**Where the World Ends** Davide Cali,2020-10-06 Where do the clouds go when we can no longer see them? asked Zip. I don't know, said Trik. Maybe they all end up where the world ends, said Flip. One simple question turns an ordinary day for three friends lying in the grass and staring at the sky into an extraordinary adventure. Zip, Trik, and Flip decide to set off to find where the world ends. The journey takes the trio across fantastical landscapes-a lakeside city on stilts, a mysterious and magical forest, a snowy mountaintop-with countless delightful details for young readers to discover. Along the way doubtful onlookers discourage their quest and each time they think they have reached the end of the world, it seems to move further away. In the face of these challenges, the three friends maintain their spirit and motivation, enjoying the journey as much as the destination, before returning to their homes again.

*Arachnid 2.0* Lee Gabel, 2019-09-23 Spiders. Over 35,000 species. Every person on Earth eaten in one year. Now there's one more... a ravenous eight-legged hybrid thousands of years in the making and bigger than a dozen burritos. After a summer of exterminator training in New York, Bradley returns home ready to face his senior year with renewed confidence. But fate gets in the way of his grand teenage plans – especially when eight legs attack instead of four. And these aren't your typical, everyday spiders. Their newly acquired taste for raw meat has them casting a wide net over Bradley's sleepy San Fernando suburb. It doesn't take them long to scramble up the food chain. Add a vengeful ex-girlfriend casting a web of lies into the mix, and things get downright sticky. But Detest-A-Pest can't resist a challenge. Sam and O'Connor rejoin Bradley and his inventive friends as they wage war on an infestation of spiders poised to swallow not only the high school, but the neighborhood and everyone within... *Arachnid 2.0* is a fast-paced creature feature horror novel, book two of the popular Detest-A-Pest series. Praise for *Arachnid 2.0* I am no longer young and usually cannot identify with younger points of view in books. I instantly was catapulted into this world and I loved it. This book had the right amount of realism, gruesomeness and horror. it is a winner. I did not read the first book and I now regret that. I will buy the third though. Another great one! First there were rats and now spiders. I am so glad the story continues! Not only are the spiders trying to kill everyone, but they have to watch out for one vengeful ex girlfriend. I love all the characters in this series and I love the way new characters have been introduced. If you love creature horror books, definitely read this. The spiders are not your ordinary spiders and they have one objective...kill. With lots of action and some humor thrown in, it will keep you reading on way past your bedtime. The good news...another book is coming in 2020. Got the Ebook yesterday, read it in two days, loved it. The next Stephen King, Can't wait for the next one. I like the subject matter of this series. The creep factor is great! I'm having a great time getting to know this cast of characters, O'Connor is my fav! Everyone should have a pal like her, she cracks me up :) I'm a fan of series books, so I'm looking forward to the next story. folks who are fans of movies like Willard, arachnophobia would dig this series. Although, Books are so much cooler than movies..... I live in the redwoods, and after reading this book, I am paying way more attention to what's in the shadows! This second book in the series takes another step forward from good to great. The characters and the story is something Stephen King would be proud of, don't miss this one!!! Fast-paced horror. Colorful and memorable characters and a great story. Warmly recommended. I loved it!
