential marketing tool that positively impacts the company's profits in a sustainable manner. Ultimately, every aspect of marketing is reflected in the price, as it represents the customer's value exchange for the other three value-creating marketing instruments: the product (functional value), communication (emotional value), and distribution (availability). The authors present the essential framework conditions and fundamental principles of active price management. They specifically emphasize those aspects that have proven particularly relevant to business practice through the Executive Education program at the University of St. Gallen (HSG).

Sustainable Financial Innovation Karen Wendt, 2018-12-12 Innovations and consequently future-fitness must form new models and address existing hurdles and new forms of collaborations. They must enable faster innovation cycles and intelligence mining by combining open and closed source systems, organic communities, open space techniques and cross-fertilization. Innovations must apply to and integrate incubation and acceleration networks. This book explores new concepts for future-fitness with five capitals: financial, ecological, social/cultural, human/personal, and manufactured/technological. It offers a new integral framework bringing researchers and business leaders together in one volume.

More than 1001 Days and Nights of Hong Kong Internment Chaloner Grenville Alabaster, 2022-03-11 *More Than 1001 Days and Nights of Hong Kong Internment* is the wartime journal of Sir Chaloner Grenville Alabaster, former attorney-general of Hong Kong and one of the three highest-ranking British officials during the Japanese occupation. He was imprisoned by the Japanese at the Stanley Internment Camp from 1941 to 1945. During his internment, he managed to keep a diary of his life in the camp in small notebooks and hid them until his release in 1945. He then wrote his wartime journal on the basis of these notes. The journal records his day-to-day experiences of the fall of Hong Kong, his time at Stanley, and his eventual release. Some of the most fascinating extracts cover the three months immediately after the fall of Hong Kong and when Alabaster and his colleagues were imprisoned in Prince's Building in Central and before they were sent to the camp, a period little covered in previous publications. Hence, the book is an important primary source for understanding the daily operation of the Stanley Internment Camp and the camp's environment. Readers will also learn more about the daily life of those imprisoned in the camp, and C. G. Alabaster's interaction with other prisoners there. 'A prominent figure in pre-war Hong Kong, Alabaster was one of the leaders of the British community in Stanley Internment Camp. His recently discovered journal provides a detailed and candid account of the routines, anxieties, and hardships of camp life. It also offers new insights into the complex politics and divisions among internees. With its substantial editorial introduction, this book is an important addition to the growing literature on internment during Japan's wartime occupation of Hong Kong.' –Christopher Munn, University of Hong Kong 'Of the many memoirs of the Stanley civilian internment camp, this is perhaps the most fascinating and engrossing. Written soon after the war and based on a diary, it is not only a day-by-day description of the travails of life in captivity but also, more

interestingly, an account of the inner tensions and divisions that were rampant among the British internees from beginning to end.' –Edward J. M. Rhoads, University of Texas at Austin

Do You Know Me Nancy Farmer, 1993 Tapiwa's Uncle Zeka could be called Uncle Trouble. When he comes to live with Tapiwa's family after his village is burned, he becomes her best playmate. But, in fact, he is a modern incarnation of the trickster character beloved in African folklore.

Capital as Power Jonathan Nitzan, Shimshon Bichler, 2009-06-02 Conventional theories of capitalism are mired in a deep crisis: after centuries of debate, they are still unable to tell us what capital is. Liberals and Marxists both think of capital as an 'economic' entity that they count in universal units of 'utils' or 'abstract labour', respectively. But these units are totally fictitious. Nobody has ever been able to observe or measure them, and for a good reason: they don't exist. Since liberalism and Marxism depend on these non-existing units, their theories hang in suspension. They cannot explain the process that matters most – the accumulation of capital. This book offers a radical alternative. According to the authors, capital is not a narrow economic entity, but a symbolic quantification of power. It has little to do with utility or abstract labour, and it extends far beyond machines and production lines. Capital, the authors claim, represents the organized power of dominant capital groups to reshape – or creorder – their society. Written in simple language, accessible to lay readers and experts alike, the book develops a novel political economy. It takes the reader through the history, assumptions and limitations of mainstream economics and its associated theories of politics. It examines the evolution of Marxist thinking on accumulation and the state. And it articulates an innovative theory of 'capital as power' and a new history of the 'capitalist mode of power'.

World Development Report 2020 World Bank,2019-11-19 Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. World Development Report 2020: Trading for Development in the Age of Global Value Chains examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs

can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.
