Strategic Information Systems: Concepts, Methodologies, Tools, and Applications Hunter, M. Gordon, 2009-08-31 This 4-volume set provides a compendium of comprehensive advanced research articles written by an international collaboration of experts involved with the strategic use of information systems--Provided by publisher.

Wisdom and Management in the Knowledge Economy David Rooney, Bernard McKenna, Peter Liesch, 2010-03-23 Today there are more technology, technologists, knowledge and experts than at any time in human history; but from a global perspective, it is difficult to argue that this accumulation of knowledge and technology has put the world in an unambiguously better position than it was in the past. Business is not getting any easier to do and major corporate collapses based on poor decisions, poor conduct, and poor judgement continue to occur. In public administration too, basic institutions and services (education, health, transport) seem to be continually undergoing "crises" of inadequate delivery and excessive pressure. Wisdom and Management in the Knowledge Economy explains why unwise managerial practice can happen in a world characterized by an excess of information and knowledge. Drawing on Aristotle's idea of practical wisdom, the book develops a theory of social practice wisdom that addresses important social psychological and sociological dynamics that underpin wise management and organizations. As well as providing a detailed theory of social practice wisdom, this book considers practical issues in organizational communication, behavior, culture, change and knowledge as well as in HRM, leadership, ethics, strategy, international business, business education, and wisdom research. By introducing the notion of social practice wisdom, aspects of social structure, organizational culture, and organizational communication needed for wisdom to flourish are for the first time rendered visible in a way that opens new possibilities for wiser

management, wiser organizations, and wisdom research.

Networking and Telecommunications: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2010-01-31 This multiple-volume publication exhibits the most up-to-date collection of research results and recent discoveries in the transfer of knowledge access across the globe--Provided by publisher.

Corporate Warriors P. W. Singer, 2011-06-16 Some have claimed that War is too important to be left to the generals, but P. W. Singer asks What about the business executives? Breaking out of the guns-for-hire mold of traditional mercenaries, corporations now sell skills and services that until recently only state militaries possessed. Their products range from trained commando teams to strategic advice from generals. This new Privatized Military Industry encompasses hundreds of companies, thousands of employees, and billions of dollars in revenue. Whether as proxies or suppliers, such firms have participated in wars in Africa, Asia, the Balkans, and Latin America. More recently, they have become a key element in U.S. military operations. Private corporations working for profit now sway the course of national and international conflict, but the consequences have been little explored. In this book, Singer provides the first account of the military services industry and its broader implications. *Corporate Warriors* includes a description of how the business works, as well as portraits of each of the basic types of companies: military providers that offer troops for tactical operations; military consultants that supply expert advice and training; and military support companies that sell logistics, intelligence, and engineering. In an updated edition of P. W. Singer's classic account of the military services industry and its broader implications, the author describes the continuing importance of that industry in the Iraq War. This conflict has amply borne out Singer's argument that the privatization of warfare allows startling new capabilities and efficiencies in the

ways that war is carried out. At the same time, however, Singer finds that the introduction of the profit motive onto the battlefield raises troubling questions—for democracy, for ethics, for management, for human rights, and for national security.

Computer Vision - ECCV 2020 Andrea Vedaldi, Horst Bischof, Thomas Brox, Jan-Michael Frahm, 2020-11-03 The 30-volume set, comprising the LNCS books 12346 until 12375, constitutes the refereed proceedings of the 16th European Conference on Computer Vision, ECCV 2020, which was planned to be held in Glasgow, UK, during August 23-28, 2020. The conference was held virtually due to the COVID-19 pandemic. The 1360 revised papers presented in these proceedings were carefully reviewed and selected from a total of 5025 submissions. The papers deal with topics such as computer vision; machine learning; deep neural networks; reinforcement learning; object recognition; image classification; image processing; object detection; semantic segmentation; human pose estimation; 3d reconstruction; stereo vision; computational photography; neural networks; image coding; image reconstruction; object recognition; motion estimation.

Sort Your Property Out John Pidgeon, 2024-02-23 A handbook for investing in property in a smart and strategic way There's so much more to investing in property than having a double-digit property portfolio. Whether you're a home buyer, a beginner, or a seasoned investor, Sort Your Property Out will revolutionise the way you think about property. When it comes to building lifelong financial security, property investing is about being creative and being prepared. In Sort Your Property Out, you'll learn exactly what you need to know — and what you need to do — to buy well in today's markets around Australia. Inside, author John Pidgeon, co-host of the my millennial money and my millennial property podcasts (and a property investor and coach for over 25 years), will show you how to hone your investor mindset. You'll discover actionable, step-by-step guidance on how to build a strategic portfolio. Ultimately, you'll learn how to buy what's right for you today — and how to set smart, realistic goals for tomorrow. Sort Your Property Out: And Build Your Future will help you: Get your head around finance: understand loans, grants, schemes, and taxes, and use smart strategies for putting together that essential deposit. Choose the right property: learn the pros and cons of different property types and the signs that you're looking at a hotspot (or a not-spot!). Buy successfully: get valuable tips for making a successful offer and securing your ideal property, through private treaty or at auction. Use advanced strategies for growing a diverse, sustainable portfolio: learn about rentvesting, joint ventures, residential property development, and more. Sort Your Property Out is a comprehensive guide for buying property and building an investment portfolio in a responsible, sustainable way. Through its unique 8-Point Property Plan, worksheets, resources, and real-world investor profiles, you'll get the skills and knowledge you need to build your future through

property.

Journalism Ethics Roger Patching, Martin Hirst, 2013-11-20 Journalism Ethics: Arguments and Cases for the 21st Century explores the major ethical dilemmas facing journalists in the digital age. Engaging with both the theory and practice of journalism ethics, this text explains the key ethical concepts and dilemmas in journalism and provides an international range of examples and case studies, considering traditional and social media from a global perspective. Journalism Ethics offers an introductory philosophical underpinning to ethics that traces the history of the freedom of expression from the time of Greek philosophers like Aristotle, through the French and American revolutions, to modern day. Throughout the book Patching and Hirst examine ethically-challenging issues such as deception, trial by media, dealing with sources and privacy intrusion. They also explore continuing ethical fault lines around accuracy, bias, fairness and objectivity, chequebook journalism, the problems of the foreign correspondent, the conflicts between ethics and the law and between journalists and public relations consultants. Concluding with a step-by-step guide to ethical thinking on the job, this textbook is an invaluable resource for students of journalism, media and communication.

Future-Proofing the Judiciary Brian Opeskin, 2022-01-01 This book reinvigorates the field of socio-legal inquiry examining the relationship between law and demography. Originally conceived as 'population law' in the 1960s following a growth in population and a use of law to temper population growth, this book takes a new approach by examining how population change can affect the legal system, rather than the converse. It analyses the impact of demographic change on the judicial system, with a geographic focus on Australian courts but with global insights and it raises questions about institutional structures. Through four case studies, it examines how demographic change

impacts on the judicial system and how should the judicial system adapt to embody a greater preparedness for the demographic changes that lie ahead? It makes recommendations for reform and speaks to applied demographers, socio-legal scholars, and those interested in judicial institutions.

The New Political Economy of Disability Georgia van Toorn, 2021-02-22 This book addresses the ways in which individualised, market-based models of disability support provision have been mobilised in and across different countries through cross-national investigation of individualised funding (IF) as an object of neoliberal policy mobility. Combining rich theoretical and interdisciplinary perspectives with extensive empirical research, the book provides a timely examination of the policy processes and mechanisms driving the spread of IF amongst countries at the forefront of disability policy reform. It is argued that IF's mobility is not attributable to neoliberalism alone but to the complex intersections between neoliberal and emancipatory agendas and to the transnational networks that have blended the two agendas in new ways in different institutional contexts. The book shows how disability rights struggles have synchronised with neoliberal agendas, which explains IF's propensity to move and mutate between different jurisdictions. Featuring first-hand accounts of the activists and advocates engaged in these struggles, the book illuminates the consequences and risks of the dangerous liaisons and political trade-offs that seemed necessary to get individualised funding on the policy agenda for disabled people. It will be of interest to all scholars and students working in disability studies, social policy, sociology and political science more generally.

Financial Management, 5th Edition Tulsian P.C. & Tulsian Bharat, 2017 This fifth edition of Tulsian's Financial Management is a contemporary and comprehensive treatise designed to provide a thorough understanding of the subject in a systematic manner. It integrates the latest trends and current practical applications in financial management. Designed as a self-study text with a to-the-

point approach, this popular text is a useful resource for postgraduate students of management.

Journeys to the Commonwealth of Australia Kalman Dubov, 2021-11-24 The continent of Australia has an ancient and modern history. Aborigines arrived at this continent an estimated 40,000 to 60,000 years ago, living a hunter-gatherer existence while developing unique ways to live and thrive on this land. That idyllic life ended in 1770 when the great British explorer James Cook discovered the continent. Just eighteen years later, in 1788, the First Fleet of convict ships from England established a colony at Botany Bay, near today's city of Sydney. The settlement grew and developed, while additional convict ships and settlers came to this continent to make a new home and life for themselves. As the number of settlers increased, there was a corresponding series of attacks on the Aborigines. Massacres took many lives, while European diseases for which the Aborigines had no immunity, decimated these ancient communities. I review this tragic interaction between these two diverse cultures which continues today. I also explore the Stolen Generation, the racist and genocidal policy of forcibly removing Aboriginal children from their parents and community, then giving these children to white parents to be raised in an atmosphere intolerant to the Aboriginal culture and history. An estimated 100,000 children were taken in this manner, remembered nationally and annually as Sorry Day. In addition, an estimated 500,000 white children were taken from parents and given to others. While forcibly negating and outlawing native cultures has taken place in many countries, where dominant values are identified as superior to the older and subjugated culture, the forcible removal of hundreds of thousands of white children from parents reflects a policy that begs to be examined in depth. I also review the establishment of a Royal Commission that examined sexual predatory attacks on children, both in the Roman Catholic Church, by diocesan and order priests (brothers) while these children were wards of these religious institutions by order of the federal

government. I also explore the percentages of prelates who acted in this criminal manner. This issue has been faced in several other countries, with resulting questions regarding the role Catholic priests and their bishops have in teaching religious values while protecting their charges from sexual abuse. The Jewish community too has been charged in this scourge. Two religious schools in Melbourne were charged with knowledge of such attacks taking place in these schools but the rabbinic leadership neither reported the abuse to civil authorities nor made efforts to stop it. In this regard, I explore the Jewish law inhibiting such reporting to secular authorities. In fact, the historic and traditional Jewish community standard prefers to protect the predator and not protect the victimized child. This standard is gradually changing as progressive awareness is made into the corrosive atmosphere surrounding a victimized child and the enormous psychological and emotional costs endured by the child for the remainder of his or her life. The theme of sexual abuse is also present with regard to Malka Leifer. This woman was charged with over seventy counts of criminal behavior while having a senior administrative and teaching role in a leading ultra-Orthodox religious school for girls. She became a cause célèbre with international intrigue between Australia and Israel when she escaped Australian shores for refuge in Israel. Years of legal wrangling ensued, by many Israeli courts, including the Supreme Court, each examining the increasing furor if this woman should be extradited to face criminal charges in Australia. Malka Leifer was only recently returned to Australia, now finally awaiting her moment of facing her accusers in open court. This volume also reviews and analyzes each war Australians fought in, from the Second Boer War, First World War, Second World War, Korean and Vietnam Wars, the wars in Iraq and Afghanistan. These conflicts culminated with the ANZUS Treaty, with a military cooperation agreement between the United States, Australia and New Zealand. The United States identified New Zealand as standing against the West when it promulgated

its anti-nuclear zone. New Zealand identified with smaller Pacific island nations that condemned nuclear testing on remote Pacific islands and the resulting fallout with consequent health issues they face because of such testing. I was on the Holland American Grand Voyage while visiting Australian ports. I review the different Australian ports the Amsterdam came to, such as Darwin, Brisbane, and Sydney. I review each of these cities, both as the country developed and modernly, with these cities taking on more developed economic power.

Acts: An Earth Bible Commentary Michael Trainor, 2020-02-20 The gospel of Luke presents an ecological symphony that reveals a Jesus connected to Earth. His ministry touches all aspects of creation, human and non-human, and invites disciples into an ecological asceticism. This same spirit continues in the Acts of the Apostles. In this Earth Bible Commentary on Acts, Michael Trainor allows our environmental concerns to shape his interpretative approach, and thus ecological nuances emerge. Luke's household of disciples, imbued with the spirit of the risen Jesus, to embrace the world and bring to it a word of reconciliation, embark on this mission. This formally begins at Pentecost with their reception of God's creative and renewing Spirit that empowers them as Earth's children. From this moment an explosion of activity moves them over Earth's lands, beginning in Jerusalem, Earth's navel (Acts 1.1-8.1), into Samaria, the space in-between that navel and Galilee, the garden of God's earthly delights (Acts 8.2-11.17), to the ends of Earth, Rome (Acts 11.18-28.33). As we trace Luke's vast geographical journey around the Mediterranean, key moments highlight fresh environmental insights that offer new hope for contemporary disciples seeking ecological affirmation at this particular time in world history.

What the Bible Says about Love Marriage & Sex David Jeremiah, 2012-04-10 With roughly a third of all marriages ending in divorce, there's never been a better time for this refresher course in the

true meaning of a successful union. As New York Times bestselling author Dr. David Jeremiah reminds us, it's a biblical truth: Sex and passionate, romantic love are God's ideas! Nothing rivals the beauty of the writing in the Song of Solomon-- and nothing rivals the wisdom of Solomon on matters of love, romance, marriage, and sexual intimacy. Dr. Jeremiah's thoughtful interpretation of Solomon and Shulamith's relationship provides all of us-- whether married or single-- with valuable lessons for a better, happier, more fulfilling life and a long, loving marriage.

Flinovia—Flow Induced Noise and Vibration Issues and Aspects-III Elena Ciappi, Sergio De Rosa, Francesco Franco, Stephen A. Hambric, Randolph C. K. Leung, Vincent Clair, Laurent Maxit, Nicolas Totaro, 2021-04-29 This volume gathers the latest advances and innovations in the field of flow-induced vibration and noise, as presented by leading international researchers at the 3rd International Symposium on Flow Induced Noise and Vibration Issues and Aspects (FLINOVIA), which was held in Lyon, France, in September 2019. It explores topics such as turbulent boundary layer-induced vibration and noise, tonal noise, noise due to ingested turbulence, fluid-structure interaction problems, and noise control techniques. The authors' backgrounds represent a mix of academia, government, and industry, and several papers include applications to important problems for underwater vehicles, aerospace structures and commercial transportation. The book offers a valuable reference guide for all those interested in measurement, modelling, simulation and reproduction of the flow excitation and flow induced structural response.

E-Voting and Identity Rolf Haenni, Reto E. Koenig, Douglas Wikström, 2015-08-12 This book constitutes the thoroughly refereed conference proceedings of the 5th International Conference on E-Voting and Identity, VotID 2015, held in Bern, Switzerland, in September 2015. The 10 revised full papers presented, including one keynote and three invited talks, were carefully selected from 26

submissions. The papers deal with real-world electronic systems; advanced voting protocols; document analysis, machine-checked reasoning, e-voting system in court.

Image and Video Technology Chilwoo Lee,Zhixun Su,Akihiro Sugimoto,2019-11-12 This book constitutes the conference proceedings of the 9th Pacific Rim Symposium on Image and Video Technology, PSIVT 2019, held in Sydney, NSW, Australia, in November 2019. A total of 31 papers were carefully reviewed and selected from 55 submissions. The main conference comprises 11 major subject areas that span the field of image and video technology, namely imaging and graphics hardware and visualization, image/video coding and transmission, image/video processing and analysis, image/video retrieval and scene understanding, applications of image and video technology, biomedical image processing and analysis, biometrics and image forensics, computational photography and arts, computer and robot vision, pattern recognition, and video surveillance.

Alzheimer's Disease, Media Representations and the Politics of Euthanasia Megan-Jane Johnstone,2016-04-15 Drawing on extensive data including news media reports and commentaries, documentaries, courts and court reports, films, websites, professional literature and government and non-government agencies, this book explores the 'Alzheimerisation' of the euthanasia debate, examining the shift in recent years in public attitudes towards the desirability and moral permissibility of euthanasia as an end-of-life 'solution' for people living with the disease - not just at its end stage, but also at earlier stages. With attention to media representations and public understandings of Alzheimer's disease, *Alzheimer's Disease, Media Representations and the Politics of Euthanasia* sheds light on the processes contributing to these changes in public opinion, investigating the drivers of vexed political debate surrounding the issue and examining the manner in which both sides of the euthanasia debate mobilise support, portray their opponents and make use of media technologies to

frame the terms of discourse. Paving the way for a greater level of intellectual honesty with regard to an issue carrying significant policy implications, this book will be of interest to scholars of media and communication, social movements and political communication, and the sociology of health and medicine, as well as researchers and professionals in the fields of palliative and end of life care.

Popular Music Heritage Andy Bennett, 2022-08-03 This book critically discusses the significance of popular music heritage as a means of remembering and re-presenting rock and pop artists, their music and their place in the culture of contemporary society. Since the mid-1990s, the contribution of popular music to the shaping of contemporary history and heritage has increasingly been acknowledged. In the same period, exhibitions of popular music related artefacts have become more commonplace in museums, and facilities dedicated to the celebration of popular music history and heritage, such as the Rock and Roll Hall of Fame, have opened their doors. Popular music heritage has found other mediums of expression too. There is now a significant popular music heritage media, including books, magazines, films and television series. Fans collect and display their own mementos, while the live performances of tribute bands and classic albums fulfill an increasing desire for the live spectacle of popular music heritage. This book will be crucial reading for established scholars as well as postgraduate and undergraduate students studying popular music heritage.
