Mind into Matter Fred Alan Wolf,2001-01-01 A physicist examines ideas from medieval alchemy and contemporary science to explore the connection between mind and matter. Alchemists of old attempted to make sense of the universe—to discover the connection between mind and matter. Some of today's scientists, in particular quantum physicists, are doing the same. In this contribution to the study of consciousness, physicist Fred Alan Wolf reveals what he calls the “new alchemy” —a melding of the ideas of the old alchemists and the new scientists to reach a fuller understanding of mind and matter. An elegant book with short, stand-alone chapters, each framed by an alchemical symbol and its definition, Mind into Matter is thought provoking for scientists and lay people alike. Praise for Mind into Matter “I consider Fred Alan Wolf one of the most important pioneers in the field of consciousness. This book could change the way you perceive the world.” —Deepak Chopra, MD, FACP, author of How to Know God “Once again, physicist Fred Alan Wolf takes us on a magical mystery tour into the adventure land of science and spirit. . . . Both enthralling and energizing.” —Michael Toms, cofounder, host, producer of New Dimensions Radio “How refreshing to have a scientist put the emphasis on the individual where it belongs! Wolf has written a glorious entertainment for the mind that matters.” —Kenneth Ring, PhD, author of Lessons from the Light “[A]llows readers to look at their own inner mechanism and better understand the consciousness which gives them life and makes them aware of the outer world of forms and phenomena in which they live.” —Glen P. Kezwer, Ph.D., physicist, author of Meditation, Oneness and Physics

*Mental Alchemy* William William Atkinson,2015-03-17 There is Mind in everything, and everything is in Mind. Consequently, just as Thoughts become Things in the Cosmic Brain, so is it possible for a strongly concentrated and focalized Mind (Will) to materialize into objective form things and conditions on the material plane. Just as the Cosmic Will manifests the Cosmic activities and forms, so may the Individual Will materialize activities and forms on its own plane.

**Spiritual Alchemy** Dennis William Hauck,2017-09-12 This book is an experiential guide to the spiritual realities of alchemy. The techniques revealed are based on centuries of work by philosophers of nature who sought universal laws of transformation that were as valid in their laboratory experiments as they were in their own hearts and minds. The secret teaching of their Underground River has flowed as a legacy of wisdom from one generation of alchemists to the next. Collectively, they sought to create a spiritual technology that worked on all levels at once, a powerful Science of Soul whose principles are as valid in the physical world as they are in the psychological and spiritual realms.

**The Alchemy of Sexual Energy** Mantak Chia,2009-12-23 Taoist techniques for replenishing our internal energy with universal cosmic energy • Shows how to transform excess sexual energy (Ching Chi) into self-healing energy • Presents advanced Cosmic Healing Chi Kung practices, which gather the limitless resources of Cosmic Chi for healing • Explains how opening of the three tan tiens to the six directions allows personal consciousness to connect directly to higher sources of energy Taoists consider our sexual energy to be the creative force that we can use to regenerate the body's internal energy, but we must learn how to harness excess sexual energy and transform it into chi, or life-force energy. When we circulate the sexual energy in the Microcosmic Orbit--a continuous energy loop that runs up the spine and down the front of the body--we transform it into self-healing energy that can be stored in the organs and the three tan tiens: energy centers in the brain, the heart center, and the lower abdomen. The Alchemy of Sexual Energy builds upon Microcosmic Orbit practices discussed in Healing Light of the Tao. The more we open the flow of our internal energy the more capable we are of connecting to the cosmic energy that exists outside ourselves in the universe. By learning to open the three tan tiens to the six directions, the Taoist practitioner combines mind power with extension of chi to draw cosmic energy into the body. This energy, too, can be stored in the three tan tiens and used as needed for healing. When we learn to flow in this way with the energy of the Tao, life ceases to be a struggle.

**On Becoming an Alchemist** Catherine MacCoun,2008-12-23 Many regard alchemy as a metaphor for inner transformation. But this is only half the story. According to Catherine MacCoun, alchemy is no mere metaphor. It's real magic. Transforming the inner world is, for the alchemist, a way to transform the outer world. Through studying the principles of alchemy, we can achieve extraordinary effects from ordinary actions by understanding how the world really works. We can perceive the hidden connections between the spiritual and the material worlds. Knowledge of these connections enables us to influence external phenomena through the powers of heart and mind alone. Yet alchemy is not, like some forms of magic, the exercise of mind over matter. It is the art of taking what already exists—whatever presents itself—and transmuting the harmful into the helpful, the useless into the valuable. On Becoming an Alchemist initiates us into these secrets, showing us how to think, perceive, and operate as an alchemist. It offers practical advice and exercises that will help the modern magician to: • Understand and apply basic principles of alchemy • Transmute setbacks, failures, and losses into sources of magical power • Navigate one's inner world with poise, confidence, and common sense • Intuitively show up in the right place at the right time to benefit from magical coincidences • Discover the potentials latent in any situation by awakening subtle perception To learn more about the author Catherine MacCoun go to [www.hermeticist.com](http://www.hermeticist.com).
