With a society and a zombie threat unlike any other, the story quickly grows beyond its original concept and begins to explore the divide between the Infected, sent to scavenge the wastelands, and those who are not, who live in the safety and comfort of the Argus Research Campus. Donald Trump, Zombie Hunter Charlie Roberts, 2017-04-16 The dead have risen to devour the living...and President Donald Trump is fighting back! It's a blood-soaked, action-packed zombie apocalypse that begins at a rally in Nashville, staggers to the Oval Office and the CDC, and ends in a battle royale at the border wall, as Donald Trump, a brave team of warriors, and a machete that never rests fight a life-or-death war to Make America Human Again! The zombie outbreak begins all over the world at virtually the same moment ... and for President Donald Trump, it begins during a rally in Nashville, Tennessee. He and his Secret Service AIC are forced into hand-to-hand combat with the dead, and barely escape with their lives - and the help of a brave team of commandos led by a Special Forces soldier named Tomlin. These are classic George Romero zombies, except faster and even more angry. And by the time Trump, Agent Diaz, and Tomlin land on the South Lawn of the White House, the world has been lost. They have to fight again -

guns and knives vs. the relentless hunger of the walking dead - and actually make to the Oval Office. They learn just how bad things have become and decide to move their base of operations to the Center for Disease Control in Atlanta ... just as former President Barack Obama arrives. He's already lost his wife, and barely begins to speak before his arm falls off and he transforms into a bloodthirsty zombie right in front of them. President Trump moves fast: He takes a machete from one of the fallen and slices the top off ex-Obama's head, stopping the Presidential zombie forever and revealing an evil little worm-thing that has eaten his brain. Is that the source of the rising dead ... or has it been there much longer? Within moments, Trump and his team - including the beautiful and mysterious blonde Stacey Chase - fight their way back out of the Oval Office to the chopper and rush to the CDC. Communications indicate it's still safe, but they land on the wrong building at the worst possible time to find that the Center has only just fallen. The Undead attack; they lose the chopper, and Trump and his shrinking team of survivors have to fight their way down ten flights of stairs, past ravenous zombies and crazed humans, just to escape in an Army MRAP. They lose the intriguing Stacey Chase even as she unlocks the vehicle that allows them to flee ... to their final destination: the Border Wall. When Trump and his battle-hardened crew reach the huge and still secure construction site in Sierra Blanca, East Texas, they have to fight through mobs of zombie protesters, zombie media people, and zombie construction workers to reach true safety. They even have to use a massive bulldozer to haul away tons of the walking dead in a final battle royale. But they make it. And Trump is able to tap into what remains of the worldwide communications network, reach out to the survivors and heroes who still exist across a zombie-infected world, and tell them there is still hope. That together, they can re-take their country. They can Make America Human Again!

Samurai Zombie Hunter Cristian Youngmiller, 2014-04-21 The extinction of humanity approaches... Out of the jungles of South America stumbled an infected priest. 10 years later the zombie infection has seeped out of the shadows and gutters and has spread across the globe. Governments crumble as they decide who should live and who must die. Out of this pre-apocalyptic world emerges Donovan Leeds, an ordinary man who dreams of becoming a Samurai. Paralyzed by loneliness after he is mysteriously abandoned by everyone he loves, Van wakes one warm night to find a figure holding a sword at the foot of his bed. Obligated by a profound debt, Van hires out his samurai sword and a river of zombie blood follows. To a desperate world, Van becomes a folk hero; to the secretly infected, he is 'the beginning of a war'. As humanity's darkest forces gather on one side and the incurably diseased gather on the other, civilization is on the brink of its bloodiest war. And Van, blinded by love and a secret that could change the course of mankind, must decide who to kill to prevent the zombie apocalypse.

The Zombie Hunter's Wife Jill James, 2015-10-11 Is marriage an antiquated relic in the zombie apocalypse? Michelle Greggs had the perfect life; a loving husband, a nice home in San Francisco, and a belief in safety and security. That all ended the day the zombies rose. Against her wishes, her husband Mitch goes to one last day at his job as a police officer in the chaos of the Z virus epidemic. When he returns home as the undead, she is forced to kill her one and only love. With no safety and security to be had in S.F. she is evacuated to the middle of nowhere in Central California. There, she clings to the remnants of safety behind cement walls, allowing others to venture outside to do the necessary killing of the undead. Teddy Ridgewood proclaims himself the King of Pittsburg, population 1. To the survivors he joins, he projects an image of a fun-loving guy, thinking the zombie apocalypse is a never-ending video game. Inside, he dies a little with each undead kill, still seeing the people they were. Michelle yearns to embrace Teddy's live-for-today attitude as much as she yearns to embrace the man himself, but both things scare her more than the undead moaning outside the walls of the compound. Can Teddy help Michelle to

let go of her fears, to enable her to find the strength he believes she has deep inside?
