Arsonists in California and New York William G. Bradshaw,1985 A nonrandom sample of 90 arsonists in California and New York was interviewed for the California Department of Forestry from 1977 to 1979. About two-thirds of them were in prison for arson, and the others were in mental hospitals. The 90 interviewees were mostly unmarried males ranging in age from 17 to 51 years. Survey results show that those who set their first arson fire at a young age tended to set many fires, and had more arson convictions and repeated visits to mental hospitals than those who set their first fire at an older age.

American Fire: Love, Arson, and Life in a Vanishing Land Monica Hesse,2017-07-11 A New York Times Notable Book of the Year A Washington Post Notable Book of the Year One of Amazon's 20 Best Books of the Year Named one of the Best Books of the Year by BuzzFeed, Bustle, NPR, NYLON, and Thrillist Finalist for the Goodreads Book Award (Nonfiction) Finalist for the Edgar Award (Best Fact Crime) A Book of the Month Club Selection A New York Times Book Review Editors' Choice Selection "A brisk, captivating and expertly crafted reconstruction of a community living through a time of fear.... Masterful." —Washington Post The arsons started on a cold November midnight and didn't stop for months. Night after night, the people of Accomack County waited to see which building would burn down next, regarding each other at first with compassion, and later suspicion. Vigilante groups sprang up, patrolling the rural Virginia coast with cameras and camouflage. Volunteer firefighters slept at their stations. The arsonist seemed to target abandoned buildings, but local police were stretched too thin to surveil them all. Accomack was desolate—there were hundreds of abandoned buildings. And by the dozen they were burning. "One of the year's best and most unusual true-crime books" (Christian Science Monitor), American Fire brings to vivid life the reeling county of Accomack. "Ace reporter" (Entertainment Weekly) Monica Hesse spent years investigating the story, emerging with breathtaking portraits of the arsonists—troubled addict Charlie Smith and his girlfriend, Tonya Bundick. Tracing the shift in their relationship from true love to crime spree, Hesse also conjures the once-thriving coastal community, decimated by a punishing economy and increasingly suspicious of their neighbors as the culprits remained at large. Weaving the story into the history of arson in the United States, the critically acclaimed American Fire re-creates the anguished nights this quiet county lit up in flames, evoking a microcosm of rural America—a land half-gutted before the fires began.

Explosives & Arson Investigation Jean Ford,2014-09-02 An uncanny calm settles on the scene. The blaze is out. A soggy, sooty mess remains. Most of us wouldn't have a clue where to begin, yet fire and explosion investigators know precisely where and how to dig in. Other books in this series show that documents, fingerprints, a stray hair, fibers, bullets, tool marks, blood spatter, SNA, cigarette butts, insects, or even a simple candy wrapper can provide clinching proof in many legal cases—but fire and bombs destroy these bits of evidence. What clues can forensic scientists possibly glean from rubble and ash? Using real-life stories as examples, *Explosives & Arson Investigation* explores the world of fire—and bomb-scene investigation. From first-on-the-scene priorities to collecting and documenting evidence to lab analysis and its procedures, then finally assessing motive, this book reveals basic fire characteristics, what investigators look for, how they process what they find, the meaning of specific clues, and common motives—all while highlighting various forensic careers.

Arson Investigation Edward Bates,2022-06-06 Arson Investigation consists of true actual cases of arson. Photographs that were taken are included to indicate how the fires were started. These arsons include murder, organized crime, cover-up for other crimes, and more. Investigative techniques prepare the investigator to obtain sufficient evidence in order to convict the fire setter and then present this information as an expert witness in a court of law. Technical information is replete in the text. In addition, serious and dangerous crimes are presented, including the infamous Chowchilla bus kidnapping, where twenty-six children were abducted.

Arson Brendan P. Battle,Paul B. Weston,1954 Developed from law enforcement and insurance case files, this investigator's handbook outlines various types of arson and examines the statutory, crime detection, and evidence-gathering aspects of fire investigation. Characterizing arson as a neglected crime and charting its growth during the last decade, the rest of the text focuses on the legal and forensic aspects of arson law enforcement. Areas covered include common law arson and statewide codes; direct and circumstantial evidence, opinion evidence, the exclusionary rule, and the admissibility of electronic surveillance evidence; overt arson, fire-setting mechanisms, and motive and intent; insurance fires; hate fires including those arising from racial, religious, or landlord-tenant antagonisms; hate bombings; pyromaniacs including juvenile and mentally ill fire-setters; and arson to facilitate such crimes as murder, burglary, and destruction of records. Securing and inspecting the crime scene, interviewing and interrogating witnesses and suspects, pursuing a continuing investigation, and detecting and breaking organized arson rings are also covered. Twelve case studies are also provided, dealing with killer fires, sufficiency of evidence, aggravated arson, search and seizure, expert arsonists, motive, motive and opportunity, pre-Miranda confessions, problems of unfocused investigations, suspicious fires, corpus delicti and identity, and determining the prime suspect. A glossary, references, selected bibliography, and index are included.

Burn Baby Burn Mike Savage,1999-05 Somebody's been burning down the house in Superior, Wisconsin. This to the tune of 18 buildings in 11 months. Things are getting out of hand on Arson Avenue in northern Wisconsin's most beautiful city Alphonse Dave Davecki is told by Police Chief B.D. Callahan to stop the madness. To help Dave in this quest, Callahan assigns a new partner to Davecki. Andrea Bubba Carlstrom is the finest arson investigator in the state. She's also beautiful and tough. Together these crime fighters end up in the Twin Cities of Murderapolis and St. Paul doing battle with demented fire cultists who want nothing more than to turn our heroes into life-less carbon based life forms through the use of the latest

flame thrower technology for cars and Sport Utility Vehicles.
