Somalis in Minnesota Ahmed Ismail Yusuf, 2012 The story of Somalis in Minnesota begins with three words: sahan, war, and martisoor. Driven from their homeland by civil war and famine, one group of Somali sahan, pioneers, discovered well-paying jobs in the city of Marshall, Minnesota. Soon the war, news, traveled that not only was employment available but the people in this northern state, so different in climate from their African homeland, were generous in martisoor, hospitality, just like the Somali people themselves. The diaspora began in 1992, and today more than fifty thousand Somalis live in Minnesota, the most of any state. Many have made their lives in small towns and rural areas, and many more have settled in Minneapolis, earning this city the nickname Little Somalia or Little Mogadishu. Amiable guide Ahmed Yusuf introduces readers to these varied communities, exploring economic and political life, religious and cultural practices, and successes in education and health care. he also tackles the controversial topics that command newspaper headlines: alleged links to terrorist organizations and the recruitment of young Somali men to fight in the civil war back home. This newest addition to the people of Minnesota series captures the story of the state's most recent immigrant group at a pivotal time in its history.

Vaccine: The Black Box Alhassan Ali Ahmed, Mohamed Abouzid, Ahmed Ismail Eatmann, 2021-02-20 No doubt 2020 was a challenging year for some, and tough for others due to COVID-19 pandemic. The early announcement of the vaccine at the beginning of 2021 gave several communities the hope to terminate this pandemic and made them believe they could shortly go back to normal life. Meanwhile, others were doubtful concerning the efficacy of the vaccine itself and advocated against it. In this book, we are representing the two sides – those who are for and those who are against the idea of vaccination. We do so by uncovering the historical fights and presenting various factors (religious, political, personal and industrial) concerning the vaccines and vaccination and by showing how different the perspectives of various people can be. We believe this book will build a bridge of trust and create an open dialogue for both sides. Whether you are off medical background or not, this book will be a valuable source of information. We did our best to clarify the medical terms and conditions and to explain in simple words the mechanisms that might seem difficult at first. Hopefully, this will make the time spent reading this book both informative and useful.

It provides an easily navigated, pocket-sized reference resource featuring pictures, tables and schema.

The Non-Crucifixion of Jesus Ahmed Ismail,2008 The overemphasis for the importance of the crucifixion or death of Jesus on the cross was not put in place until the era of Constantine. Historically, the issue of whether Jesus was or was not on the cross and crucified was settled around 148 AC according to the Roman church's satisfaction. In addition, the idea of Jesus being crucified was believed by certain Jewish-Christian sects for various reasons from the time of the actual crucifixion event. Furthermore, the declaration that Jesus rose from the dead was bound to cause trouble to those who lacked a deep comprehension in religious matters. The reasons for this are varied. It must not be forgotten, however, that during many decades the forming 'church' and its multitudinous sects were undergoing excruciating turmoil within and outside its ranks and this caused a lot of confusion to enter into the mix. Before the actual formation of Christianity, as a distinct religious movement, several ideas were floating around and one of them was that Jesus was not of the 'flesh' but a spiritual being. To counteract that idea, the notion that Jesus was actually crucified took concrete shape as if to prove his real existence and that he was not just an 'angelic' figure but a real person. The truth concerning the crucifixion event is astounding but only when an honest approach to all of the scriptures and a truthful look at history is applied. That is the truth but acceptance of this truth is quite another matter indeed!

An introduction of basic analyses, techniques and trends both in policy and technology are reviewed as they relate to management and the guest. The book gives newer managers, meeting planners, and others a “real world” understanding of the hotel industry balancing its past, present and future. New technologies such as the Property Management System have dramatically changed hotel operations; therefore, extensive time has been devoted to covering this technology. Additional chapters feature analysis of the physical makeup of hotels, yield management, and operational techniques. The African State Abdi Ismail Samatar,Ahmed Ismail Samatar,2002 The African state is more essential than ever for the sustainability of the long march towards political, economic, and cultural development. This volume captures the diversity of African states and leadership by examining eight states from northern, western, eastern, and southern Africa. Contributing African scholars transcend current thinking on the nature of the state and its role in transforming the fortunes of the continent. They establish a conceptual framework that allows for a complex but concrete and integrated analysis of the African state. Leader, regime, administration, and commonwealth provide the four key factors for identification of state types in Africa. Different combinations of these factors produce various types of states ranging from Botswana's relatively integral political system to the cadaverous Somali state. States examined in this collection include: Botswana Ethiopia Ghana Libya Nigeria South Africa Sudan All of the book's contributors have done substantial scholarly works on their respective countries. Their essays provide practical means of assessing reform programs intended to enhance state effectiveness. This book will be of great value not only to scholars, but also to policy makers and others concerned with the construction of a positive future for the African continent.
