Morbid Obesity Adrian Alvarez, 2010-03-11 Patients with extreme obesity undergoing surgical procedures need specific perioperative management. This new edition gives clear guidance on clinical management.

Lucky Boy Shanthi Sekaran, 2017-09-05 A gripping tale of adventure and searing reality, Lucky Boy gives voice to two mothers bound together by their love for one lucky boy. "Sekaran has written a page-turner that's touching and all too real."—People "Heart-rending and heartwarming... There's something for everyone in this wonderful novel."—Celeste Ng, *Little Fires Everywhere* NAMED A BEST BOOK OF THE YEAR BY NPR, THE SAN FRANCISCO CHRONICLE, AND LIBRARY JOURNAL In this astonishing novel, Shanthi Sekaran gives voice to the devotion and anguish of motherhood through two women bound together by their love for one boy. Soli, a young undocumented Mexican woman in Berkeley, CA, finds that motherhood offers her an identity in a world where she's otherwise invisible. When she is placed in immigrant detention, her son comes under the care of Kavya, an Indian-American wife overwhelmed by her own impossible desire to have a child. As Soli fights for her son, Kavya builds her love on a fault line, her heart wrapped around someone else's child. Exploring the ways in which dreams and determination can reshape a family, Sekaran transforms real life into a thing of beauty. From rural Oaxaca to Berkeley's Gourmet Ghetto to the dreamscapes of Silicon Valley, Lucky Boy offers a moving and revelatory look at the evolving landscape of the American dream

and the ever-changing borders of love.

International Law and Society Laura A. Dickinson, 2017-11-30 Scholars of international human rights law are largely unfamiliar with law and society scholarship, while the study of international human rights has remained at the margins of the law and society movement. *International Law and Society: Empirical Approaches to Human Rights* seeks to bridge this gap by presenting the work of a growing number of academics who are adopting a range of empirical approaches to international human rights. Drawn from the fields of anthropology, sociology, political science and law, the studies featured in this volume use a variety of qualitative and quantitative methods to analyze core issues of international law and human rights, such as compliance, the development of norms and the role of social movements.

Morbid Obesity Adrian O. Alvarez, 2004-11-04 Written by international experts in the field, this comprehensive book covers all aspects of obesity that may impact upon the practice of the anaesthetist, intensivist or other healthcare professional dealing with the obese patient. The information is presented in a logical manner--opening chapters cover the underlying pathophysiology of obesity and move on to discuss general risk factors, legal and ethical aspects of anaesthesia, changes in pharmacokinetics and pharmacodynamics, pre-operative assessment and management. The main section of the book then focuses on specific problems such as renal function, DVT, patient positioning, airway management and ventilation, pulse oximetry, TOE,

brain monitoring and BIS, general, spinal and epidural anaesthesia, volatile anaesthetics and drug delivery. A final section includes chapters that detail the nursing, ICU and trauma management of the obese patient, and covers key topics such as anaesthesia for caesarean section, ECG, infection control, haemodynamic monitoring, post-anaesthetic care and postoperative analgesia.

New Perspectives on the Divide Between National and International Law André Nollkaemper, Janne Elisabeth Nijman, 2007 This book analyses one of the most pressing issues of modern international law: the relationship between the international legal order and the domestic legal orders of sovereign states. It contains different perspectives on the legal complexity that results from the interactions between the international and domestic spheres.

Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Miguel Ángel Esparza Torres, Hans-Josef Niederehe, 2015-10-15 Since the publication of the still very valuable *Biblioteca histórica de la filología* by Cipriano Muñoz y Manzano, conde de la Viñaza (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably, and most manuscript and secondary sources had never been tapped before Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings, scattered in libraries, journals and other places. The resulting *Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español*:

Desde los principios hasta el año 1600 (BICRES) began appearing in 1994. BICRES I covered the period from the early beginnings to 1600), followed by BICRES II (1601–1700), BICRES III (1701–1800), and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV (1801 to 1860). Now, the fifth volume, has become available, covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5,272 titles is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work – relative sources of the Americas have also been covered – making it exhaustive source for any serious scholar of any possible aspect of the Spanish language.

Positive Ageing and Learning from Centenarians Michel Poulain, Jolanta Mackowicz, 2021-09-28 Positive Ageing and Learning from Centenarians evaluates the mechanisms of positive ageing in a uniquely interdisciplinary way to explore the question of how we age and how some people age successfully. Drawing together the findings of recognised longevity researchers from around the world, the book applies an integrated vision to educational and social aspects of human ageing. It examines research into centenarians, and considers most of the disciplines related to longevity and healthy aging and aspects such as education, psychology, philosophy, anthropology, demography,

sociology, economics as well as those related to nutrition and biological factors of longevity. The book examines how the results of these scientific investigations could improve the well-being of the oldest olds in the future, especially in the context of ageing societies. It provides an answer to the question of what we can learn from centenarians and what lessons we can from their lifestyle, which can contribute to live longer, better and happier. Based on cutting-edge research, the book will be highly relevant reading for researchers, academics and students in the field of ageing and longevity, mental health research, health science, gerontology and psychology.

Trophy Hunting Nikolaj Bichel, Adam Hart, 2023-04-11 This book gets to the heart of trophy hunting, unpacking and explaining its multiple facets and controversies, and exploring why it divides environmentalists, the hunting community, and the public. Bichel and Hart provide the first interdisciplinary and comprehensive approach to the study of trophy hunting, investigating the history of trophy hunting, and delving into the background, identity and motivation of trophy hunters. They also explore the role of social media and anthropomorphism in shaping trophy hunting discourse, as well as the viability of trophy hunting as a wildlife management tool, the ideals of fair chase and sportsmanship, and what hunting trophies are, both literally and in terms of their symbolic value to hunters and non-hunters. The analyses and discussions are underpinned by a consideration of the complex moral and practical conflicts between animal rights and conservation

paradigms. This book appeals to scholars in environmental philosophy, conservation and environmental studies, as well as hunters, hunting opponents, wildlife management practitioners, and policymakers, and anyone with a broad interest in human-wildlife relations.

Centuries of Inventions Jorge Lucendo, 2020-04-23 The history of inventions was born more than 10 centuries ago. 10,000 years of inventions and creations of the human being, of the so-called *Homo Sapiens*. This book traces the history of the most important inventions and discoveries that have happened throughout the centuries, this work defines in an extended and very complete way the definition of all those creations that some geniuses created in their day. From the most remote antiquity, those stone tools created in the era of the Cromagnon man, to the most advanced cybernetic and digital technologies of our time. As an author, I realized when writing this book, that although we think we know almost everything, we do not really know almost anything...

13 Under the Wire Gil Reavill, 2016-05-24 International Thriller Writers Award finalist Gil Reavill returns with another riveting crime novel featuring detective Layla Remington—perfect for fans of Michael Connelly and Nevada Barr. As *13 Under the Wire* unfolds, Layla's dark and traumatic past threatens to explode into the here and now. Los Angeles is in the grip of a monster riot. After thirty-six straight hours on duty, sheriff's detective Layla Remington makes an error that could cost her badge. Shell-shocked, she retreats to the LASD's temporary staging area: a once-grand mansion that

Layla knows from what seems like a lifetime ago. . . . It's ten years earlier. Layla is twenty-two, a probationary cadet at the police academy. A childhood friend has died tragically in Tijuana, and Layla finds herself once again enmeshed in the lavish lives of the über-wealthy Loushane family. The privileged kids she grew up with are taking their places among the upper crust. But as Layla wraps up the late Simon Loushane's affairs, she stumbles upon a clue to something very sinister that haunts the family. Unable to quell her curiosity, Layla pulls at the threads of greed and tragedy—and unravels a twisted history of evil that stretches from the Gold Coast of Mexico to the Sonora Desert. And now, a decade later, those demons have come back to claim her.

The Cristos yacentes of Gregorio Fern?ez Ilenia Col?n Mendoza,2017-07-05

Analyzing seventeenth-century images of the dead Christ produced by Gregorio Fern?ez, author Ilenia Col?endoza investigates how and why the artist and his patrons manipulated these images in connection with the religious literature of the time to produce striking images that moved the faithful to devotion. In so doing, she contributes new findings to the topic of Spanish sacred sculpture. The author re-examines these sculptures not only in the context of a larger sculptural group but also as independent sculptures that were intended as powerful aids to contemplation and devotion as was prescribed by the writings of San Juan de la Cruz and Luis de Granada. Combining study of the sculptural works with that of liturgical sources, she reveals the connection between the written word and the sculpted work of art. Through this interdisciplinary approach, the author links Fern?ez's sculptural program with the strategic objectives of major patrons of the period, such as the Duke of Lerma and King Philip III of Spain, both fervent defenders of the Catholic faith.

Spanish Artists from the Fourth to the Twentieth Century: A-F Frick Art Reference Library,1993 This detailed bibliographical dictionary constitutes a virtual encyclopaedia of the Spanish School, covering artists born in Spain as well as those who worked chiefly in Spain. 16,000 years of Spanish art are documented with consideration paid to each artist's birth and death dates; medium; and bibliographical references. This three-volume work lists approximately 10,000 painters, sculptors, draftsmen, printmakers, architects, and applied artists.

The philosophy of bitcoin Álvaro D. María,2022-04-05 The work addresses the impact of bitcoin at a theoretical-historical level, focusing on what this currency is, what money is and why bitcoin has specific qualities that represent a revolution in this field. In addition, it exposes and delves into the analysis of the crisis of two ideas: that of currency linked to the validation of political authority and that of the State, focusing, among

other aspects, on the redefinition of property rights.
