Kashmir Storm Ajit Chak, 2015-01-15 Will sex tourism blossom in Kashmir? Ajit Chak speaks of many mysteries in his book *Kashmir Storm*. He speaks in a muted voice about the riots of 1984. He speaks of how a leader from South India could have driven a wedge between the Gandhi family and the Nehru family in the Congress Party and how Rajiv Gandhis security was compromised. He links Rajivs death in South India to the downfall of the Congress in Uttar Pradesh and the rise of regional parties in the state and the breakdown of law and order there. He talks of how customs in Uttar Pradesh promote rape within marriage, how giving tee shirts and mobile phones to girls can actually increase cases of rape, and lastly he talks in detail about the Muslim politics of the nation in UP, where almost half the entire population of Muslims in the nation lives and works. The year is 2016. Sex tourism is booming in Kashmir as the states economy has collapsed following the floods and inflow of Jihadis. Since prostitution is legal in Kashmir, there is little the police can do about it. Under Article 370, no Indian law can apply in Kashmir. The book reverses the Love Jihad theory has a Muslim heroine who goes through all kinds of risks for her paramour a Hindu lad from Noida and Delhi. The girl who has come from Pakistan to India eventually decides to move in with him and settle down as she cannot live without him. The book also skims through the plight of Kashmiri Pandits and how they were driven out of Kashmir.

The Legacy of Taj - Eternal Love: A Quest about the Myths, Mysteries & Mystical Love of Taj Ajit Phanse, 2021-02-26 Ladies and Gentlemen, I present to you the Taj Mahal. The guide said very theatrically while addressing the group of tourists. The greatest monument

of love on earth; it has inspired romance across generations. Everlasting love, that's the legacy of the Taj. That was what Abhay had heard about the great monument while growing up in the historic city of Agra. And, that is what he believed in. Until he came across the counterclaims of the legacy of the Taj. A preposterous yet compelling view about the Indian origins of the monument. Was there even an iota of truth in these claims? Or was it just a case of 'reductio ad absurdum'? Abhay decides to take definitive action on his own; to establish the most substantive counterfactual argument and get to the bottom of these claims. It helps that this quest of his also presents him a subject to seek a teaching assignment while being in the company of the intelligent Jasmeet and the monument, which, true to its reputation, does not fail to enkindle romance. Does Abhay succeed in disproving the claims? Or, does he yield to the confounding possibilities around the unrecorded antecedents of the monument? Join Abhay in his quest to seek the truth and rediscover The Legacy of Taj.

MY FATHER'S RING THE STORY OF A LOST ROMANCE Ajit Singh Dutta, 2023-08-20
'Perhaps I should have asked questions about the ruby ring. What was its story? Where did it come from? But, at that young age, and in the societal milieu of the time (where fathers were somewhat aloof and not to be questioned), I did not...It was only much later that I unearthed the significance of the ring, and some of the mysteries it held-a lifetime later.' One evening in the early 1950s, when Ajit Singh Dutta was a young boy, his father gave him a ring. The ornament with its glowing cabochon ruby might have made 10-year-old Ajit curious, but at that age, he did not give it a second thought, and the ring ended up forgotten, locked in the safe of his mother's almirah. It was only years later, after his

father's death, that the beautiful ring gradually unfurled its mysteries-a stack of letters in cream-coloured envelopes, familiar piano tunes, a mysterious woman named Louise, and a whirlwind romance caught between competing family loyalties that tried to defy the hurdles of distance and cultural differences. The search-spanning decades-that followed, for a woman whose love was reflected in the beauty of the ring and in the intimate letters she wrote, opened up not only an entirely new world for Ajit but also helped him rediscover his own father. He learnt of the passionate 'Raj' who had remained hidden within Rajinder Singh Datta, the strict father and philosopher that he had grown up with. Written in evocative prose, this deeply moving, nostalgic story of a lost romance is also a son's unusual and extraordinary tribute to his father.

Born in the Second Wind Ajit Sherawat,2015-05-01 The fortitude which won Kamlesh the cycle race had the designs of victories her future awaited. Though the battle was still her own, it was for her son Jeet to win for her. The tide takes a turn for the worse when the very people who should have been the springboard to Jeet's success, pull the ladder from right under his feet. The inconsistencies of the unjust world left her tentative and worried, and her son, battered and bruised. Jeet had fallen. That's when Jeet's angel - the Doppelganger - emerges with the second wind, which if unleashed would take Jeet to unprecedented heights. Will he remain fallen? Will he not throw his dice in the game called life anymore? Will his courage rise with every attempt of intimidating him? Above all, will he be Born in the Second Wind?

Till You Touch a Touchstone Ajit Nambiar,2016-05-11 What's the journey of life

without a dash of humour? Seen through the prism of a good laugh, life becomes a 'jolly good show' to be enjoyed and experienced, the good and the bad notwithstanding. H R Shenoy and his two co-authors cull out real life instances and experiences, and share them with just that - a dash of humour. Transformed by this perspective, everyday instances become colourful and enjoyable, with a life's lesson thrown in somewhere if you could care to find it. Travel with the authors in their life's journeys, with tongue firmly in cheek.

Ecology, Conservation, and Restoration of Chilika Lagoon, India C. Max
Finlayson,Gurdeep Rastogi,Deepak R. Mishra,Ajit K. Pattnaik,2020-01-31 This book
chronicles the decades-long work of studying, analyzing, and reversing the environmental
pressures that threatened India's Chilika Lagoon, the largest brackish-water lagoon in the
region, and the second largest in the world. Designated as one of India's first Ramsar Sites
in 1981, Chilika Lagoon continued to degrade for a decade longer. Then, the Chilika
Development Authority (CDA) was established to gather information and devise a
restoration plan that benefits the ecosystems of the lagoon, with sensitivity to the needs
and livelihoods of local communities. Expert contributors detail the work of analysis,
planning and implementation, including extensive coverage of such topics as: Devising a
plan for implementing Ramsar wise use guidelines Sedimentologic, chemical, and isotopic
impacts Hydrodynamics and salinity Runoff and sediment in watersheds of the Lagoon's
Western Catchment Long-term analysis of water quality and continued water quality
monitoring Bio-optical models for cyclone impact assessment Studies of geomorphology,
land use, and sedimentary environments Spatiotemporal assessment of phytoplankton
communities Creation of a post-restoration scenario for fish and fisheries Assessing status
of waterbirds, species diversity and migration patterns The result was a major

hydrological intervention to re-establish hydrological and salinity regimes, biodiversity, and fish catches, and help protect the livelihood of lagoon-dependent communities. The story of the rehabilitation and management of Chilika Lagoon demonstrates that it is possible to halt and reverse the encroachment and degradation of wetlands, to restore biodiversity and to provide benefits for large numbers of people. Ecology, Conservation, and Restoration of Chilika Lagoon goes beyond scientific research articles to explore institutional and governance issues, political ecology, and the Ramsar Convention's guidelines for ecosystem restoration. The book will benefit researchers, wetland managers, government policy makers and more general readers concerned with restoration and conservation of wetlands around the planet.

Nanomedicine in Cancer Lajos P Balogh, 2017-09-01 This book is the first in a series compiling highly cited articles in nanomedicine recently. The series is edited by Lajos P. Balogh, a prominent nanotechnology researcher and journal editor. The first book content is about nanotechnology in cancer research. It also includes a wide variety of must-know topics that will appeal to any researcher involved in nanomedicine, macromolecular science, cancer therapy, and drug delivery research. These 31 articles collected here have already acquired more than 3500 citations (i.e., over a hundred on average), highlighting the importance and recognized professional interest of the scientists working in this field.

Sustainable Preparation of Metal Nanoparticles Rafael Luque, Rajender S. Varma, 2012-11-10 This timely publication bridges and presents the latest trends and updates in three hot topics of current and future society: nanomaterials, energy and

environment. It provides the state-of-the-art as well as current challenges and advances in the sustainable preparation of metal nanoparticles and their applications. The book fills a critical gap in a multidisciplinary area of high economic, social and environmental importance. Currently, there are no books published that deal with these ever increasing important topics, as most books in this area focus on a particular topic (eg. nanomaterials or catalysis or energy or environment). This is the first multidisciplinary edited book covering the very basics to the more advanced, trendy developments, containing a unique blend of nano, green, renewable and bio.

Theranostics, Gallium-68, and Other Radionuclides Richard P. Baum, Frank Rösch, 2012-08-23 This book is based on contributions presented at the 1st World Congress on Gallium-68 and Peptide Receptor Radionuclide Therapy, which examined recent developments in theranostics – the emerging field of molecular targeting of vectors that can be used for both diagnosis and therapy, when modified accordingly. The focus of this book is on the rapidly developing research into and clinical applications of gallium-68 and other generator-produced PET radionuclides in the personalized diagnosis and treatment of neuroendocrine tumors and other diseases. In addition, new PET radiopharmaceuticals are considered, and the latest ideas and concepts, presented. Theranostics embodies both molecular and personalized medicine. It is at the cutting edge of medicine, and the contents of this volume will be of interest to chemists, physicians, and investigators dealing with generators, PET radiochemistry, molecular imaging, and radionuclide therapy.

Religion and Technology in India Knut A. Jacobsen, Kristina Myrvold, 2018-06-04 Religion tends to flourish when technological developments create new possibilities for communication and representation, and simultaneously change as a consequence of these developments. This book explores intersections between religion and technology in India, at the present and in the colonial past, and how various forms of techno-religious

intersections transform and open up for new religious practices, discourses, communities, and institutions. With focus on Indian contexts and religions, it discusses various empirical and theoretical aspects of how technological innovations create, alter, and negotiate religious spaces, practices and authorities. The book provides rich and multifaceted empirical examples of different ways in which technological practices relate to meanings, ideas, and practices of religions. The techno-religious intersections generate several questions about authority and power, the politics and poetics of identity, community and place, and how religious agency, information, and experience are mediated, commodified, and adjusted to new demands of societies. The chapters explore the Hindu, Jain, and Sikh traditions in relation to new technological developments and media, such as photography, new means of visualization, TV serials, mobile phones, and online communication. The book will be of interest to academics studying modern and contemporary India and South Asia, and especially the role of religion and technology.

Computational Intelligence in Sensor Networks Bijan Bihari Mishra,Satchidanand Dehuri,Bijaya Ketan Panigrahi,Ajit Kumar Nayak,Bhabani Shankar Prasad Mishra,Himansu Das,2018-05-22 This book discusses applications of computational intelligence in sensor networks. Consisting of twenty chapters, it addresses topics ranging from small-scale data processing to big data processing realized through sensor nodes with the help of computational approaches. Advances in sensor technology and computer networks have enabled sensor networks to evolve from small systems of large sensors to

large nets of miniature sensors, from wired communications to wireless communications, and from static to dynamic network topology. In spite of these technological advances, sensor networks still face the challenges of communicating and processing large amounts of imprecise and partial data in resource-constrained environments. Further, optimal deployment of sensors in an environment is also seen as an intractable problem. On the other hand, computational intelligence techniques like neural networks, evolutionary computation, swarm intelligence, and fuzzy systems are gaining popularity in solving intractable problems in various disciplines including sensor networks. The contributions combine the best attributes of these two distinct fields, offering readers a comprehensive overview of the emerging research areas and presenting first-hand experience of a variety of computational intelligence approaches in sensor networks.
