*Pronunciation Contrasts in English* Don L. F. Nilsen, Alleen Pace Nilsen, 2010-01-27 In this vibrant second edition, the authors have drawn from their own multiple years of teaching and from the knowledge and ideas of 50 linguists and ESL teachers who specialize in particular languages. New to this edition is Part I, an entire section on English spelling as a morphophonemic system. Here, Nilsen and Nilsen clearly explain concepts and patterns of English spelling, pronunciation, and meaning to ease the process of learning English for non-native students as well as their teachers. In addition, the authors provide sample activities that creatively and effectively engage students in grasping a particular concept, and include illustrative examples that show English is a systemic language. In Part II, the authors provide extensive lists of both vowel and consonant contrasts, each with phonetic diagrams and descriptions, minimal pairs (both isolated and in sentences), and specific languages for which the contrast may be problematic. These valuable examples help students hear and produce pronunciation differences that are important in English and bring their pronunciation closer to that of native English speakers. Both prospective and practicing teachers will appreciate the flexibility and freedom afforded by these well-designed materials.

**Ton Up!** Paul d'Orleans, 2019-12-17 Ton Up! A Century of Café Racer Speed and Style focuses on the story of the ton-up boys and their café racers. But it's much more than just that. Illustrated with historic and modern photos and featuring a text by one of the world's motorcycle historians, it's really the story of motorcycle speed and style evolved from the early 1900s right through today. Café racers are most associated with the young, rebellious rock-and-rollers of 1960s Britain. These riders created the quintessential café racers—fast motorcycles customized to resemble the racing bikes of the period. They were called “café racers” because their riders raced on public roads, from one café to the next. The goal was to do “the ton” (exceed 100 miles per hour) on these runs, which led to their designation as “ton-up boys.” Today, ton-up culture is more popular than ever and recognized worldwide with a following of young and long-time riders alike. With Ton Up!, enjoy a scenic ride through the history of this vibrant scene.

The Motor Boat Francis P. Prial,1910

*Too Old for Motor Racing* Don Simpson,2014-02 We all have dreams of what we want to do and who we want to become.

Many of us eventually decide it is too late; we have missed our chances. But is it ever really too late to try? Don Simpson does not think so. In his memoir, *Too Old for Motor Racing*, he tells the story of how he became a race car driver at the age of sixty-two. Simpson is an ordinary man from a regular family; he spent his early years living on a council estate in Liverpool, UK. He attended the school at the end of his street, leaving as soon as he could. As a young man with a young family, he could not indulge in his passion for motor racing except as a spectator; racing was simply too expensive and risky for someone with a family to take care of. Later in life, however, Simpson discovered limits are almost always imagined, not real. At the age of sixty-two, he began to race. Although your passion may be for something other than motor racing, this memoir seeks to inspire you to go after your dreams, because it is never too late to try.
