*Pop Music and the Press* Steve Jones, 2002 Since the 1950s, writing about popular music has become a staple of popular culture. Rolling Stone, Vibe, and The Source as well as music columns in major newspapers target consumers who take their music seriously. Rapidly proliferating fanzines, websites, and internet discussion groups enable virtually anyone to engage in popular music criticism. Until now, however, no one has tackled popular music criticism as a genre of journalism with a particular history and evolution. *Pop Music and the Press* looks at the major publications and journalists who have shaped this criticism, influencing the public's ideas about the music's significance and quality. The contributors to the volume include academics and journalists; several wear both hats, and some are musicians as well. Their essays illuminate the complex relationships of the music industry, print media, critical practice, and rock culture. (And they repeatedly dispel the notion that being a journalist is the next best thing to being a rock star.) Author note: Steve Jones is Professor of Communication at the University of Illinois, Chicago. Among his books are *CyberSociety: Computer-Mediated Communication and Community* (editor) and *Rock Formation: Popular Music, Technology, and Mass Communication*.

Music Ted Gioia, 2019-10-15 A dauntingly ambitious, obsessively researched (Los Angeles Times) global history of music that reveals how songs have shifted societies and sparked revolutions. Histories of music overwhelmingly suppress stories of the outsiders and rebels who created musical revolutions and instead celebrate the mainstream assimilators who borrowed innovations, diluted their impact, and disguised their sources. In *Music: A Subversive History*, Ted Gioia reclaims the story of music for the riffraff, insurgents, and provocateurs. Gioia tells a four-thousand-year history of music as a global source of power, change, and upheaval. He shows how outcasts, immigrants, slaves, and others at the margins of society have repeatedly served as trailblazers of musical expression, reinventing our most cherished songs from ancient times all the way to the jazz, reggae, and hip-hop sounds of the current day. *Music: A Subversive History* is essential reading for anyone interested in the meaning of music, from Sappho to the Sex Pistols to Spotify.

*Killing Me Softly* Charles Fox, 2010-08-27 Charles Fox has composed more than 100 motion picture and television scores, among them the themes of many iconic series, including Happy Days, Laverne & Shirley, Love, American Style, and Love Boat. Twice nominated for the Academy Award and a two-time Emmy winner, Fox has also written music for the concert hall and the ballet. Among the hundreds of songs he has written is the Grammy

Award-winning Killing Me Softly with His Song, a number one record in just about every country in the world, by two different artists: Roberta Flack in 1973 and the Fugees, 20 years later. In this memoir, Fox recounts his development as a musician, beginning with his formal music education in Paris. From letters he wrote home between 1959 and 1961, Fox recounts his studies under the tutelage of the most renowned music composition teacher of the 20th century, Nadia Boulanger, whose influence Fox carried throughout his entire professional career. Following his return to the states, Fox describes the cornerstone events of his musical and personal life. He reflects on the highlights of his career, working with some of the greatest names in entertainment, film, television, and records, including Jim Croce, Barry Manilow, Lena Horne, and Fred Astaire. Inducted into the Songwriters Hall of Fame in 2004 and a recipient of the Lifetime Achievement Award from the Society of Composers & Lyricists, Fox's memoir is a compelling story of a musician and composer whose work continues to entertain and inspire listeners around the world.

**The Beautiful Music All Around Us** Stephen Wade, 2012-08-10 The Beautiful Music All Around Us presents the extraordinarily rich backstories of thirteen performances captured on Library of Congress field recordings between 1934 and 1942 in locations reaching from Southern Appalachia to the Mississippi Delta and the Great Plains. Including the children's play song Shortenin' Bread, the fiddle tune Bonaparte's Retreat, the blues Another Man Done Gone, and the spiritual Ain't No Grave Can Hold My Body Down, these performances were recorded in kitchens and churches, on porches and in prisons, in hotel rooms and school auditoriums. Documented during the golden age of the Library of Congress recordings, they capture not only the words and tunes of traditional songs but also the sounds of life in which the performances were embedded: children laugh, neighbors comment, trucks pass by. Musician and researcher Stephen Wade sought out the performers on these recordings, their families, fellow musicians, and others who remembered them. He reconstructs the sights and sounds of the recording sessions themselves and how the music worked in all their lives. Some of these performers developed musical reputations beyond these field recordings, but for many, these tracks represent their only appearances on record: prisoners at the Arkansas State Penitentiary jumping on the Library's recording machine in a rendering of Rock Island Line; Ora Dell Graham being called away from the schoolyard to sing the jump-rope rhyme Pullin' the Skiff; Luther Strong shaking off a hangover night in jail and borrowing a fiddle to rip into Glory in the Meetinghouse. Alongside loving and expert profiles of these performers and their locales and communities, Wade also untangles the histories of these iconic songs and tunes, tracing them through slave songs and spirituals, British and homegrown ballads, fiddle contests, gospel quartets, and labor laments. By exploring how these singers and instrumentalists exerted their own creativity on inherited forms, amplifying tradition's gifts, Wade shows how a single artist can make a difference within a democracy. Reflecting decades of research and detective work, the profiles and abundant photos in The Beautiful Music All Around Us bring to life largely unheralded individuals--domestics, farm laborers, state prisoners, schoolchildren, cowboys, housewives and mothers, loggers and miners--whose music has become part of the wider American musical soundscape. The paperback edition does not include an accompanying CD.

Being Musically Attuned Erik Wallrup,2015-02-28 Listening according to mood is likely to be what most people do when they listen to music. We want to take part in, or even be part of, the emerging world of the musical work. Using the sources of musical history and philosophy, Erik Wallrup explores this extremely vague and elusive phenomenon, which is held to be fundamental to musical hearing. Wallrup unfolds the untold musical history of the German word for 'mood', *Stimmung*, which in the 19th century was abundant in the musical aesthetics of the German-Austrian sphere. Martin Heidegger's much-discussed philosophy of *Stimmung* is introduced into the field of music, allowing Wallrup to realise fully the potential of the concept. Mood in music, or, to be more precise, musical attunement, should not be seen as a peculiar kind of emotionality, but that which constitutes fundamentally the relationship between listener and music. Exploring mood, or attunement, is indispensable for a thorough understanding of the act of listening to music.

*How Music Works* John Powell,2010-11-03 Any readers whose love of music has somehow not led them to explore the technical side before will surely find the result a thoroughly accessible, and occasionally revelatory, primer.—Seattle Post-Intelligencer What makes a musical note different from any other sound? How can you tell if you have perfect pitch? Why do ten violins sound only twice as loud as one? Do your Bob Dylan albums sound better on CD vinyl? John Powell, a scientist and musician, answers these questions and many more in *How Music Works*, an intriguing and original guide to acoustics. In a clear and engaging voice, Powell leads you on a fascinating journey through the world of music, with lively discussions of the secrets behind harmony timbre, keys, chords, loudness, musical composition, and more. From how musical notes came to be (you can thank a group of stodgy men in 1939 London for that one), to how scales help you memorize songs, to how to make an oboe from a drinking straw, John Powell distills the science and psychology of music with wit and charm.

*Music and the Racial Imagination* Ronald M. Radano,Philip V. Bohlman,2000-12 A specter lurks in the house of music, and it goes by the name of race, write Ronald Radano and Philip Bohlman in their introduction. Yet the intimate relationship between race and music has rarely been examined by contemporary scholars, most of whom have abandoned it for the more enlightened notions of ethnicity and culture. Here, a distinguished group of contributors confront the issue head on. Representing an unusually broad range of academic disciplines and geographic regions, they critically examine how the imagination of race has influenced musical production, reception, and scholarly analysis, even as they reject the objectivity of the concept itself. Each essay follows the lead of the substantial introduction, which reviews the history of race in European and American, non-Western and global musics, placing it within the contexts of the colonial experience and the more recent formation of world music. Offering a bold, new revisionist agenda

for musicology in a postmodern, postcolonial world, this book will appeal to students of culture and race across the humanities and social sciences.

Erik Satie: Music, Art and Literature Dr Caroline Potter, 2013-10-28 Erik Satie (1866-1925) was a quirky, innovative and enigmatic composer whose impact has spread far beyond the musical world. As an artist active in several spheres - from cabaret to religion, from calligraphy to poetry and playwriting - and collaborator with some of the leading avant-garde figures of the day, including Cocteau, Picasso, Diaghilev and René Clair, he was one of few genuinely cross-disciplinary composers. His artistic activity, during a tumultuous time in the Parisian art world, situates him in an especially exciting period, and his friendships with Debussy, Stravinsky and others place him at the centre of French musical life. He was a unique figure whose art is immediately recognisable, whatever the medium he employed. *Erik Satie: Music, Art and Literature* explores many aspects of Satie's creativity to give a full picture of this most multifaceted of composers. The focus is on Satie's philosophy and psychology revealed through his music; Satie's interest in and participation in artistic media other than music, and Satie's collaborations with other artists. This book is therefore essential reading for anyone interested in the French musical and cultural scene of the late nineteenth and early twentieth century.
