**Enriching Lives** Bangyan Feng,Mee Kau Nyaw,2010-12-01 Insurance is one of Hong Kong's oldest industries. In the nineteenth century the lucrative trade between China and Europe carried many risks - piracy, warfare, fire, loss of goods, and other mishaps. Dozens of different insurance firms - some home-grown, others imported - established themselves in the colony to protect ships and their cargoes. With the diversification of Hong Kong's economy into manufacturing and services, Hong Kong became a global centre of insurance, and the industry continues to transform itself today through changing practices and new lines of business. This is the first comprehensive history of Hong Kong's insurance industry, and it argues its central importance in the economy. Typhoons, shipwrecks, fires, wars, political turbulence and unexpected events of all kinds provide a dramatic background to a fascinating survey; the book is richly illustrated with photographs and documents. Ngaw Mee Kau is a former vice president of Lingnan University, Hong Kong.Feng Bangyan is professor of the College of Economics, Jinan University. The book will help students better understand the development of the industry and the important role it plays in Hong Kong, as well as building up their knowledge and sense of belonging in the industry. It will be of interest to people from the field of insurance and finance, people who are interested in Hong Kong history, as well as the general public.

Contents of Contracts and Unfair Terms Mindy Chen-Wishart,Stefan Vogenauer,2020-11-30 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of commerce where limited critical commentaries have been published in the English language. Each volume in the series aims to offer an insider's perspective into specific areas of contract law - remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy - and explores how these diverse jurisdictions address common problems encountered in contractual disputes. A concluding chapter draws out the convergences and divergences, and other themes. All the Asian jurisdictions examined have inherited or adopted the common law or civil law models of European legal systems. Scholars of legal transplant will find a mine of information on how received law has developed after the initial adaptation and transplant process, including the mechanisms of and influences affecting these developments. At the same time, many points of convergence emerge. These provide good starting points for regional harmonization projects. Volume III of this series deals with the contents of contracts and unfair terms in the laws of China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, Myanmar, the Philippines, Singapore, Taiwan, Thailand, and Vietnam. Typically, each jurisdiction is covered in two chapters: the first deals with the contents of contracts and how contractual terms are

identified and interpreted; the second deals with unfair terms, the situations where the law will interfere in matters of 'unfairness' relating to contract terms, and legal responses to unfair terms.
