Business Strategies for Magazine Publishing Mary Hogarth,2018-04-17 Business Strategies for Magazine Publishing explores tactics for creating financially sustainable publications in the 21st century. Mary Hogarth, media specialist, Senior Fellow (HEA) and lecturer in Journalism at Bournemouth University, analyses the historical development of the magazine industry, as well as current and future challenges for publishers, to illustrate different approaches to revenue generation and the maintenance of magazine brands. The book examines the wide-ranging impact of digital technology on how magazine content is consumed, revealing the dramatic consequences for advertising, distribution and marketing strategies. Traditional business models are evaluated alongside new online approaches, and readers will be introduced to the Magazine Publishing Strategic Quadrant, a model created by the author as an alternative to the Business Canvas Model. In addition, in-depth interviews with high-profile industry figureheads and magazine editors, such as Jessica Strawser of Writer's Digest and former Good Housekeeping Editorial Director Lindsay Nicholson, offer readers an insight into how to produce and monetise online content. These interviews appear alongside exercises and action plans that give readers the opportunity to put what they have learned into practice. With real-world advice and practical activities and resources throughout the book, journalism students and young professionals will find this an essential guide to successfully building a career in the modern magazine industry.

Demystifying Trusts in South Africa, 2nd Edition Phia van der Spuy,2021-10-06 If you knew you were going to die tonight, would your loved ones have enough money to cope financially until your estate is wound up? Would there be enough cash or liquidity in your estate to pay the different costs that would arise?

Beavers in Britain's Past Bryony Coles,2006 Part ecology, part archaeology and part history, *Beavers in Britain's Past* explores the evidence for Castor fiber, the European beaver from late in the last ice age to the time of its extinction from Britain's native fauna. The first chapters introduce the beaver and its habitats in western Europe, where it is now flourishing. Based on original field survey in Brittany and southeastern France, the characteristic structures and features of three contrasting beaver territories are documented and analysed, with a view to identifying beaver activity in the archaeological record. Beavers are a keystone ecological species, modifying their waterside surroundings to the benefit of many other species, both plant and animal, including humans. The book then focuses on the archaeological and historical record, from the return of beavers after the severe cold of the last glaciation through 13000 years of living alongside humans, to their disappearance from the record. In the light of the field survey results, beaver influence is identified at a number of well-known wetland sites of prehistoric date, while the evidence for human exploitation of beavers becomes increasingly diverse through time. In the post-Roman period it expands to include place-names, carvings and illuminated manuscripts, written records and oral traditions. Analysing the record in the light of the field survey results and increasing knowledge of the behaviour of European beavers, it is argued that beavers vanished from human perception but did not become extinct until the later second millennium AD. *Beavers in Britain's Past* provides a new perspective on the archaeology and history of Britain and demonstrates the significance of beavers to the environment of Britain.

A Book of Myths Jean Lang,2023-07-11 A Book of Myths deals in a most entertaining manner with the mythology of Greece and Rome and many other noted lands. Added to the pleasure of the story there is the lure of the legend and the spell of old ways and customs. Not only many of the most celebrated are retold, but also many of the less well-known tales. The aim of the author, it is stated, has been to simplify for those who are not erudite scholars the stories of mythology, to which constant reference is made not only in classic, but in modern poetry, and to direct the attention of readers to poems which are not already known to them. Included are tales of Prometheus, Pygmalion, Orpheus, Perseus, King Midas, Pan, the Lorelei, Baldur and many more.
