The Art of Alex Gross Alex Gross,2007-03-08 This remarkable first monograph of acclaimed Pop Surrealist artist Alex Gross features striking, dreamlike imagery that transcends category. Gross paints a haunting mlang of fairytale, allegory, history, and pop culture, fusing eastern and western aesthetics in an ethereal world populated by kimono-clad Japanese women and lost Victorian dandies. In more than eighty exquisite color images, comprising all of Gross's gallery work, silk screens, etchings, and sketches, this volume illuminates his singular blend of realism and whimsy. Embraced and collected by art connoisseurs and lowbrow fans alike, Gross's work is both enigmatic and irresistible.

Discrepancies Alex Gross,2010 Frederick Douglass, a Centaur, serpents, Christ, and an assortment of mythical beasts are just some of the characters that appear within the world of Alex Gross's lush, incongruous paintings in *Discrepancies*. Historical figures coexist with fashionable men and women, often on their cell phones, and frequently set in landscapes that simultaneously invoke both Gothic Flemish Art and the metropolitan, billboard-infested urban advertising that we find inescapable in our world today. This slim, oversized edition catalogues the best of his work over the last 4 years.

Over the Line Alexander Gross,2022-09-12 The history of the fierce football rivalry between England and Germany is encapsulated in a single moment - Geoff Hurst's extra-time shot off the crossbar in the 1966 FIFA World Cup Final and the decision of an infamous Russian linesman to award a goal. It is a rivalry that now spans more than 90 years since the first official match between the two nations. For the English, a series of high-profile defeats at major tournaments saw Germany become the Angstgegner on the field, as well as an enduring obsession for the national press. For Germans, Wembley still represents the home of football, where the memories of 1966 have been supplanted by numerous successes and the appropriation of the English anthem 'football's coming home'. The rivalry has long crossed the lines of the football field, with the two nations at various moments forced to admire and learn from each other, and with football encounters between England and Germany repeatedly marking important developments in a unique and ever-changing political and cultural relationship.

Transformations Alex Gross,2019-11 Transformations is a collection of mixed media paintings by Alex Gross. On each page, he transforms a vintage cabinet card photograph into a pop culture character, through painting with acrylic and oil paints. Popular superheroes and supervillains, famous musicians, science fiction and fantasy characters, movie monsters, and many more all make appearances in this book. Alex has been building this body of work for over a decade now and it continues to grow in popularity. This book shows each image before it was painted upon, and afterwards. Showing precisely how each image was altered adds a uniquely enjoyable aspect to this art book.

Prison of the Mind Alex Gross,2024-05-07 The densely packed paintings found in Alex Gross' latest monograph *Prison of the Mind* extend the ideas he'd developed in the prior decade while turning the pop culture references up to eleven. Fresh themes and settings find his flawless oil paintings skating to the outer limits of the absurd. Finely rendered Darth Skater at the skate park and Cersei and Jaime Lannister, the villains from *Game of Thrones*, sharing Tic-Tacs simultaneously amaze and amuse. Mr. Gross has been kept busy creating his stream-of-consciousness fine oil paintings for the past decade, but also continues to create his modified cabinet card paintings. An entire new body of work created on these archival photographs is also featured in *Prison of the Mind*. A revealing interview with writer and curator John Seed lets the reader into the inner-workings of this fascinating artist's mind.

Future Tense Alex Gross,2014 The existential vacuum manifests itself mainly in a state of boredom. Viktor Frankl This existential vacuum is the psychological landscape that Gross presents in Future Tense. A lengthy parade of characters lost in their cell phones, iPads and computers find themselves in worlds of neon-lit supermarkets, billboard infested metropolises, and naturalistic countryside panoramas. Most of his characters appear bored and distracted. His work exposes the result of corporate-dictated mass culture and our inability to be present and interact with the real world. Alex Gross paintings remind us, through a blend of symbolic and literal elements, that it is impossible to escape the domination of corporations and consumerism.
