Essays in Labor Economics Alexey Filatov,2018 Aquesta tesi persegueix els objectius següents. En primer lloc, estudia els factors que impulsen el creixement constant tant en la participació de la mà d'obra com en les hores per treballador de persones majors, persones majors de 62 anys, als Estats Units des de mitjan anys vuitanta. Utilitzem dades del Health and Retirement Study (HRS) per estimar un model de cicle de vida de l'oferta laboral, la jubilació i l'acumulació de riqueses per contrastar el comportament de l'oferta laboral de dues cohorts als EUA: persones nascudes després de la Primera Guerra Mundial (The Great Depression Kids), i els nascuts després de la Segona Guerra Mundial (The Baby Boomers). Ens centrem en les diferències entre aquestes dues cohorts en l'obtenció i la dinàmica de la salut, així com les polítiques a què s'enfronten, un augment gradual de l'Edat de jubilació normal i l'eliminació de la prova de guanys l'any 2000, com a possibles fonts de canvi. Els resultats demostren que els efectes de les polítiques i els factors no relacionats amb la política tenen una magnitud similar. L'eliminació de la prova de guanys va tenir el major impacte de totes les polítiques. De forma conjunta, l'augment de les despeses mèdiques de butxaca i l'augment de l'esperança de vida són els factors dominants entre els no relacionats amb les polítiques. En segon lloc, utilitzem el Panell Socioeconòmic Alemanya (SOEP) per estudiar com la introducció d'un salari mínim federal a Alemanya l'1 de gener de 2015 afecta els salaris de les reserves individuals. Trobem que la reforma estava associada amb un augment dels salaris de reserva d'aproximadament el 4 per cent en el final més baix de la distribució. A més, els canvis en els salaris de reserva i els salaris observats a causa de la reforma salarial mínima són comparables en la seva magnitud. També mostrem que els ciutadans alemanys ajusten els seus salaris de reserva més que els immigrants. En tercer lloc, torneu a utilitzar les dades SOEP per estimar l'efecte de la reforma salarial mínima alemanya sobre la durada de l'atur. Trobem una associació molt forta de la reforma amb un augment de la durada de l'atur entre homes joves. Aquest efecte és especialment fort en les regions amb alt grau de reforma.

The Cold War J.P.D. Dunbabin,2014-01-14 The Cold War offers a brief but detailed treatment of one of the most complex eras of the 20th Century. In this fully revised second edition, J.P.D. Dunbabin, drawing on international scholarship and using much new material from communist sources, describes a world in which covert operations could be as important as outright diplomacy, 'soft' power as influential as 'hard', and in which competing ideologies ruled the hearts as much as the heads of the leaders in power. Dunbabin's account is global in scope, taking into account the importance of players beyond the superpowers, and shedding light on the proxy conflicts such as those in Africa and the Middle East that, if not caused by the continuing stalemate between the great powers, were used as weapons within it.

"White Russians, Red Peril" Sheila Fitzpatrick, 2021-05-12 Over 20,000 ethnic Russians migrated to Australia after World War II – yet we know very little about their experiences. Some came via China, others from refugee camps in Europe. Many preferred to keep a low profile in Australia, and some attempted to ‘pass’ as Polish, West Ukrainian or Yugoslavian. They had good reason to do so: to the Soviet Union, Australia’s resettling of Russians amounted to the theft of its citizens, and undercover agents were deployed to persuade them to repatriate. Australia regarded the newcomers with wary suspicion, even as it sought to build its population by opening its door to more immigrants. Making extensive use of newly discovered Russian-language archives and drawing on a lifetime’s study of Soviet history and politics, award-winning author Sheila Fitzpatrick examines the early years of a diverse and disunited Russian-Australian community and how Australian and Soviet intelligence agencies attempted to track and influence them. While anti-Communist ‘White’ Russians dreamed a war of liberation would overthrow the Soviet regime, a dissident minority admired its achievements and thought of returning home.
