Journeys East Alan Chong,Noriko Murai,2009 In 1883, Isabella Stewart Gardner and her husband embarked on a trip that would take them from Boston, across the Unites States and the Pacific, to Japan, China Cambodia and finally, the India of the Raj. Travelling in the wake of recent Western expansion into Asia, they were privileged guests in a world convulsed by colliding forces and identities. They visited ancient temples; met missionaries and colonial officials; toured rubble left but anti-Western riots; camped at Angkhor Wat but took first-class trains throughout India. Isabella kept a diary, bought photographs, and assembled a travel album. Back home, she became a pioneering collector of Asian art. 'Journeys East' reconstructs the Gardners' epic journey with illustrations from Isabella's albums and quotations from her diary and her husband's letters and notes. Isabella's evolving relationship to Asia is the subject of essays by Alan Chong, Noriko Murai, and Christine Guth, amoth other major authorities, that consider a broad range of topics, from the Japanese tea ceremony to her selection and display of Asian art at her extraordinary museum in Boston. A new kind of book, 'Journeys East' combines the history of travel and collecting with the study of East-West relations. Nearly all the 400 illustrations in this oversize book reproduce vintage photographs on her travels. In numerous instances, the photographs document sites long changed beyond recognition. The book will be of exceptional interest to readers of Joseph Conrad. ILLUSTRATIONS 400 illustrations

The Strange Countess Edgar Wallace,2022-05-24 A novel full of intriguing characters who you can never fully trust, if you loved Netflix’s ‘You’ you’ll love this. This shadowy mystery novel follows Lois an unassuming young girl who has just been hired as the secretary for a wealthy countess. As the days progress she begins to notice a man everywhere she goes, following her, relentlessly. Soon she becomes wrapped in a web of secrets, betrayal and deceit that might cost her life. It is a carefully crafted plot that tears ahead with blinding pace never letting you catch your breath. Its fact paced structure make the book perfect for someone on the go looking for a mighty injection of classic mystery in to their lives. Edgar Wallace (1875-1932) was an English writer, poet and journalist. He was such a prolific writer that his publisher claimed his work could account for a quarter of all books sold in England. He wrote countless books, screenplays, poems and historical non-fiction, spawning over one hundred and sixty films based on his work. He unfortunately passed away suddenly before he could see his most famous creation ‘King Kong’ come to life. It has been adapted several times over the years, notably by Peter Jackson of Lord of the Rings fame, and more recently in ‘Godzilla vs Kong’ starring Millie Bobby Brown.

Oriental Enlightenment J.J. Clarke,2002-09-11 What is the place of Eastern thought - Buddhism, Taoism, Hinduism, Confucianism - in the Western intellectual tradition? Oriental Enlightenment shows how, despite current talk of 'globalization', there is still a reluctance to accept that the West could have borrowed anything of significance from the East, and explores a critique of the 'orientalist' view that we must regard any study of the East through the lens of Western colonialism and domination. Oriental Enlightenment provides a lucid introduction to the fascination Eastern thought has exerted on Western minds since the Renaissance.

Daitokuji Gregory P. A. Levine,2005 The Zen Buddhist monastery Daitokuji in Kyoto has long been revered as a cloistered meditation centre, a repository of art treasures, and a wellspring of the Zen aesthetic. Gregory Levine's Daitokuji unsettles these conventional notions with groundbreaking inquiry into the significant and surprising visual and social identities of sculpture, painting, and calligraphy associated with this fourteenth-century monastery and its enduring monastic and lay communities. The book begins with a study of Zen portraiture at Daitokuji that reveals the precariousness of portrait likeness; the face that gazes out from an abbot's painting or statue may not be who we expect it to be or submit quietly to interpretation. By tracing the life of Daitokuji's famed statue of the chanoyu patriarch Sen no Riky-u (1522-91), which was all but destroyed by the ruler Toyotomi Hideyoshi (1537-98) but survived in Rash-omon-like narratives and reconstituted sculptural forms, Levine throws light upon the contested status of images and their mytho-poetic potential. Levine then draws from the seventeenth-century journal of K-ogetsu S-ogan, Bokuseki no utsushi, to explore practices of calligraphy connoisseurship at Daitokuji and the pivotal role played by the monastery's abbots within Kyoto art circles. The book's final section explores Daitokuji's annual airings of temple treasures not merely as a practice geared toward preservation but also as a space in which different communities vie for authority over the artistic past. An epilogue follows the peripatetic journey of the monastery's scrolls of the 500 Luohan from China to Japan, to exhibition and partial sale in the West, and back to Daitokuji. Illuminating canonical and heretofore ignored works and mining a trove of documents, diaries, and modern writings, Levine argues for the plurality of Daitokuji's visual arts and the breadth of social and ritual circumstances of art making and viewing within the monastery. This diversity encourages reconsideration of stereotyped notions of Zen art and offers specialists and general readers alike opportunity to explore the fertile and sometimes volatile nexus of the visual arts and religious sites in Japan.
