The Slot John Clagett,2000 This is an Authors Guild/BIP title. Please use Authors Guild/BIP specs. Author's Bio: Please use author's bio. Description: This is the story of a P.T. Boat captain in World War II involved in the battle of Guadalcanal and his brief affair with his squadron commander's wife. It is a picture of the U.S. Navy in the dark years of war, facing defeat and victory.

Slots David V. Forrest,2012-01-03 A renowned psychiatrist explores the world of slot machine gambling and the almost religious devotion that has turned it into a billion-dollar industry. This astonishing book reveals that there's a lot more to playing slot machines—one of America's fastest growing forms of entertainment—than good fun, deep relaxation and the dream of a multi-million-dollar jackpot. Slots tells how the machines work, how the random numbers that govern them are generated, and how the casinos make their profit . . . slowly but surely . . . as they keep only a dime of every dollar invested. It also offers strategies of slot play, and suggests alternate activities to distract us when casinos become harmfully habitual. But ultimately, as Dr. Forrest writes, to spend one's time feeding money to the machines is to participate in, well . . . a form of prayer. And the gaming industry seems very much aware of it, as players annually plunge more than \$365-billion into slots (of which casinos keep about \$30-billion); and as casinos—70 to 85 percent of whose profits are earned by slot machines—have spread to more than a dozen states and even into a number of racetracks (where they're called "racinos"). What this book describes with both humor and a sense of awe is the way slots emporia have steadily been transformed from underground grottos to soaring cathedral-like structures where congregants sit and commune—all to the end of worshipping the god of chance.

Programming Collective Intelligence Toby Segaran,2007-08-16 Want to tap the power behind search rankings, product recommendations, social bookmarking, and online matchmaking? This fascinating book demonstrates how you can build Web 2.0 applications to mine the enormous amount of data created by people on the Internet. With the sophisticated algorithms in this book, you can write smart programs to access interesting datasets from other web sites, collect data from users of your own applications, and analyze and understand the data once you've found it. Programming Collective Intelligence takes you into the world of machine learning and statistics, and explains how to draw conclusions about user experience, marketing, personal tastes, and human behavior in general -- all from information that you and others collect every day. Each algorithm is described clearly and concisely with code that can immediately be used on your web site, blog, Wiki, or specialized application. This book explains: Collaborative filtering techniques that enable online retailers to recommend products or media Methods of clustering to detect groups of similar items in a large dataset Search engine features -- crawlers, indexers, query engines, and the PageRank algorithm Optimization algorithms that search millions of possible solutions to a problem and choose the best one Bayesian filtering, used in spam filters for classifying documents based on word types and other features Using decision trees not only to make predictions, but to model the way decisions are made Predicting numerical values rather than classifications to build price models Support vector machines to match people in online dating sites Non-negative matrix factorization to find the independent features in a dataset Evolving intelligence for problem solving -- how a computer develops its skill by improving its own code the more it plays a game Each chapter includes exercises for extending the algorithms to make them more powerful. Go beyond simple database-backed applications and put the wealth of Internet data to work for you. Bravo! I cannot think of a better way for a developer to first learn these algorithms and methods, nor can I think of a better way for me (an old AI dog) to reinvigorate my knowledge of the details. -- Dan Russell, Google Toby's book does a great job of breaking down the complex subject matter of machine-learning algorithms into practical, easy-to-understand examples that can be directly applied to analysis of social interaction across the Web today. If I had this book two years ago, it would have saved precious time going down some fruitless paths. -- Tim Wolters, CTO, Collective Intellect

Change Me Into Zeus's Daughter Barbara Robinette Moss,2002-01-27 A haunting and triumphant story of a difficult and keenly felt life, *Change Me into Zeus's Daughter* is a remarkable literary memoir of resilience, redemption, and growing up in the South. Barbara Robinette Moss was the fourth in a family of eight children raised in the red-clay hills of Alabama. Their wild-eyed, alcoholic father was a charismatic and irrationally proud man who, when sober, captured his children's timid awe, but when (more often) drunk, roused them from bed for severe punishment or bizarre all-night poker games. Their mother was their angel: erudite and stalwart -- her only sin her inability to leave her husband for the sake of the children. Unlike the rest of her family, Barbara bore the scars of this abuse and neglect on the outside as well as the inside. As a result of childhood malnutrition and a complete lack of medical and dental care, the bones in her face grew abnormally (like a thin pine tree), and she ended up with what she calls a twisted, mummy face. Barbara's memoir brings us deep into not only the world of Southern poverty and alcoholic child abuse but also the consciousness of one who is physically frail and awkward, relating how one girl's debilitating sense of her own physical appearance is ultimately saved by her faith in the transformative powers of artistic beauty: painting and writing. From early on and with little encouragement from the world, Barbara embodied the fiery determination to change her fate and achieve a life defined by beauty. At age seven, she announced to the world that she would become an artist -- and so she did. Nightly, she prayed to become attractive, to be changed into Zeus's daughter, the goddess of beauty, and when her prayers weren't answered, she did it herself, raising the money for years of braces followed by facial surgery. Growing up so ugly, she felt the family's disgrace all the more acutely, but the result has been a keenly developed appreciation for beauty -- physical and artistic -- the evidence of which can be seen in her writing. Despite the deprivation, the lingering image from this memoir is not of self-pity but of the incredible bond between these eight siblings: the raucous, childish fun they had together, the making-do, and the total devotion to their desperate mother, who absorbed most of the father's blows for them and who plied them with art and poetry in place of balanced meals. Gracefully and intelligently woven in layers of flashback, the persistent strength of Barbara Moss's memoir is itself a testament to the nearly lifesaving appreciation for literature that was her mother's greatest gift to her children.

Welcome to the Writer's Life Paulette Perhach,2018-08-14 Learn how to take your work to the next level with this informative guide on the craft, business, and lifestyle of writing With warmth and humor, Paulette Perhach welcomes you into the writer's life as someone who has once been on the outside looking in. Like a freshman orientation for writers, this book includes an in-depth exploration of all the elements of being a writer—from your writing practice to your reading practice, from your writing craft to the all-important and often-overlooked business of writing. In *Welcome to the Writer's Life*, you will learn how to tap into the powers of crowdsourcing and social media to grow your writing career. Perhach also unpacks the latest research on success, gamification, and lifestyle design, demonstrating how you can use these findings to further improve your writing projects. Complete with exercises, tools, checklists, infographics, and behind-the-scenes tips from working writers of all types, this book offers everything you need to jump-start a successful writing life.

Eternity in Their Hearts Don Richardson,2010-10 Startling Evidence of Belief in the One True God in Hundreds of Cultures Throughout the World Has the God who prepared the gospel for all people groups also prepared all people groups for the gospel? Don Richardson, author of the best - selling book *Peace Child*, has studied cultures throughout the world and found within hundreds of them startling evidence of belief in the one true God. In *Eternity in Their Hearts*, Richardson gives fascinating, real - life examples of ways people have exhibited in their histories terms and concepts that have prepared them for the gospel. Read how Pachacuti, the Inca king who founded Machu Picchu, the majestic fortress in Peru, accomplished something far more significant than merely building fortresses, temples or monuments. He sought, reached out and found a God far greater than anypopulargod of his own culture. And there have been others throughout the world, likehim, who2vedto

receive the blessing of the gospel. Get ready to be amazed at these intriguing examples of how God uses redemptive analogies to bring all men to Himself, bearing out the truth from Ecclesiastes that God has also set eternity in the hearts of men.

Casino City's Global Gaming Almanac ,2008

The Odyssey 1 & 2 Homer,1991 This edition is produced with particular concern for the student coming to Homer for the first time. The text is given with facing translation and commentary, but the usual apparatus criticus at the bottom of each page is replaced by brief notes on Homeric language. This makes the text considerably more accessible for those without Homeric Greek.

The Mystery of Love Ayman Baroudi,2023-06-07 Love, like fire, triggered my first short story even though I was still ten. I am now seventy, yet the same fire still starts me to write. Love makes miracles. Don't you think so? Now, what about the book? It's a bold trial to raise a question that concerns us, keeps us alive, and makes the world go around but does not expect an answer. The challenging question is, how to keep the fire of love on and save our passion from the trip of boredom and monotony? Is moving beyond conventional monogamy the answer? Maybe yes, maybe not, because love is a mystery to enjoy, not to sort out.

Deep Inelastic Scattering - Proceedings Of The 8th International Workshop John A Gracey,Tim J Greenshaw,2001-02-22 This volume focusses on four main topics: structure functions, tests of quantum chromodynamics, physics at the highest Q2 and p2T, and high energy scattering and diffraction. Comprehensive review articles on hadronic and photon structure, lepton-parton and parton-parton physics as well as future experimental opportunities are presented, together with a special lecture on HERA's legacy after the first decade of operation.

Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

Casinos Joseph H. Bain,Eli Dror,1997-06

Doctor Zeus Brian S Parrish,2021-05-04 Syd is bitten by an odd bug-a writing sort of bug, and though it takes the better part of a moon to identify its patchwork origins, it didn't fall that far from the original crabapple. Doctor Zeus makes a sweet sixteen for the Uncommon Synths Saga: the straight dope in 13 frames.

Transfer Learning Qiang Yang,Yu Zhang,Wenyuan Dai,Sinno Jialin Pan,2020-02-13 This in-depth tutorial for students, researchers, and developers covers foundations, plus applications ranging from search to multimedia.

Nemea Stephen G. Miller,2023-11-10 In classical antiquity, beginning in 573 B.C., Nemea hosted international athletic competitions like those at Olympia, Delphi, and Isthmia; the games at the four sites constituted the Panhellenic cycle, and the victors were the most famous athletes of antiquity. Nemea was never a city-state but served as a religious and athletic festival center where the Greek world assembled every two years under a flag of truce. Since 1974, excavations sponsored by the University of California at Berkeley have revealed many details of Nemea's history, as well as evidence for the nature of the buildings and other facilities which were part of the festival center. These discoveries, together with smaller finds in the museum and ancient literary and epigraphic sources, form the basis of a new and sharply defined picture of the Nemean Games. This guidebook is an introduction to the history and physical remains of the festival center and a complement to detailed final publications on the excavation now being prepared. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990. Contributors: Ana M. Abrahams, Darice Birge, Alison Futrell, Michael Goethals, Lynne Kraynak, Mark Landon, Jeannie Marchand.

Traditions of Heroic and Epic Poetry: Characteristics and techniques John Bryan Hainsworth,Arthur Thomas Hatto,1980

Winning Gambling Strategies Philip Nehrt,2012 Dedicated research on other systems and personal experimentation has turned a handful of notes into a comprehensive collection of potentially winning strategies. First and foremost, it is important to understanding that there is no winning system that can beat the mathematical odds that the casino has against a player. However, this book teaches you strategies to follow while in the casino, giving you a large amount of information to help you walk out a winner. These tips can benefit players of all experience levels. You will learn to think how the casino thinks, and avoid the traps they set for every player. Inside you will find the general rules for each of the main games, tips on how to approach a table, what to say to the dealers, how to handle your money, and especially a broad range of specific strategies, or systems for each of the games covered. This book makes the game and strategy information easy to understand and follow, as well as fun and enjoyable to read, with a bit of irreverent humor sprinkled throughout.
