Angel of Death John Askill,Martyn Sharpe,2014-01-07 It made national headlines: the true story of how state enrolled nurse Beverley Allitt murdered four children on her ward and attempted to take the lives of many others. Liam Taylor's death, on 21 February 1991, was to become the first in a string of infanticides carried out by the soon-to-be-notorious 'Angel of Death'. Between February and April 1991, four babies were murdered and another nine attacked. Recounting the emotional turmoil of those parents, the 3-month police investigation, Allitt's motive and accounts from her early life, John Askill and Martyn Sharpe tell a sensitive, at times harrowing, tale of how this 'plain', rather 'ordinary' girl from the small village of Corby Glen became one of Britain's most notorious serial killers.

Public Opinion Walter Lippmann,1922 In what is widely considered the most influential book ever written by Walter Lippmann, the late journalist and social critic provides a fundamental treatise on the nature of human information and communication. The work is divided into eight parts, covering such varied issues as stereotypes, image making, and organized intelligence. The study begins with an analysis of the world outside and the pictures in our heads, a leitmotif that starts with issues of censorship and privacy, speed, words, and clarity, and ends with a careful survey of the modern newspaper. Lippmann's conclusions are as meaningful in a world of television and computers as in the earlier period when newspapers were dominant. Public Opinion is of enduring significance for communications scholars, historians, sociologists, and political scientists. Copyright © Libri GmbH. All rights reserved.

Globalization and Its Discontents Joseph E. Stiglitz,2003-04-17 This powerful, unsettling book gives us a rare glimpse behind the closed doors of global financial institutions by the winner of the 2001 Nobel Prize in Economics. When it was first published, this national bestseller quickly became a touchstone in the globalization debate. Renowned economist and Nobel Prize winner Joseph E. Stiglitz had a ringside seat for most of the major economic events of the last decade, including stints as chairman of the Council of Economic Advisers and chief economist at the World Bank. Particularly concerned with the plight of the developing nations, he became increasingly disillusioned as he saw the International Monetary Fund and other major institutions put the interests of Wall Street and the financial community ahead of the poorer nations. Those seeking to understand why globalization has engendered the hostility of protesters in Seattle and Genoa will find the reasons here. While this book includes no simple formula on how to make globalization work, Stiglitz provides a reform agenda that will provoke debate for years to come. Rarely do we get such an insider's analysis of the major institutions of globalization as in this penetrating book. With a new foreword for this paperback edition.

PERSUASION Jane Austen,2021-01-08 Persuasion is a novel written by a famous British writer Jane Austen. It is a story about the life of Anne Elliot, a middle daughter of baronet Sir Walter, a spender and bluffer. Due to these features of his character, he found himself in a difficult financial position. He has to rent a family estate Kellynch Hall in order to pay his debts. Meanwhile, his most smart and considerate daughter Anne goes to Uppercross to look after a sick sister. In the days of her youth she was mutually in love with Frederick Wentworth, but because of a fear of a poor marriage, “reasons of conscience” and on the insistence of a “family friend” Lady Russel Anne stopped her relationship with him. But now after eight years, some incredible coincidence happens. The family that rents Kellynch Hall is related to Frederick Wentworth. Is the old-time love still alive in the hearts of Anne and Frederick?

A Soldier Supporting Soldiers Joseph M. Heiser,2011-03 This a reprint of 1991 study published by the United States Army Center of Military History. A Soldier Supporting Soldiers represents the collective insights of distinguished U.S. Army logistician Joseph M. Heiser Jr. He infuses his narrative with specific firsthand experiences in the organization of combat service support, thus illuminating larger principles of not only logistics but also military leadership and ethics. Heiser describes and analyzes problems still familiar to those who provide the materials and other support required by today's Army, especially in an environment of limited resources and challenging contingency operations. Military logisticians and military policymakers will benefit greatly from the logistics lessons.

Female Serial Killers Peter Vronsky,2007-08-07 In this fascinating book, Peter Vronsky exposes and investigates the phenomenon of women who kill—and the political, economic, social and sexual implications buried with each victim. How many of us are even remotely prepared to imagine our mothers, daughters, sisters or grandmothers as fiendish killers? For centuries we have been conditioned to think of serial murderers and psychopathic predators as men—with women registering low on our paranoia radar. Perhaps that’s why so many trusting husbands, lovers, family friends, and children have fallen prey to “the female monster.” From history’s earliest recorded cases of homicidal females to Irma Grese, the Nazi Beast of Belsen, from Britain’s notorious child-slayer Myra Hindley to ‘Honeymoon Killer’ Martha Beck to the sensational cult of Aileen Wournos—the first female serial killer-as-celebrity—to cult killers, homicidal missionaries, and our pop-culture fascination with the sexy femme fatale, Vronsky not only challenges our ordinary standards of good and evil but also defies our basic accepted perceptions of gender role and identity. The Impact of Publicity on Corporate Offenders Brent Fisse,John Braithwaite,1984-06-30 Uncertainty surrounds the use of publicity as a means of controlling corporate crime. On the one hand, some agree with Justice Brandeis's dictum that light is the best of disinfectants...the most efficient policeman. On the other hand, many believe that corporations' internal affairs are effectively shrouded with a thick fog that prevents the light of public scrutiny from reaching them. The Impact of Publicity on Corporate Offenders is the first study to go beyond the rhetoric, through an examination of corporate experience. Fisse and Braithwaite have carried out a qualitative inquiry concerning 17 large corporations involved in publicity crises. Based mainly on interviews, the inquiry includes company employees and former employees, union officials, officers of government regulatory agencies, competitors, independent accountants, government prosecutors, public interest activists, judicial officers, stockbrokers, and other experts.

The Cycle of Thought Napoleon Hill, Judith Williamson, 2019-02-15 A BOOK TO INSPIRE YOUR POSITIVE SELF This upside down book replicates the cycle of thought. Positive thinking does not just “happen,” but often occurs in tandem with the outgrowth of negative thought. If not for loss, a person might not be able to appreciate a gain in finances, relationships, and employment among many other circumstances in life. In order to focus on the good, the bad needs to be acknowledged. This cyclic balance demonstrates the ebb and flow of the Universe constantly in motion both for and against itself. NAPOLEON HILL was born in Wise County, Virginia. He began his writing career at age 13 as a “mountain reporter” for small town newspapers and went on to become America’s most beloved motivational author. His work stands as a monument to individual achievement and is the cornerstone of modern motivation. His most famous work, *Think and Grow Rich*, is one of the best-selling books of all time.

Meccan Trade and the Rise of Islam Patricia Crone, 2020-03-03 Patricia Crone reassesses one of the most widely accepted dogmas in contemporary accounts of the beginnings of Islam: the supposition that Mecca was a trading center. In addition, she seeks to elucidate sources on which we should reconstruct our picture of the birth of the new religion in Arabia.

Tracks of a Thief Joseph James, 2014-08-27 The man known as Clark Durbin worked for the Comstock National Bank as a consultant in computer programming for over a year. Durbin was described as approximately 65 years old, had a full head of gray hair and a full beard that was also gray. He was approximately six foot tall and was overweight. He had a cheerful demeanor and sparkling blue eyes—the type of individual one was inclined to instinctively trust. This was of course a disguise. He was actually 48 years old, five foot eleven inches tall, weighed 170 pounds, had brown hair, brown eyes, was clean shaven, and his name was not Mark Durbin. After the fraudulent transfer of fifty million dollars to a numbered account in Zurich, Durbin disappeared, leaving no tracks. Jeremiah Jones, a private investigator with a reputation for finding people who don’t want to be found, was contracted by the bank to recover the money and find the thief. The thief’s ability to make himself seemingly invisible challenged Jeremiah’s tracking skills. Tracking is done in the mind as much or more than by following physical or electronic tracks, which in this case were few. After some misdirection, false trails, and bad assumptions, Jeremiah, at a considerable personal risk, successfully located the money and returned it to the bank. However, identifying the thief proved to be even more challenging.

The Biblical Illustrator - Vol. 60 - Pastoral Commentary on 1 Peter Charles Spurgeon, Alexander Maclaren, Henry Ward Beecher, 2013-11-05 **This ebook version of *The Biblical Illustrator - Pastoral Commentary on 1 Peter* contains nearly 1200 pages of commentary! What if Charles Spurgeon helped you prepare next Sunday’s sermon? Or what if you could talk over your preaching with Joseph Parker, Richard Baxter, Henry Ward Beecher and H. P. Liddon. Do you think it would make a difference to get the input of some of the greatest preachers who ever lived? That’s precisely what Joseph Exell had in mind when he put together the massive series of volumes called *The Biblical Illustrator*. In what can only be called a Herculean feat, he spent years gathering preaching notes and sermon outlines from the very best preachers of his day (in the late 1800s and early 1900s), and he did it covering every book of the Bible. And it is amazingly comprehensive. Exell approached his task by taking every verse in the Bible and seeking to discover how it has been preached in the past. Though there is plenty of exegetical material here, this is not primarily a commentary. This series is for preachers, teachers, Bible students and anyone else looking for penetrating pastoral insights from some of the all-time greats of the faith.

The Nigerian Complex Cliff Edogun, 2015-02-18 Demola Martins and Asuquo Udoh, good friends albeit of contrasting social and spiritual backgrounds, face the harsh realities of life in a country where, despite its bountiful oil reserves, the majority do not have access to a steady supply of water or electricity, employment opportunities for university graduates are severely lacking, and corruption is rampant in a government that appears to deliberately prevent its citizens from being heard. After two years of being jobless, Asuquo inadvertently applies for a doorman's job at the International Airport Hotel, willing to accept the only form of employment available to him despite his degree in chemistry. Demola, an electrical engineer from a family of professional elite, opts to wait for a job more suited to his social rank. Four years later, Demola decides to act on a vision and founds the Campaign Against Rigging Elections (CARE). Asuquo and Demola, along with three other visionaries, form the Crisis Group to head the Campaign, and a youth movement is born. Through peaceful rallying, they push for a more transparent balloting and counting system—the spot ballot method—with the ultimate goal of eliminating election rigging to redeem the “Nigeria that prospers all.”
