**Zen and the Art of Public School Teaching** John Perricone,2005 This book is based upon two assumptions. The first is that we teach who we are, and the second is that one's philosophy of life is intimately tied to one's identity, and that it is one's philosophical identity (conscious or otherwise) that ultimately dictates one's teaching style and also what distinguishes those who find joy and passion in the teaching profession from those who find drudgery and then simply pick up a paycheck every two weeks. In his book *Zen and the Art of Public School Teaching*, Mr. Perricone compellingly invites his reader to participate in an introspective journey that is designed to help the reader better know themselves and the professional path upon which they have embarked. This book is for those who are just beginning their careers in teaching, for veteran teachers who are still very open to personal and professional growth, and to those who are thinking about becoming teachers.

**Mind Sky** Jakusho Kwong-roshi,2022-05-10 A collection of short talks by Jakusho Kwong-roshi, a successor in the lineage of Shunryu Suzuki-roshi, exploring the profound beauty of Zen history and practice, nature, and the philosophy of the ancient Zen master Eihei Dogen. Includes photos of Kwong-roshi with his various teachers, as well as selections of his calligraphy. In Zen meditation, anything that comes in your mind will eventually leave, because nothing is permanent. A thought is like a cloud moving across the blue sky. Nothing can disturb that all-encompassing vastness. This is the Dharma. In a collection of short talks and anecdotes, Jakusho Kwong-roshi, a Dharma successor of Shunryu Suzuki-roshi, presents his approach to Buddhist teaching. With an elegant simplicity, Kwong-roshi shows how Zen is experiential rather than intellectual. And with persistent practice, realization is already ours. With photos of Kwong-roshi and his various teachers, along with a selection of his vibrant calligraphy--

Only Don't Know Seung Sahn,1999-04-06 Here is the inimitable Zen Master Seung Sahn up close and personal—in selections from the correspondence that was one of his primary modes of teaching. Seung Sahn received hundreds of letters per month, each of which he answered personally, and some of the best of which are included here. His frank and funny style, familiar to readers of *Dropping Ashes on the Buddha*, is seen here in a most intimate form. The beloved Zen master not only answers questions on Zen teaching and practice, but applies an enlightened approach to problems with work, relationships, suffering, and the teacher-student relationship.

*Zen Teaching, Zen Practice* Kenneth Kraft, 2000 The eleven essays in this volume examine Kapleau's pivotal role in the transmission of Zen to the West. Kapleau's book *The Three Pillars of Zen*, was first published in 1965 and profoundly influenced a generation of Zen practitioners.

**Cypress Trees in the Garden** Richard Bryan McDaniel, 2015-08-19 Richard Bryan McDaniel's *Cypress Trees in the Garden* continues the history of North American Zen which he began in *The Third Step East: Zen Masters of America* (Sumeru Press, 2015). The earlier book described the pioneers who established Zen practice in North America; this new book focuses on the heirs and successors of those teachers and the challenges they faced. Between March 2013 and September 2014, McDaniel traveled from San Francisco to Portland, Maine, from Montreal to Albuquerque, interviewing 75 prominent Zen teachers and their senior students. The result is a book which describes the way in which-like the Chinese and Japanese before them-North Americans have taken an Indian tradition which pre-dates Christianity and reformed it into something uniquely their own. Chapters on teachers in the Rinzai, Soto, and Sanbo Zen traditions provide a strikingly honest portrait of contemporary Zen teaching, practice, and social engagement in the United States and Canada. This survey of current American Zen teachers gives an honest, intimate, look into the inspiring efforts and growing pains of the evolution of Zen in the West. It does this by letting the major players speak in their own voice about how they came to Zen practice, their offerings, their troubles and their hopes for the future of American Zen. I couldn't put it down. - Genjo Marinello, Abbot of Chobo-Ji In *Cypress Trees*, Rick McDaniel masterfully gets out of the way and lets his subjects tell their stories. In so doing, we get a whole sense of this great American Zen experiment from satori to debauchery and back (or vice versa), along with much in the middle. If the Zen root does entangle with the American spirit, then Zen students for generations will cherish this book for the honest portrayals of its founders and failures expressed and exposed here. - Dosho Port Roshi, Great Tides Zen ...this offering is at once a history of Zen and a lovely homecoming. Additionally, McDaniel weaves in fundamental teachings, such as differences between Soto and Rinzai Zen within the context of his narrative. This book should be of interest to the serious Zen student, the casual reader as well as students of the history of religion. - Seiso Paul Cooper Sensei, Two Rivers Zen Richard Bryan

McDaniel taught at the University of New Brunswick and Saint Thomas University before starting a 27 year career in International Development and Fair Trade. He is the creator of the YMCA Peace Medallion. A long time Zen practitioner, he is the author of *Zen Masters of China*, *Zen Masters of Japan*, and *The Third Step East: Zen Masters of America*.

What Is Zen? Norman Fischer, Susan Moon, 2016-02-09 This unique introduction to Zen teaching and practice takes the remarkably accessible form of question-and-answer—making it a most useful reference for looking things up. But whether you're a neophyte or a seasoned practitioner, you'll want to read the whole thing. The questioner (Susan Moon) and the answerer (Norman Fischer) are old friends, each with a unique gift for articulation, and their friendly conversation covers not only the basics but a range of issues unique to Zen in America in the twenty-first century, including: • What is zazen and how do you do it? • Where did Zen start and where did it come from? • Will I have an enlightenment experience? • What is the law of karma in a nutshell? • What do Zen Buddhists say about rebirth? • How do you recognize a good, solid Zen teacher?

*The Inspired Teacher* Donna Quesada, 2016-03-01 Donna Quesada had been teaching for about a dozen years when the first signs of burnout hit her. Rather than give in to her frustration, she reached for Buddha's teachings, the Zen wisdom that formed the basis of her own longtime spiritual practice. She survived the semester and gradually rediscovered the joy in her job that had been progressively declining. In this wise and inspirational book, she shares the lessons she learned—lessons that revealed, time and again, that no matter the situation, it's always about getting your head in the right place first. Resolution begins in our own minds. Some days, some semesters, and even some years will be more challenging and more wearisome than others, she warns. But in *The Inspired Teacher*, Quesada offers a lasting source of encouragement and Zen. Although the book draws from Eastern teachings, the wisdom is for everyone, regardless of personal background, creed, or faith. With elements of *The Last Lecture* as well as *Chicken Soup for the Teacher's Soul*, this is the perfect gift for teachers—but also for anyone needing inspiration.

*Introduction to Zen Koans* James Ishmael Ford, 2018-06-05 An indispensable guide to koans, teaching the reader about the importance of lineage, the practice of “just sitting,” and koan practice as paths to awakening. “This marvelous book opens the treasure house of Zen and yet, happily, does not dispel its mystery. James Ford, an excellent storyteller and longtime Zen practitioner, presents a detailed and beautiful description of the craft of zazen, including “just sitting” and various forms of breath meditation—but focuses primarily on koan introspection. The power of koans, these 'public cases' from China, has never ceased to enrich my own experience of Zen. They are a medium of exploration of the history, culture, and view of Zen, but most importantly are a medium of awakening. James Ford is fundamentally a koan person, and for this, the book is particularly rich, opening the practice of koans in a splendid way. I am grateful for his long experience as a teacher and practitioner of this rare and powerful practice. Since the word koan has found its way into popular English usage, I am grateful too for the more nuanced and fertile view of koans that Ford presents. His definition of the word is telling: “a koan points to something of deep importance, and invites us to stand in that place.” He has also created a wonderful translation of the Heart Sutra, Zen's central scripture—and carefully opens up the heart of the Heart Sutra through scholarship and practice. Rich in textual sources and woven throughout with the perspectives of contemporary teachers, *Introduction to Zen Koans* sheds new light on ancient teachings. Through it, the reader will discover the importance of lineage, the traceless traces of the Zen ancestors, and the places of “just sitting” and koan practice as paths to awakening, as the great doorways into Zen.” —from the foreword by Joan Halifax

**Zen in America** Helen Tworikov, 1994 This expanded edition of the highly acclaimed investigation of Zen teaching in America, by the founder and editor of America's first

Buddhist magazine, lays bare the issues at the heart of the Zen mission. Through in-depth portraits of five American Zen masters, Tworikov creates a trenchant sociological picture of an important strand of American spiritual life. 27 photos.

Ten Gates Seung Sahn, 2007-08-14 Zen is famous for koans (called kong-ans in Korean, and in this book), those bizarre and seemingly unanswerable questions Zen masters pose to their students to check their realization (such as What is the sound of one hand clapping?). Fear of koans keeps some people from ever giving Zen practice a try. But here, through the experience of seeing a modern Zen master work with his students, you can see what koan training is really like: It's a skillful, lively practice for attaining wisdom. This book presents the system of ten koans that Zen Master Seung Sahn came to call the Ten Gates. These koans represent the basic types one will encounter in any course of study. Each of the ten gates, or koans, is illuminated by actual interchanges between Zen Master Seung Sahn and his students that show what the practice is all about: it is above all a process of coming to trust one's own wisdom, and of manifesting that wisdom in every koan-like situation life presents us with. For more information on the author, Zen Master Seung Sahn, visit his website at [www.kwanumzen.com](http://www.kwanumzen.com).

*The Five Houses of Zen*, 1997-04-15 For all its emphasis on the direct experience of insight without reliance on the products of the intellect, the Zen tradition has created a huge body of writings. Of this vast literature, the writings associated with the so-called Five Houses of Zen are widely considered to be preeminent. These Five Houses—which arose in China during the ninth and tenth centuries, often referred to as the Golden Age of Zen—were not schools or sects but styles of Zen teaching represented by some of the most outstanding masters in Zen history. The writings of these great Zen teachers are presented here, many translated for the first time. These include: • The sayings of Pai-chang, famous for his Zen dictum A day without work, a day without food • Selections from Kuei-shan's collection of Zen admonitions, considered essential reading by numerous Buddhist teachers • Sun-chi's unique discussion of the inner meaning of the circular symbol in Zen teaching • Sayings of Huang-po from *The Essential Method of Transmission of Mind* • Excerpts from *The Record of Lin-chi*, a great classical text of Zen literature • Ts'ao-shan's presentation of the famous teaching device known as the Five Ranks • Selections of poetry from the Cascade Collection by Hsueh-tou, renowned for his poetic commentaries on the classic *Blue Cliff Record* • Yung-ming's teachings on how to balance the two basic aspects of meditation: concentration and insight
