A First Zen Reader ,1966

A First Zen Reader Trevor Leggett,2016-04-25 When Zen Buddhism crossed from China to Japan in the twelfth century, it entered a phase of development that was not only to inspire a magnificent range of artistic achievement but also to exert a tremendous influence upon Japanese life itself and, eventually, to bring to the attention of the West a religious philosophy both unique and challenging in its power. 'Yet', as one of the contributors to this book (first published in 1960) expresses it, 'if asked what Zen is, to reply is very difficult.' It is the purpose of this anthology to suggest an approach to such a reply. The texts here translated will give a general idea of Zen theory and practice, and are outstanding selections from the treasury of Zen literature. To these, the anthologist has added a valuable 'Note on the Ways', in which he points out how 'the student keeps his Zen practice in touch with his daily life'. The exceptional interest of the text is further enhanced by twenty illustrative plates.

Zen and the Art of Racing Motorcycles Gregg Wright Bonelli, 2014-11-17 Gregg Bonelli, born with an inquisitive mind and competitive nature, has had the desire to go fast since 1964, when he discovered his true self through racing motorcycles. In this colorful and creative tribute to his love of motorcycling and racing, Bonelli shares insights into life and death from the seat of a racing motorcycle that vividly celebrate the lifestyle he has embraced for fifty years. Bonelli offers a fascinating glimpse into the thought processes and life of a motorcycle racer, as he made lasting friendships, raced at speeds most would think insane, and met eclectic characters along the way. With his mind constantly on motorcycles and the next race, Bonelli details how the rest of his life seemed only incidental to his obsession with going fast. Whether racing on a 250 Harley Sprint or a TZ750 Yamaha, Bonelli shares anecdotes, poetry, and prose that illuminate the

pure joy of what it is like to count down the minutes until he can zip his leathers, hop in his van with his bike in the back, and head out to race again. *Zen and the Art of Racing Motorcycles* shares a seasoned motorcycle racer's perspective on why he loves to ride with the wind with the throttle wide open and nothing but excitement and the possibility of a win before him.

Zen Antics Thomas Cleary,1993-11-23 Throughout Zen history, stories and anecdotes of Zen masters and their students have been used as teaching devices to exemplify the enlightened spirit. Unlike many of the baffling dialogues between Zen masters preserved in the koan literature, the stories retold here are penetratingly simple but with a richness and subtlety that make them worth reading again and again. This collection includes more than one hundred such stories—many appearing here in English for the first time—drawn from a wide variety of sources and involving some of the best-known Zen masters, such as Hakuin, Bankei, and Shosan. Also presented are stories and anecdotes involving famous Zen artists and poets, such as Sengai and Basho.

Zen Buddhist Landscape Arts of Early Muromachi Japan (1336-1573) Joe Parker,1999-03-25 Examining inscriptions on landscape paintings and related documents, this book explores the views of the two jewels of Japanese Zen literature, Gido Shushin (1325-1388) and Zekkai Chushin (1336-1405), and their students. These monks played important roles as advisors to the shoguns Ashikaga Yoshimitsu (1358-1408) and Yoshimochi (1386-1428), as well as to major figures in various *miichi* or Ways of linked verse, the *No* theatre, ink painting, rock gardens, and other arts. By applying images of mountain retreats to their busy urban lives in the capital, these Five Mountain Zen monks provoke reconsiderations of the relation between secular and sacred and nature and culture.

Hidden Zen Meido Moore, 2020-10-13 Discover hidden practices, secretly transmitted in authentic Zen lineages, of using body, speech, and mind to remove obstructions to awakening. Though Zen is best known for the practices of koan introspection and just sitting or shikantaza, there are in fact many other practices transmitted in Zen lineages. In modern practice settings, students will find that Bodhidharma's words direct pointing at the human mind are little mentioned, or else taken to be simply a general descriptor of Zen rather than a crucial activity within Zen practice. Reversing this trend toward homogeneous and superficial understandings of Zen technique, *Hidden Zen* presents a diverse collection of practice instructions that are

transmitted orally from teacher to student, unlocking a comprehensive path of awakening. This book reveals and details, for the first time, a treasury of direct pointing and internal energy cultivation practices preserved in the Rinzai Zen tradition. The twenty-eight practices of direct pointing offered here illuminate one's innate clarity and, ultimately, the nature of mind itself. Over a dozen practices of internal energetic cultivation galvanize dramatic effects on the depth of one's meditative attainment. Hidden Zen affords a small taste of the richness of authentic Zen, helping readers grow beyond the bounds of introspection and sitting to find awakening itself.
