Sports & Recreation Fads Frank Hoffmann, Beulah B Ramirez, 2013-12-16 True to the spirit of the all-American athlete and our society's seemingly endless pursuit of and passion for leisure activities is Sports & Recreation Fads. This readable and fascinating reference book highlights some of the most notable as well as some long-forgotten pastimes and personalities. Sporting and recreation events have thrived in the United States for more than two centuries. Just about every sport and recreation embraced from Colonial America to the present has had its faddish aspects. The fascinating introduction provides a basic understanding of the importance of fads in the development of sports and recreation. No book on sports fads would be complete without several chapters on baseball, and this exciting volume is no different--Hank Aaron's 715th home run, baseball card collecting, Mark "the Bird" Fidrych's shining season with the Detroit Tigers, Bo Jackson's double career, Jackie Robinson's success in breaking the color barrier, and Pete Rose's gambling troubles--a true slice of Americana, the best and the worst of our favorite pastime! From the controversial people and events in professional athletics--Mohammed Ali, Joe Namath, Mike Tyson, the "battle of the sexes" between Billie Jean King and Bobby Riggs, the "Black Sox Scandal," and the Dallas Cowboys cheerleaders, to the heroes--Charles Atlas, Joe Louis, and Babe Ruth, Hoffmann and Bailey illustrate the often fickle and sometimes enduring interest that Americans have for sports figures and their games. This informative and entertaining book also examines our personal quest for fitness, our devotion to automobiling, and our love of games, including bridge, charades, crossword puzzles, Monopoly, Dungeons & Dragons, Scrabble, and Trivial Pursuit. Sports & Recreation Fads is a handy guide to our favorite leisure activities of the last 200 years.

Risk Management in Sport and Recreation John Otto Spengler, Daniel Connaughton, Andrew T. Pittman, 2006 Risk Management in Sport and Recreation is a comprehensive resource for those charged with the responsibility of providing for the safety of participants and spectators in a sport or recreation setting. It covers a range of safety issues, including lightning, heat illness, aquatics, playground safety, drug testing, and medical emergency action plans. Readers receive clear and detailed explanations of issues to consider before making decisions on risk management. Risk Management in Sport and Recreation is designed to provide a foundation for approaching key issues in safety and risk management. It shows readers how to evaluate and analyze various safety issues and apply the underlying concepts to a variety of situations. The following are unique features of the text: -A safety guidelines finder lists Web sites of accessible standards, guidelines, and recommendations from leading organizations. -Chapter objectives and pullout boxes of key points and key statistics stress the importance of the topic under discussion. -Threshold issues in each chapter highlight important factors to consider when making decisions on risk management. -Real-world applications at the end of each chapter present scenarios involving the potential for harm, and readers must make a decision on how to address the issues. -Examples of public service announcements, posters, and other publicly viewed safety information are presented. -An appendix offers examples of emergency action plans, checklists, and recommendations from organizations such as the National Lightning Safety Institute and university aquatic centers. -A companion Web site provides links to the Web sites used in the book, as well as updates to guidelines and links that may occur after the book is in print. The safety guidelines finder gives students and practitioners a single location from which they can easily access important safety information. Organized under land-based or water-based activities, each activity lists guidelines, recommendations, and standards along with the source for that information. Each entry includes Web sites where readers can find the full documents. The text also features sample guidelines and safety checklists from agencies and associations that demonstrate how organizations might plan for risk and communicate safety information. Readers also consider the types of postings and equipment they will need in order to communicate their risk management plans, and they are given real-life situations in which a risk management plan is needed and are prompted to consider why and how to create a plan for such situations. The resource will help students and professionals plan for and manage risk. Current and future employees of sport facilities, school athletic programs, parks and recreation programs, youth and aquatic centers, or resorts and golf courses will find that Risk Management in Sport and Recreation provides the tools to assist in making the right decisions to manage risk effectively.

Recreational Sport Robert J. Barcelona, Mary Sara Wells, Skye Arthur-Banning, 2015-10-30 There are more opportunities than ever for employment in recreational sport, which means the need to prepare students with a solid foundation of the design, delivery, and management of recreational sport has never been more critical. Recreational Sport is designed precisely with that need in mind. This text provides a contemporary perspective of recreational sport management, offering a comprehensive picture of recreational sport management for people in or entering all sectors of recreation and leisure, including public, nonprofit, private, and commercial. "We saw a need for broad-based recreational sport programming that reflects the myriad of recreational sport activities and opportunities that are out there," says lead author Robert Barcelona. "To meet those increased needs and interests, people need to have an array of programming and management skills in recreational sport." Barcelona and his coauthors help readers gain those skills in part by simplifying the complicated process of designing and delivering programs in various settings in recreation and leisure services. They present a macrocosm view of recreational sport in communities—a view that reflects the most current, application-based research in the field. Their text places recreational sport squarely in the middle of the recreation and leisure curriculum and is supported by the recreational sport core competencies as developed by Barcelona himself. Those competencies are based on what recreational sport managers need to know and be able to do to grow and succeed in the profession, and they connect with the NIRSA recreational sport competencies developed in 2013. In addition, Recreational Sport offers the following: • Coverage for all age groups and sectors in a range of settings and contexts for recreational sport • International perspectives to offer students great insights into career opportunities • The latest theory, research, and real-world approaches to help both students and professionals who program sports • Case studies of real-world issues in recreational sport and examples of theory-to-practice applications The text comes with an array of online ancillaries that will prove invaluable to both instructors and students. The instructor guide supports and extends the chapter content and offers numerous ideas for learning activities, projects, and topics for papers. It also supplies chapter summaries, glossary terms, and links to websites

that contain information for both instructors and students. The test package has multiple-choice, true-or-false, matching, and short-answer questions that can interface with learning management systems, and the presentation package offers a visual overview of the material to help students retain the concepts. “In teaching recreational sport for many years, I know that students first need to grasp the big picture of recreational sports,” Barcelona says. “We deliver that big picture in addition to information on design, delivery, and management that every student needs to know to succeed, regardless of what recreational sport organization he or she is a part of.” That big-picture element, along with the cutting-edge information on program design, delivery, and management,, sets this book apart. In the three parts of the book, students will be able to do the following:

- Be grounded in the philosophical concepts that define the field
- Learn about the core competencies they need to know to deliver successful programs and events
- Gain insights about the settings and contexts where recreational sport happens and learn about key ideas, issues, and career opportunities in the field

Recreational Sport is a textbook critical to students’ future success in recreational sport management, offering the big-picture view of the field while offering practical guidance in and real-world examples of successful design, delivery, and management of recreational sport programming.

How Boston Played Stephen Hardy,2003 Whether consciously molding the city through the construction of public spaces or developing social ties through organizations such as athletic clubs, Bostonians of all classes participated in recreation-based community building, often at cross-purposes. Elite Bostonians, for instance, promoted the establishment of parks as a healthy alternative to unsavory activities, such as drinking and gambling, that they associated with the city's vast new pool of immigrants. They were soon forced to compromise, however, with citizens who were less interested in the rhetoric of moral uplift than in using the parks for competitive athletics and commercial amusements.--BOOK JACKET.

Encyclopedia of Sports & Recreation for People with Visual Impairments Andrew Leibs,2012-12-01 Not long ago, most blind and visually impaired people grew up without ever playing sports; they sat on the sidelines, and kept score during gym—protected rather than included. In the 1980s, few people had ever heard of the Paralympic Games or accessible recreation. Today, promising blind athletes can receive residency at the US Olympic Training Center; runners compete for prize money and national championships, and most ski resorts offer adaptive programs throughout the year where blind people can ski, cycle, and kayak—often for free. The Paralympic movement, the Americans with Disabilities Act of 1990, and ever-increasing expectation for inclusion among the disabled have inspired an explosion of accessible sports, fitness, and recreation programs that accommodate the blind. The Encyclopedia of Sports & Recreation for People with Visual Impairments is the first consumer-focused, action-oriented guide to this new world of accessible activity, profiling the people, programs, and products that are helping move blind and visually impaired people from the sidelines into the game. This groundbreaking guide profiles every accessible blind sport and recreation activity with entries that outline how athletes (both novice and elite) got involved in the sport and how participation has shaped their life. The book also profiles major blind sports organizations and includes chapter and resource listings on camps and accessible recreation providers. Through this book, blind people will be inspired to embrace sports as the rest of society does—as a vital component of personal expression and human interaction that opens paths to adventure, confidence, and lifelong health and fitness.

Recreation and Sports Ministry: Impacting the Postmodern Culture John Garner,2016-12 How open is our culture to recreation and sports? The popular culture today is saturated with recreation and sports. The Olympics, Super Bowl, World Series, X-Games, Iron Man events, the Final Four in college basketball, and the playoff series in professional basketball capture the imaginations of millions of people in America each time they are held. The questions are, according to general editor John Garner, where is the church and how is the church using these tools to reach people, and will the church see the opportunity to use recreation and sports as ministry tools?The fact is, most churches are not reaching the postmodern culture and are being ignored by an increasingly non-Christian American culture because people see no relevance to their lives. What they do see relevance in is re-creative leisure; they pursue it at break-neck speed and often at great costs. Somehow the church must learn to ¿capture the imagination¿ of a world that is passing it by. If the church can capture the imaginations of people, it can get their attention, can gain access to their minds, and can reach the heart with the message of the love of God.

Sports and Recreation Harvey H. Jackson,2011 Published with the assistance of the Anniversary Endowment Fund of the University of North Carolina Press.

Sports Matters John Bloom,Michael Willard,2002-09 Most of the contributions strongly project the authors' perceptions of the role of race on their subjects, and essays should elicit lively discussions in the classroom. —CHOICE Frederick Douglass liked to say of West Indian boxer Peter Jackson that Peter is doing a great deal with his fists to solve the Negro question. His comment reflects the possibilities for social transformation that he saw in the emerging modern sports culture. Indeed, as the twentieth century developed, sports have become an important cultural terrain over which various racial groups have contested, defined, and represented their racial, national, and inter-ethnic identities. Sports Matters brings critical attention to the centrality of race within the

politics and pleasures of the massive sports culture that developed in the U.S. during the past century and a half. The contributors collected here address such issues as popular representations of blacks in sports. They consider baseball—from Nisei players in Oregon to Mexican-Americans in Los Angeles. And they look at the use of warrior imagery in representations of Native American athletes and the evolution of black expressive style within basketball. Sports Matters challenges our presumptions about sports, illuminating in the process the complexities of race and gender as they relate to popular culture. Contributors include Amy Bass, John Bloom, Annie Gilbert Coleman, Gena Caponi, Montye Fuse, Randy Hanson, Michiko Hase, George Lipsitz, Keith Miller, Sharon O'Brien, Connie Razza, Sam Regalado, Greg Rodriguez, Julio Rodriguez, Michael Willard, and Henry Yu.
