Norman Reedus: True Tales of The Walking Dead's Zombie Hunter Mc Shapiro,2015-09-10 Where does reality stop and fantasy begin? In the case of The Walking Dead superstar Norman Reedus, the question is still very much up in the air. His Daryl Dixon is a very flawed, psychologically scarred character in a zombie-infested world. And there is much in his portrayal that is informed by a real life that is equally flawed and equally scarred. In Norman Reedus: An Unauthorized Biography: True Tales of the Walking Dead's Zombie Hunter, the first detailed look at Norman Reedus' life and times, you will get it all. The good, the bad and the ugly. This book chronicles his days as a defiant young man in a fractured but ultimately liberating family life, allegations of physical abuse from Reedus himself, to his struggles in the Los Angeles art underground, alcohol problems that saw him in AA and, for a time, homeless, his breakthrough in acting, modeling and the slow, steady and never boring journey through love, fatherhood and his often truly odd professional choices. You'll discover why Reedus said thanks but no thanks to an offer to play opposite a reigning superstar, how he became Daryl Dixon and how The Walking Dead changed his life. Oh yes, there is that penchant for roadkill. New York Times Bestselling author Marc Shapiro has dug deep, tracking down people who knew him way back when as well as in the here and now for original interviews. They were willing to talk and they revealed stories about Reedus that even the most fanatic fans won't know. The author's research was relentless, digging into deep, dark and obscure corners. Norman Reedus' world is about real life wrapped around a world of fantasy. Norman Reedus: The Unauthorized Biography: True Tales of the Walking Dead's Zombie Hunter pulls no punches, tells only the truth and leaves the rest up to the reader. Which ultimately is the way Norman Reedus would want it.

Mathematical Modelling of Zombies Robert Smith?,2014-10-14 In this terrible new COVID-19 world, the University of Ottawa is doing its part by offering a 50% discount on this very important book. We decided not to rewrite the witty book description, though we realize it is tone-deaf at the present moment, as we wanted to give readers a sense of the tone of this title. But don't be deceived: while a fun read, this book will help you better understand how epidemiologists, governments and health care planners use mathematical models to figure out how quickly epidemics and pandemics spread, in order to plan appropriately. Reading has perhaps never been as important, and this book should be at the top of your reading list. You're outnumbered, in fear for your life, surrounded by flesheating zombies. What can save you now? Mathematics, of course. Mathematical Modelling of Zombies engages the imagination to illustrate the power of mathematical modelling. Using zombies as a "hook," you'll learn how mathematics can predict the unpredictable. In order to be prepared for the apocalypse, you'll need mathematical models, differential equations, statistical estimations, discretetime models, and adaptive strategies for zombie attacks—as well as baseball bats and Dire Straits records (latter two items not included). In Mathematical Modelling of Zombies, Robert Smith? brings together a highly skilled team of contributors to fend off a zombie uprising. You'll also learn how modelling can advise government policy, how theoretical results can be communicated to a nonmathematical audience and how models can be formulated with only limited information. A forward by Andrew Cartmel—former script editor of Doctor Who, author, zombie fan and all-round famous person in science-fiction circles—even provides a genealogy of the undead. By understanding how to combat zombies, readers will be introduced to a wide variety of modelling techniques that are applicable to other real-world issues (biology, epidemiology, medicine, public health, etc.). So if the zombies turn up, reach for this book. The future of the human race may depend on it.

The Zombie Hunters Jenny Romanchuk,2010-11-26 Follow this team of zombies hunters as they try to survive a salvage expedition. What first seemed like a harmless bit of extracurricular looting has now gone horribly wrong, and the team finds themselves fighting for their survival armed with nothing but improvised weapons and mouths full of colourful profanities. A comic that began as a short story for friends on the web, The Zombie Hunters has grown into an exploration of what the world would be like, following a deadly apocalypse. With a society and a zombie threat unlike any other, the story quickly grows beyond its original concept and begins to explore the divide between the Infected, sent to scavenge the wastelands, and those who are not, who live in the safety and comfort of the Argus Research Campus.This title is a graphic novel.

The Legend of Navin Holt - Zombie Hunter L John Farrelly,2011-07-01 Around 620,000 men died during the American Civil War that raged from 1861 to 1865. Of these, over 204,000 were killed in action or died from their wounds. Nearly twice that number succumbed to diseases such as typhoid, dysentery and consumption. The rest are unaccounted for. Both Union and Confederate records are sketchy in their official explanations, writing the numbers off as 'desertion', 'missing in action' or 'unknown'. The truth about the missing dead has never been revealed. Until now. PART ONE OF TWO

Will she be able to balance her medical duties with her newfound role as a superhero? Find out in this captivating tale that will leave you on the edge of your seat. Vickie: Doctor by day. Zombie Hunter by night is book one of the thrilling and adventurous Vickie series. Here is what a few readers are saying... I could not help but to laugh. There are things that are mentioned in the book, and at about 1/4 of the way into the book, I've got some ideas about what may be going on. I guess I'll find out. On some things I thought, I was right, on others I was completely off the mark. I truly hope that Eileen writes a follow up to this book. If I could give this more than 5 stars, I would. Definitely a paranormal/romance/mystery with a bit of thriller thrown in. This was such a great book. The imagination of this author is astounding! This isn't your typical zombie book and I didnt really think it horror but everyone is different. As I said this is a different take on zombies but its also a great story. Vickie is a doctor who sets up in a new town as their new resident doctor since the old one passed. She rents a huge house which she runs her office out of as well as has some boarders turned friends staying with her. I dont know what else to say about this book that wont give away spoilers so I'll have to just leave it at that. This is a really great book with a strong heroin and two very hot alpha males who both want her. Add in some supernatural things like zombies, witches and vampires and this book is all you need for a lazy day of reading.
