The International Criminal Court and Africa Charles Chernor Jalloh,Ilias Bantekas,2017-10-06 Africa has been at the forefront of contemporary global efforts towards ensuring greater accountability for international crimes. But the continent's early embrace of international criminal justice seems to be taking a new turn with the recent resistance from some African states claiming that the emerging system of international criminal law represents a new form of imperialism masquerading as international rule of law. This book analyses the relationship and tensions between the International Criminal Court (ICC) and Africa. It traces the origins of the confrontation between African governments, both acting individually and within the framework of the African Union, and the permanent Hague-based ICC. Leading commentators offer valuable insights on the core legal and political issues that have confused the relationship between the two sides and expose the uneasy interaction between international law and international politics. They offer suggestions on how best to continue the fight against impunity, using national, ICC, and regional justice mechanisms, while taking into principled account the views and interests of African States.

Middle Eastern Leaders and Islam Sonia Alianak,2007 This book breaks down and elucidates the relationships between the several leaders of an increasingly religious Middle East. Considering Islamic religious figures as well as the political leaders of Jordan, Saudi Arabia, Iraq, Syria, and Egypt, it explains how, in times of crisis, these leaders counter the influences of moderate and extremist Islamists with Islam itself. Each uses an interpretation of the religion to effect equilibrium amongst their people, thus generating relative stability for their rule. As a result, many leaders have enjoyed remarkable longevity of power, and some have managed to obtain legitimate political ends. This book goes beyond state- and society-centered theories to focus on the dynamic interactions between the rulers and the ruled, shedding new light on how international crises create domestic crises, and suggesting new solutions to the Middle East's international problems.

Papal Quest T. Clement Robison,2022-06-22 The teachings of the world's three greatest religions provide the backdrop for a suspense filled tale of deception and intrigue. The author entices his readers to examine their beliefs as they are enmeshed in a dangerous journey to the Holy Lands in search of the lost Book of the Master. Ancient texts are uncovered requiring the pope to take drastic action to protect the Catholic Church from destructive scrutiny. Secrecy is of the highest priority as a search is made for an ancient manuscript hidden somewhere in the Middle East. The Dead Sea Scrolls, the Bible, and the Books of Enoch are examined so the reader can understand the importance of the lost book. Lives are threatened and lost, but the price must be paid to hide the truth and protect the faithful.

Notorious Tyrants Nigel Cawthorne,2012-12-15 Throughout history, there are those who have been labeled dictator or tyrant. Their influence, while an important part of history, had a negative impact. Readers explore the lives of some of the world's most notorious tyrants, including Nero and Qaddafi. How they lived, how they died, and their impact on history are revealed.

The Indian Army List ,1915

Tyrants Nigel Cawthorne,2013-01-02 An astonishing compendium of dictators and their crimes against the State. The scope of entries is an all-encompassing chronicle of tyrants. Virus C.T. Bonnett,2020-11-19 David Asher's discovery could turn the theory of evolution on its head, but the establishment will have none of it. Discouraged and unemployed, David finds an interested party with deep pockets and loose morals. What could go wrong?

The Making of Foreign Policy in Iraq Zana Gulmohamad,2021-01-14 How is foreign policy made in Iraq? Based on dozens of interviews with senior officials and politicians, this book provides a clear analysis of the development of domestic Iraqi politics since 2003. Zana Gulmohamad explains how the federal government of Iraq and Kurdistan Regional Government (KRG) have functioned and worked together since toppling Saddam to reveal in granular detail the complexity of their foreign policy making. The book shows that the ruling elites and political factions in Baghdad and in the capital of the Kurdistan Region, Erbil, create foreign policies according to their agendas. The formulation and implementation of the two governments' foreign policies is to a great extent uncoordinated. Yet Zana Gulmohamad places this incoherent model of foreign policy making in the context of the country's fragmented political and social context and explains how Iraq's neighbouring countries - Iran, Turkey, Saudi Arabia and Syria before the civil war - have each influenced its internal affairs. The book is the first study dedicated to the contemporary dynamics of the Iraqi state - outside the usual focus on the "great powers" - and it explains exactly how Iraqi foreign policy is managed alongside the country's economic and security interests.

Civil-Military Relationships in Developing Countries Dharendra K. Vajpeyi,Glen Segell,2013-12-16 This book examines two sides of civil-military relations in developing countries. One is the place of civil-military relations within a state's political and economic systems; the other is the role of the military on a state's maintenance of peace and stability. The book thus proposes that the function of soldiers is not only to defend and deter, but also to develop. The chapters provide a comprehensive analysis of civil-military relationship with comparative cases on Botswana, China, El Salvador, Honduras, Guatemala, India, Indonesia, Nicaragua, Nigeria, Pakistan, and The Arab Spring Countries of the Middle East including Bahrain, Sudan, Iraq, Jordan, Saudi Arabia, Egypt, Tunisia, Yemen and Libya. Each chapter analyzes the historical, cultural and political factors that shape the direction of the man on the white horse (military elite) and the politician. In doing so, this book reveals the potential impact of the nature of civil military relations on democratization, political and economic development, and on regional/international security. Dharendra Vajpeyi and Glen Segell discuss and critique the current models and literature on civil-military relations. The innovative framework and careful choice of case studies, presented in a jargon-free, accessible style, makes this book attractive to scholars and students of civil military relations and development studies, as well as policymakers.

The Miracle of Ahmad Hazrat Mirza Ghulam Ahmad,2019-06-01 The book, The Miracle of Ahmad (I'jāz-e-Ahmadi) is one of the signs of truthfulness of the Founder of Ahmadiyya Muslim Community. It was written in 1902 when an opponent in Mudh, India alleged that all prophecies made by Hazrat Mirza Ghulam Ahmad(as) were false and that he did not possess the miraculous knowledge of the Arabic language he had claimed. In response, the Promised Messiah(as) wrote this book containing a lengthy Arabic Qasīdah [ode] in praise of the Holy Prophet Muhammad, may peace and blessings of Allah be upon him, in a mere five days. He challenged his opponents to produce the like of it and announced a prize money of Rs. 10,000 which was his total worth at the time. No one arose to the challenge. Instead, a large number of residents of town of Mudh were decimated by the plague as prophesied in this book.
