Diamonds Everywhere Siegfried Beckedorf,2016-04-20 The author is frequently referring to Diamonds Everywhere in his story. It had its beginning a few months before World War II when, fifteen years of age, he was infected by Tetanus, fatal, if not treated immediately. He was taken to a military hospital nearby which saved his life due to medication available to treat Tetanus. The experience of waking up to wounded soldiers brought on stretchers into the hospital, screaming in pain, was a great shock. While recuperating with other soldiers, the author was inspired by a young officer, heavily wounded, Do not let this experience keep you from enjoying life. I am not going back into the trenches! This is an insane war! I feel encouragement in nature, the sparkle of thousands of Diamonds Everywhere from dew, rain and snow on trees and plants. Look at nature's wonders for healing and encouragement. The author and his wife Ursula were inspired by great people to overcome the effects of World War II. Greeted and encouraged by Diamonds Everywhere they enjoyed life filled with songs and music....

History of the Electric Automobile Ernest Henry Wakefield,1998-10-01 For more than a century, people have attempted to harness electricity, the clean and versatile fuel, for personal transportation. With impressive technical clarity and historical insight, author Ernest Wakefield reviews these attempts in History of the Electric Automobile: Hybrid Electric Vehicles. He focuses exclusively on electric vehicles that harness the potential of electricity when combined with another energy source - hybrid electric vehicles (HEV). The book details the historical development of capacitors, engines, flywheels, fuel cells, inductive charging, and solar cells - and the application of each to hybrid electric vehicles.
