Composites for Environmental Engineering Shakeel Ahmed,Saif Ali Chaudhry,2019-11-19 Composites are materials made from two or more constituent materials with significantly different physical or chemical properties. The two materials combine together to give a new material with higher strength, toughness, stiffness, but also a higher resistance to creep, corrosion, wear or fatigue compared to conventional materials. It is composed primarily of a matrix i.e. a continuous phase which is armoured with secondary discontinues reinforcement phase. These materials have been used in a variety of products viz. spacecrafts, sporting goods, catalyst, sensors, actuators, biomedical materials, batteries, cars, furniture, aircraft components, etc. This book focusses on processing, properties of various types of composite materials, as well as their environmental engineering applications. This book examines the current state of art, new challenges, and opportunities of composites in environmental engineering. The chapters in this book covers nearly every topic related to composites in environmental engineering in four broad perspectives: (i) classification of composites (ii) green/hybrid synthesis and characterization of nano and biocomposites (iii) processing of composite materials (iv) state-of-the-art in fabricating the composites - nano and biocomposites - for environmental applications.

Finnegans Wake Zulfiqar Ali Chaudhry,2015-09 In *Finnegan's Wake*, James Joyce's last and most difficult book, Dr. Zulfiqar Ali Choudhry shows in this fascinating study that Joyce may truly be said to have become Europasianized. His study of *Finnegan's Wake's* roots in the Koran, in Hinduism, in the Thousand and One Nights and in Persian vocabulary and thought is at once a definitive work in itself, and a source of inspiration for future Joyce scholars and students. Dr. Choudhry differs from his predecessors in being an expert in the languages and cultures of the Subcontinent, but like any good Joycean he is an incarnation of the ideal reader possessed by an ideal insomnia. His study of *Finnegan's Wake's* roots in the Koran, in Hinduism, in the Thousand and One Nights and in Persian vocabulary and thought is at once a definitive work in itself, and a source of inspiration for future Joyce scholars and students.

Freedoms, Fragility and Job Creation Ali Mehdi,Divya Chaudhry,Priyanka Tomar,2018-09-03 This book argues that inequality of basic freedoms—economic, political, sociocultural—is a central cause of fragility and challenge to job creation in fragile geopolitical situations. It is based on extensive official data and stakeholder interactions in the conflict-ridden Indian border state of Jammu and Kashmir, and involves a case study research methodology. This is the first book which invokes the philosophical perspective of freedom to analyze two of the most pressing challenges of our time—fragility and job creation—and, as such, makes a fundamental contribution to both strands of academic and policy literature. From this perspective, development in the sense of freedoms—particularly the enhancement of human agency through jobs—should be a central strategy in tackling fragility. Most literature on Indian Kashmir has been emotional or political in nature, lacking the serious yet interesting multidisciplinary focus presented here—which is a historical assessment of Kashmir’s political economy, economic indices, employment patterns, challenges of infrastructure and human capital. Ending with a set of long-, medium- and immediate-term policy recommendations to address the challenge of jobs in the state, this is the only book on Indian Kashmir which is at once philosophical, social-scientific and policy-oriented in nature. Academics in development studies, regional development, political science and international relations, international organizations working in fragile regions around the world, national and international policymakers, the private sector, civil society, media as well as ordinary readers interested in the issue of Kashmir will find it engaging and useful.

FROM SIALKOT TO VANCOUVER Imran Bhindar,2018-03-10 The original, 11,000 kilometer journey from From Sialkot to Vancouver, culminated on September 6, 1966. This book traces the history of Chaudhry Shakrullah Khan Bhindar and Sardar Begum Chandar of Sialkot, Pakistan whose descendants are now settled in Vancouver, Canada for over half a century.

Kashmir Dispute Terrorism and Pakistan Dr Shabir Choudhry,2016-11-28 The Muslim League, a party which championed the cause of Paksitan was set up on 28 December 1906 in Dhaka, with the following objectives: 1. To promote among Muslims a feeling of loyalty to the British government and to remove misunderstandings; 2. To protect and advance the political rights and interests of Muslims, and to represent properly their needs and aspirations to the British government; and 3. To prevent the rise of hostility among Muslims toward other communities. The Muslim League and the rulers of Pakistan, to date, have very sincerely served the British and the American interests in Pakistan and in the region. The bitter fact is that the landed aristocracy, the Generals and the security forces now control Pakistan and its destiny; and sad thing is even they dont know what is the destiny of this unfortunate country and how to reach there. When the British Raj ended in India on 15 August 1947, the State of Jammu and Kashmir also gained its independence. The Government of Pakistan acknowledged this fact by entering a Standstill Agreement with the Ruler of Jammu and Kashmir. Pakistan violated the Agreement and attacked Jammu and Kashmir on 22 October 1947.

Qaum, Mulk, Sultanat Ali Usman Qasmi,2023-12-12 After the trauma of mass violence and massive population movements around the partition of India and Pakistan in 1947, both new nation states faced the enormous challenge of creating new national narratives, symbols, and histories, as well as a new framework for their political life. While leadership in India claimed the anti-colonial movement, Gandhi, and a civilizational legacy in the subcontinent, the new political elite in Pakistan were faced with a more complex task: to carve out a separate and distinct Muslim history and political tradition from a millennium long history of cultural and religious interaction, mixing, and coexistence. Drawing on a rich archive of diverse sources, Ali Qasmi traces the complex development of ideas of citizenship and national belonging in the postcolonial Muslim state, offering a nuanced

and sweeping history of the country's formative period. Qasmi paints a rich picture of the long, arduous, and often conflict-ridden process of writing a democratic constitution of Pakistan, while simultaneously narrating the invention of a range of new rituals of state—such as the exact color of the flag, the precise date of birth of the national poet of Pakistan, and the observation of Eid as a national festival—providing an illuminating analysis of the practices of being Pakistani, and a new portrait of Muslim history in the subcontinent.

The Shias of Pakistan Andreas Rieck,2016-01-15 The Shias of Pakistan are the world's second largest Shia community after that of Iran, but comprise only 10-15 per cent of Pakistan's population. In recent decades Sunni extremists have increasingly targeted them with hate propaganda and terrorism, yet paradoxically Shias have always been fully integrated into all sections of political, professional and social life without suffering any discrimination. In mainstream politics, the Shia- Sunni divide has never been an issue in Pakistan. Shia politicians in Pakistan have usually downplayed their religious beliefs, but there have always been individuals and groups who emphasised their Shia identity, and who zealously campaigned for equal rights for the Shias wherever and whenever they perceived these to be threatened. Shia 'ulama' have been at the forefront of communal activism in Pakistan since 1949, but Shia laymen also participated in such organisations, as they had in pre-partition India. Based mainly on Urdu sources, Rieck's book examines, first, the history of Pakistan's Shias, including their communal organisations, the growth of the Shia 'ulama' class, of religious schools and rivalry between orthodox ulama and popular preachers; second, the outcome of lobbying of successive Pakistan governments by Shia organisations; and third, the Shia-Sunni conflict, which is increasingly virulent due to the state's failure to combat Sunni extremism.
