**Startup Asia** Rebecca A. Fannin,2011-10-25 Showing how entrepreneurs and investors can start up in Asia and go global, the book provides a first-hand, on-the-ground tour of the new technology centers that are gaining momentum all over Asia. Interviews with the most successful venture capitalists and entrepreneurs reveal their winning strategies and show how a new generation of entrepreneurs in China and India are no longer looking to the West for their cues - but are instead crafting their own local business models and success strategies.

[Online around the World](#) Laura M. Steckman,Marilyn J. Andrews,2017-05-24 Covering more than 80 countries around the world, this book provides a compelling, contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum—one in Indonesia, with more than seven million registered users? Why does Mongolia rate in the top-ten countries worldwide for peak Internet speeds? Readers of Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps will discover the answers to these questions and learn about people's Internet and social media preferences on six continents—outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate the incredible power of online interactions across otherwise-unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

**The Global Digital Economy: A Comparative Policy Analysis** Carin Coates,2015-01-08 This book explores the intersection of public policy and the fast changing digital media economy. Over the last 20 years, digital technologies and digital content have revolutionized many aspects of social, economic and political life around the world. Governments, locked into the policies and programs of the traditional economy, are struggling to respond to this dynamic and commercially unique global ecosystem. This study examines the nature and extent of the digital economy, looking at both the

commercial diversity within the sector and the different digital implementations across the world. While the digital engagement of North America is well known, the scale and intensity of digital growth in East Asia is not fully understood nor are the transformative changes occurring in parts of Africa. The digital world is marked by the unexpected and rapid re-orientation of economic, social, cultural and political affairs. The digitization of work, for example, has already brought major disruptions within national economies. Governments are struggling to respond, in part because of pressures from the traditional industrial and resource sectors but also because of the unique, somewhat anarchistic nature of the digital content industry. The Global Digital Economy provides a profile of the global digital environment, reviews current government digital policies (with an emphasis on innovative strategies), and offers policy suggestions for national and subnational governments. Countries that respond creatively to the digital economy--like Taiwan, South Korea, Finland and Israel--stand to prosper from the anticipated accelerated growth of the sector. Those nations that struggle to keep pace with the digital infrastructure needs of the new economy and with the potential for employment and business creation stand to fall behind economically. This book provides a policy roadmap for the digital economy and identifies the risks and opportunities of this core sector in the twenty-first-century economy.

Soft Computing: Biomedical and Related Applications Nguyen Hoang Phuong,Vladik Kreinovich,2021-06-16 This book lists current and potential biomedical uses of computational intelligence methods. These methods are used in diagnostics and treatment of such diseases as cancer, cardiac diseases, pneumonia, stroke, and COVID-19. Many biomedical problems are difficult; so, often, the current methods are not sufficient, new methods need to be developed. To confidently apply the new methods to critical life-and-death medical situations, it is important to first test these methods on less critical applications. The book describes several such promising new methods that have been tested on problems from agriculture, computer networks, economics and business, pavement engineering, politics, quantum computing, robotics, etc. This book helps practitioners and researchers to learn more about computational intelligence methods and their biomedical applications—and to further develop this important research direction.

Feel the Beat: Dance Poems that Zing from Salsa to Swing Marilyn Singer,2017-03-07 An irresistible book of poems about dancing that mimic the rhythms of social dances from cha-cha to two-step, by the acclaimed author of Mirror Mirror Marilyn Singer has crafted a vibrant collection of poems celebrating all forms of social dance from samba and salsa to tango and hip-hop. The rhythm of each poem mimics the beat of the dances' steps. Together with Kristi Valiant's dynamic illustrations, the poems create a window to all the ways dance enters our lives and exists throughout many cultures. This ingenious collection will inspire readers to get up and move! Included with the e-book is an audio recording of the author reading each poem accompanied by original music.

Performance and the Global City D. Hopkins,K. Solga,2013-10-15 Winner of the Association for Theatre in Higher Education Excellence in Editing Award 2016 Following the ground-breaking Performance and the City, this new volume explores what it means to create and experience urban performance – as both an aesthetic and a political practice – in the burgeoning world where cities are built by globalization and neoliberal capital.

**De reden dat ik zing** Anne Norvan,2013-06-04 Als niemand haar hulp heeft kunnen bieden en Anne als laatste redmiddel dan maar naar een verslavingskliniek gaat, komt ze al gauw terecht in een verdrongen werkelijkheid die nog veel erger blijkt te zijn dan al haar verslavingen bij elkaar. Samen met haar alters waar ze het bestaan nooit van heeft besef, kijkt ze terug en stapt ze van het altijd en eeuwige 'overleven' naar het Leven. Anne Norvan neemt met haar semi-autobiografisch debuut de lezer mee op de weg die God met haar gegaan is. Het is een boek van hoop, liefde en verandering.

*Competition Policy and Patent Law under Uncertainty* Geoffrey A. Manne,Joshua D. Wright,2011-06-13 The regulation of innovation and the optimal design of legal institutions in an environment of uncertainty are two of the most important policy challenges of the twenty-first century. Innovation is critical to economic growth. Regulatory design decisions and, in particular, competition policy and intellectual property regimes can have profound consequences for economic growth. However, remarkably little is known about the relationship between innovation, competition and regulatory policy. Any legal regime must attempt to assess the trade-offs associated with rules that will affect incentives to innovate, allocative efficiency, competition, and freedom of economic actors to commercialize the fruits of their innovative labors. The essays in this book approach this critical set of problems from an economic perspective, relying on the tools of microeconomics, quantitative analysis and comparative institutional analysis to explore and begin to provide answers to the myriad challenges facing policymakers.
