Helping Students Take Control of Everyday Executive Functions Paula Moraine,2012 This book presents an innovative model for supporting executive function in students with attention, memory, organization, planning, inhibition, initiative, and flexibility difficulties, including those with ADHD, ADD, autism spectrum disorders and related conditions. The author advocates a student-centred approach in which educators first explore 8 key 'ingredients' with the student: relationships; strengths and weaknesses; self-advocacy and responsibility; review and preview; motivation and incentive; synthesis and analysis; rhythm and routine; and practice and repetition. She provides a step-by-step explanation of how these 'ingredients' can then be used in different ways and in different combinations to successfully address particular areas of difficulty. The approach is clearly explained, and the book contains many useful examples, practical tips and strategies, suggested conversation starters, sample time management plans and other tools that can be adapted to meet the particular needs of individual students. Original and effective, the approach outlined in this book will be of interest to teachers and other professionals involved in supporting executive function in students of all ages, as well as parents and carers.

Gender Equality and Economic Diversification Romina Kazandjian,Ms.Lisa Kolovich,Ms.Kalpana Kochhar,Ms.Monique Newiak,2016-07-14 We show that gender inequality decreases the variety of goods countries produce and export, in particular in low-income and developing countries. We argue that this happens through at least two channels: first, gender gaps in opportunity, such as lower educational enrollment rates for girls than for boys, harm diversification by constraining the potential pool of human capital available in an economy. Second, gender gaps in the labor market impede the development of new ideas by decreasing the efficiency of the labor force. Our empirical estimates support these hypotheses, providing evidence that gender-friendly policies could help countries diversify their economies.

Irina Irina Baronova,2005-01-01 Irina Baronova was born into a privileged family, whose world was changed forever by the Bolsheviks. They fled Russia to poverty in Bucharest, but Irina's mother was determined that her daughter learn ballet. Her first lessons were taken with the kitchen table as a barre. Her family struggled to take Irina to Paris, where she made her debut, aged eleven, with the Paris Opera. Spotted by legendary choreographer George Balanchine, she joined the Ballet Russe de Monte Carlo. She quickly rose to fame as one of the three 'Baby Ballerinas' and toured the world. Irina worked with a dazzling array of great names: Fokine, Massine, Nijinska, Balanchine, Stravinsky, Picasso, Chagall, Matisse, Miro and Dali. Later Irina starred in films, danced with American Ballet Theatre and appeared in plays. Economic Freedom and Human Flourishing Michael R. Strain, Stan A. Veuger, 2016-09-15 Is economic liberty necessary for individuals to lead truly flourishing lives? Whether your immediate answer is yes or no, this question is deceptively simple. What do we mean by liberty? What constitutes the flourishing life? How are these related? How is economic liberty related to other goods that affect human flourishing? To answer these questions—and more—this volume brings to bear some of history's greatest thinkers, interpreted by some of today's leading scholars of their thought.

Art Crime Noah Charney, 2016-03-02 Since the Second World War, art crime has shifted from a relatively innocuous, often ideological crime, into a major international problem, considered by some to be the third-highest grossing criminal trade worldwide. In Our Hands Charles Murray, 2016-06-02 Imagine that the United States were to scrap all its income transfer programs—including Social Security, Medicare, and all forms of welfare—and give every American age twenty-one and older \$10,000 a year for life. This is the Plan, a radical new approach to social policy that defies any partisan label. First laid out by Charles Murray a decade ago, the updated edition reflects economic developments since that time. Murray, whose previous books include *Losing Ground* and *The Bell Curve*, demonstrates that the Plan is financially feasible and the uses detailed analysis to argue that many goals of the welfare state—elimination of poverty, comfortable retirement for everyone, universal access to healthcare—would be better served under the Plan than under the current system. Murray's goal, shared by Left and Right, is a society in which everyone, including the unluckiest among us, has the opportunity and means to construct a satisfying life. *In Our Hands* offers a rich and startling new way to think about how that goal might be achieved.

The Thefts of the Mona Lisa Noah Charney, 2011 Leonardo da Vinci's portrait, called the Mona Lisa, is without doubt the world's most famous painting. It achieved its fame not only because it is a remarkable example of Renaissance portraiture, created by an acclaimed artistic and scientific genius, but because of its criminal history. The Mona Lisa (also called La Gioconda or La Joconde) was stolen on 21 August 1911 by an Italian, Vincenzo Peruggia. Peruggia was under the mistaken impression that the Mona Lisa had been stolen from Italy during the Napoleonic era, and he wished to take back for Italy one of his country's greatest treasures. His successful theft of the painting from the Louvre, the farcical manhunt that followed, and Peruggia's subsequent trial in Florence were highly publicized, sparking the attention of the international media, and catapulting an already admired painting into stratospheric heights of fame. This book tells the art and criminal history of the Mona Lisa. This extended essay in book form, prepared to coincide with the 100th anniversary of the 1911 theft, examines the criminal biography of Leonardo's Mona Lisa, with a focus on separating fact from fiction in the story of what is not only the most famous art heist in history, but which is the single most famous theft of all time. In the process this book also tells of Leonardo's creation of the Mona Lisa, discusses why it is so famous, and investigates two other events in its history of theft and renown. First, it examines the so-called affaire des statuettes, in which Pablo Picasso and Guillaume Apollinaire were arrested under suspicion of involvement in the theft of the Mona Lisa. Second, there has long been a question as to whether the Nazis stole the Mona Lisa during the Second World War—a question that this book seeks to resolve. This book provides a strong introduction to the Mona Lisa and the thefts surrounding it. Noah Charney is the Sherlock Holmes of art theft. Beyond his great sleuthing prowess, he writes with the simple grace of a novelist and the erudition of a scholar. Here his subject could be no more dramatic: the impossible-but-true story of the most famous of all paintings, the Mona Lisa. It is a tale that bounces along, implicating the likes of Apollinaire, Picasso, the Nazis, and Nat King Cole. It is easy to pick up and very hard to put down. -Mark Lamster, author of *Master of Shadows: the Secret Diplomatic Career of the Painter Peter Paul Rubens* Deftly written and riveting to read. -Sidney Kirkpatrick, author of *Hitler's Holy Relics* Few writers have brought the issue of art theft to the fore with the fervor of Noah Charney. With *The Thefts of the Mona Lisa: On Stealing the World's Most Famous Painting*, Charney has created a work that is equal parts lucid art history and thrilling true crime. Both the popular myths and the hidden truths surrounding the theft and recovery of Leonardo's seminal work provide art theft investigators and museum security directors with important lessons for solving—and preventing—art crime today. -Anthony Amore, art theft and security expert and author of *Stealing Rembrandts: The Untold Stories of Notorious Art Heists* All profits from the sale of the print edition of this book support the charitable activities of ARCA, the Association for Research into Crimes against Art, an international non-profit research group on art crime and cultural heritage protection.
