Rik Riezebos,Jaap van der Grinten

Brand Meaning Mark Batey,2015-12-07 This second edition of Brand Meaning lays out new territory for the understanding of how brands both acquire and provide meaning. The author draws on his experience with leading international companies to propose a compelling framework for the conscious and unconscious ways in which people connect with products and brands. Revised and updated, it contains contemporary as well as classic examples of brand meaning in practice from various countries, and expands on the theory, methods and applications of brand meaning. The book’s multidisciplinary approach and concise yet comprehensive content makes it an ideal supplemental reader for undergraduate, graduate, and MBA courses, as well as valuable reading for practitioners in the fields of marketing, advertising and consumer research. Positioning the Brand Rik Riezebos,Jaap van der Grinten,2012-03-15 Positioning is hot. Not only in the realm of consumer goods manufacturers, but also for other companies, institutions, governments and even individual persons. An explosion of good quality products on the market and targeted media and advertising campaigns has led to an increasing interest from organizations as to how to strategically position their brand. Up to now, only a few books on positioning were published. Positioning the Brand picks up the gauntlet with an approach based on two fundamental choices: Firstly, the book was written from the perspective of the brand manager, and has therefore been shaped as a practical roadmap. Secondly, this book advocates a new stance on positioning, teaching the reader to look from the inside-out, instead of adopting the usual outside-in methodology. This inside-out approach departs from an analysis of the corporate identity, enabling better fulfilment of external positioning, and ensuring internal support. This book is intended for (future) managers, marketing professionals and communication professionals responsible for the commercial success and reputation of a brand. The contents have a practical set-up, reinforced by engaging examples, and enable the reader to individually complete a positioning process.

Alphabet Inger Christensen,2001 A startling and gorgeous work by Denmark's most admired poet finally available in English translation.

Atlantis, the Eighth Continent Charles Berlitz,1984 For thousands of years before the beginning of recorded history -- the legends tell us -- a powerful civilization flourished in the middle of the Atlantic Ocean. This breathtakingly advanced island continent boasted splendid cities, golden temples, crowded seaports from which the far-reaching influence of Atlantis spread to the rest of the world, until its destruction in an overwhelming cataclysm. Now, based on careful study of scientific undersea research, Charles Berlitz proves that Atlantis is not legend but fact -- and unravels a mystery even more startling than the Bermuda Triangle! What message lies buried with the mighty stone structures deep beneath the Atlantic? What profound revelations about Atlantis have come to us from beyond the Earth? Was Atlantis destroyed in an ancient nuclear war? What great centers of Atlantean culture yet await discovery?
