Lorenzo Ghiberti Richard Krautheimer,2019-10-08 Volume 1 of 2. Lorenzo Ghiberti, sculptor and towering figure of the Renaissance, was the creator of the celebrated Bronze Doors of the Baptistry at Florence, a work that occupied him for twenty years and became known (at Michelangelo's suggestion, according to tradition) as the Doors of Paradise. Here Richard Krautheimer takes what Charles S. Seymour, Jr., describes as a fascinating journey into the mind, career, and inventiveness of one of the indisputably outstanding sculptors of all the Western tradition. This one-volume edition includes an extensive new preface and bibliography by the author. Richard Krautheimer, Professor Emeritus of the Institute of Fine Arts at New York University, currently lives in Rome. He is the author of numerous works, including the *Pelican Early Christian and Byzantine Architecture and Rome: Profile of a City, 312-1308* (Princeton). Princeton Monographs in Art and Archaeology, 31. Originally published in 1983. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Creation of Eve and Renaissance Naturalism Jack M. Greenstein,2016-08-23 Depicting the Creation of Woman presented a special problem for Renaissance artists. The medieval iconography of Eve rising half-formed from Adam's side was hardly compatible with their commitment to the naturalistic representation of the human figure. At the same time, the story of God constructing the first woman from a rib did not offer the kind of dignified, affective pictorial narrative that artists, patrons, and the public prized. Jack M. Greenstein takes this artistic problem as the point of departure for an iconographic study of this central theme of Christian culture. His book shows how the meaning changed along with the form when Lorenzo Ghiberti, Andrea Pisano, and other Italian sculptors of the fourteenth and fifteenth centuries revised the traditional composition to accommodate a naturalistically depicted Eve. At stake, Greenstein argues, is the role of the artist and the power of image-making in reshaping Renaissance culture and religious thought.

Encyclopedia of Comparative Iconography Helene E. Roberts,2013-09-05 First published in 1998. The Encyclopedia of Comparative Iconography compares the uses of iconographic themes from mythology, the Bible and other sacred texts, literature, and popular culture in works of art through various periods, cultures, and genres. Art historians now tend to study narrative themes depicted in works of art in relation to such subjects as gender and sexuality, politics and power, ownership and possession, ceremony and ritual, legitimacy and authority. The Encyclopedia of Comparative Iconography reflects these new approaches by

ordering the themes of various iconographic sources in particular biblical, mythological, and literary texts according to these new emphases. Each handsomely illustrated entry discusses the major relevant iconographic narratives and the historical background of each theme. A list of selected works of art that accompanies each essay guides the reader to examples in art that depict the theme under discussion. Each essay includes a list of suggested reading that provides further sources of information about the themes. A general bibliography of reference books is listed separately and can be used in association with all the essays. With 119 entries written by 42 experts, the *Encyclopedia of Comparative Iconography* is an important reference work for art historians, students of art history, artists, and the general reader.

Michelangelo, Selected Scholarship in English: The Sistine Chapel William E. Wallace, 1995 Accessible to readers-useful to specialists Much as has been written on Michelangelo. By 1970, the number of scholarly books and articles exceeded 4,000, approximately a tenth in English. In the past 25 years, the literature has grown exponentially, with a notable increase in English-language publications. The five-volume series reproduces some 100 articles in English, selected from a broad range of books and journals. The collection is both accessible to the general reader and useful to the specialist, offering a representative sample of old and new commentary on the artist and his work. The career of a genius Articles are arranged chronologically with separate volumes covering the artist's early life and works, the Sistine Chapel ceiling, commission associated with San Lorenzo, the tomb of Julius II and other Roman projects, and a final volume devoted to drawings, poetry, and miscellaneous studies. Spanning his entire 89-year life, the articles explore Michelangelo's prodigious creativity as an artist, thinker, and poet. The sheer quantity of what has been written on Michelangelo can be intimidating; most students have little sense of how to approach or effectively utilize the vast literature. By presenting a varied introduction to a great artist, this collection is a handy reference tool for a wide array of topics, problems, and literature.

The Legends of the Modern Didier Maleuvre, 2019-11-28 What made art modern? What is modern art? *The Legends of the Modern* demystifies the ideas and legends that have shaped our appreciation of modern art and literature. Beginning with an examination of the early modern artists Shakespeare, Michelangelo, and Cervantes, Didier Maleuvre demonstrates how many of the foundational works of modern culture were born not from the legendry of expressive freedom, originality, creativity, subversion, or spiritual profundity but out of unease with these ideas. This ambivalence toward the modern has lain at the heart of artistic modernity from the late Renaissance onward, and the arts have since then shown both exhilaration and disappointment with their own creative power. *The Legends of the Modern* lays bare the many contradictions that pull at the fabric of modernity and demonstrates that modern art's dissatisfaction with modernity is in fact a vital facet of this cultural period.

Uccello, Lippi, Castagno John Walker Myers, 1971

Adam's Apple Jeffery Rogers, 2003-12-01 How far will you go for love? Kevin Spivey murdered New Orleans' coke king, laundered \$4 million in dirty assets, and set plans in motion to disappear. He's pulled the perfect crime, but Kevin has some more obstacles in his way. All flights out of Washington, D.C., are grounded under the heaviest storm to hit in close to a decade. Mykal Odadjian, his one and only love might be on the way. Of course, Mykal might not forgive Kevin, and the FBI might be en route. He's also got the Chicago cartel to worry about; he made his fortune selling them hot credit cards, and they'd be more than willing to turn his staged fatality into a reality. Kevin, faced with all the possible crises that would snap most men in half, faces this possibility: is he losing his mind, or has his late best friend been using him as a puppet for even darker purposes? As he waits for his future to unfold, Kevin has to face the demons of his past, demons that pushed him away from the straight and narrow, demons that could take his soul.

Italian Renaissance Painting James H. Beck, 1981 This knowledgeable, useful and up-to-date survey of one of the greatest periods in Western painting, from Masaccio through Titian, covers some fifty artists and their work and includes nearly 400 illustrations integrated with the text. James Beck of Columbia University gives biographical information on each artist and discusses and analyzes his artistic style, achievement and most significant works. /

All the Paintings of Paolo Uccello Paolo Uccello, Enzo Carli, 1963 This volume contains a catalogue of all of Paolo Uccello's recognized paintings, including lost and attributed works. The introductory essay by Enzo Carli appraises the artist's achievement in the light of modern criticism and scholarship, and presents the major periods in his development.

All Possible Orbits Adam Perry, 2021-09-02 Fired from his job, recently divorced, and nearly broke, Tucker Merrill is ready to snap when he receives word of his brother's suicide. In full retreat, Tucker returns to his hometown of Natchez, Mississippi, where the local industries have cut and run, the old southern mansions are devoid of visitors, and all that remains are gambling, hard drugs, and some serious cases of arrested development. The unforgiving criticism of Tucker's father coupled with the less than sympathetic ear of his childhood sweetheart, forces a brutal reassessment of his life. However, before he can reconcile his past and his present, he'll have to steer clear of a group of Neo-Nazi's hellbent on kick-starting a race war in the 21st Century shambles of the Old South.
