**A Knock on the Door** Truth and Reconciliation Commission of Canada,2015-12-15 “It can start with a knock on the door one morning. It is the local Indian agent, or the parish priest, or, perhaps, a Mounted Police officer.” So began the school experience of many Indigenous children in Canada for more than a hundred years, and so begins the history of residential schools prepared by the Truth & Reconciliation Commission of Canada (TRC). Between 2008 and 2015, the TRC provided opportunities for individuals, families, and communities to share their experiences of residential schools and released several reports based on 7000 survivor statements and five million documents from government, churches, and schools, as well as a solid grounding in secondary sources. A Knock on the Door, published in collaboration with the National Research Centre for Truth & Reconciliation, gathers material from the several reports the TRC has produced to present the essential history and legacy of residential schools in a concise and accessible package that includes new materials to help inform and contextualize the journey to reconciliation that Canadians are now embarked upon. Survivor and former National Chief of the Assembly First Nations, Phil Fontaine, provides a Foreword, and an Afterword introduces the holdings and opportunities of the National Centre for Truth & Reconciliation, home to the archive of recordings, and documents collected by the TRC. As Aimée Craft writes in the Afterword, knowing the historical backdrop of residential schooling and its legacy is essential to the work of reconciliation. In the past, agents of the Canadian state knocked on the doors of Indigenous families to take the children to school. Now, the Survivors have shared their truths and knocked back. It is time for Canadians to open the door to mutual understanding, respect, and reconciliation.

**The New Farm** Brent Preston,2018-03-27 This “must-read” memoir of human-scale agriculture offers an insider’s view of today’s food system by a leading voice in sustainable farming (Daniel Boulud). After years of working at the ends of the earth in human rights and development, Brent Preston and his wife were die-hard city dwellers. But when their second child arrived, the shine came off urban living. In 2003 they bought a hundred acres and a rundown farmhouse, determined to build a farm that would sustain their family, nourish their community, heal their environment—and turn a profit. The New Farm is Preston’s memoir of a decade of toil and perseverance. Farming is a complex and precarious business, and they made plenty of mistakes along the way. But as they learned how to grow food, and to succeed at the business of farming, they also found that a small, sustainable, organic farm could be an engine for change, a path to a more just and sustainable food system. Today, The New Farm supplies top restaurants, supports community food banks, hosts events with leading chefs, and grows extraordinary produce. Told with humor and heart, The New Farm is a joy, a passionate book by an important new voice.

**Who Was Marie Antoinette?** Dana Meachen Rau,Who HQ,2015-10-06 From the palaces of Austria to the mirrored halls of Versailles, Marie Antoinette led a charmed life. She was born into royalty in 1755 and married the future king of France at age 15. By 21 she ascended to the throne and enjoyed a lavish lifestyle of masquerade balls, sky-high wigs, and extravagant food. But her taste for excess ruffled many feathers. The poor people of France blamed Marie Antoinette for their poverty. Her spending helped incite the French Revolution. And after much public outcry, in 1793 she quite literally lost her head because of it. Whether she was blameless or guilty is debatable, but Marie Antoinette remains woven into the fabric of history and popular culture.

**They Left Us Everything** Plum Johnson,2016-07-26 A warm, heartfelt memoir of family, loss, and a house jam-packed with decades of goods and memories. After almost twenty years of caring for elderly parents—first for their senile father, and then for their cantankerous ninety-three-year old mother—author Plum Johnson and her three younger brothers have finally fallen to their middle-aged knees with conflicted feelings of grief and relief. Now they must empty and sell the beloved family home, twenty-three rooms bulging with history, antiques, and oxygen tanks. Plum thought: How tough will that be? I know how to buy garbage bags. But the task turns out to be much harder and more rewarding than she ever imagined. Items from childhood trigger difficult memories of her eccentric family growing up in the 1950s and ’60s, but unearthing new facts about her parents helps her reconcile those relationships, with a more accepting perspective about who they were and what they valued. They Left Us Everything is a funny, touching memoir about

the importance of preserving family history to make sense of the past, and nurturing family bonds to safeguard the future.
