**The Golden TriAngle** Khalid Shibeeb AlKhaldi, 2019-07-30 In an equilateral triangle, all three sides and angles are equal and carry equal responsibility for the bearing of the structure. In the Golden TriAngle Module, the same is true. Each side of this valuable interpersonal communications module represents one of three interrelated, linked, sequenced, and correlated elements, and together they offer a critical tool for personal and professional success. The left side of the Golden TriAngle creates acceptance through socially accepted attitudes. It is through the horizontal bottom that we express and present ourselves. And the right side of the triangle looks after acting with an attractive, respectful, and effective manner. When the sides work in harmony, the triangle fills with gold. The Golden TriAngle is a general recipe for people seeking success and happiness through enhanced communication skills—necessary whether you're a teacher or a student, a doctor or a patient, a buyer or a seller. In its pages, they will find practical counsel for increasing their self-image and thus gaining more respect and support.

Saudi Capital Market Bader Alkhaldi, 2016-11-24 A thriving capital market, one that not only brings investment funds into a country but also distributes profits in a transparent manner, is essential for any economy, especially a rapidly developing one such as Saudi Arabia. Already a key player on the world stage, the Kingdom is going through a major planned economic transformation and diversification. In particular, a robust and transparent capital market, with a high level of

integrity and sound enforcement, is well on the way to fruition. This book is the first in English to analyse and evaluate the roles of economic planning and a capital market in Saudi Arabia's economic modernization. In the process of examining the level of transparency and fairness in Saudi Arabia's capital market, the author provides detailed information and analysis of such issues and topics as the following: - market disclosure rules; - insider trading laws; - gaps in enforcement; - dispute resolution; - role of securities agencies; - Saudi Arabia's position in international organizations; and - repercussions of the 2006 Saudi stock market collapse. The author draws on a wide range of sources in both English and Arabic, and concludes with well-grounded proposals for appropriate judicial, administrative, and enforcement policies. Investors, their management and attorneys, and other advisors with an eye on trade development in the Middle East will derive great benefit from the current and detailed information in this book. Lawyers and policymakers will discover all they need to know about the Saudi capital market, its developing trends, and applicable laws.

Institutional Reforms, Governance, and Services Delivery in the Global South Hamid E. Ali, Shahjahan Bhuiyan, 2021-11-24 This edited book explores the link between institutional reforms, governance and services delivery in the Global South, mapping how and to what extent resource-poor governments deliver public services to their citizens. The book concludes that delivery of public services responsibly and efficiently remains largely unachievable because of weaker institutions and poor quality of governance in the Global South countries. Reforms to governance and institutions are generally considered fitting measures to overcome public service delivery challenges.

**Adolescent Mental Health in The Middle East and North Africa** Caroline Barakat, Fatme Al Anouti, 2022-05-14 This 2-volume set focuses on adolescent health in the Middle East and North Africa region (MENA), and presents the latest research on the health risk behaviours and social behaviours that adolescents from the MENA region engage in. While there has been a surge in peer-reviewed research publications on population health in the MENA region in the last couple of decades, very few books offer a resource to address the diverse negative influences that disproportionately affect adolescents and children in the MENA region, including increased tobacco consumption culture, low emphasis on physical activity, increased sedentary behaviours, weak health policies, and societal issues related to displacement and political conflicts. These books offer a synthesis of current knowledge on adolescent health issues in the MENA region, and aim to provide evidence-informed adolescent health care practices that address current issues related to mental, physical, reproductive and nutritional health. Volume 1 focuses on mental health in the

MENA region, the development and implementation of youth friendly public policies, and how to strategize in the age of COVID-19. The study will aid health care professionals, policy makers, government organizations and health program planners to assess current policies and practices related to adolescent health in the MENA region, and to identify the best courses of action moving forward.

**Wealth Management and Investment in Islamic Settings** Toseef Azid, Murniati Mukhlisin, Othman Altwijry, 2022-09-29 This book addresses the theory, practices, challenges, key issues and potential future policies concerning investment and wealth management in connection with Islamic finance. There is a noted scarcity of literature on Islamic approaches towards wealth management from a jurisprudential perspective, and so this book aims to address this lacuna in available literature. It demonstrates strategies for wealth management in keeping with the Qur'an and Sunn'ah, posing questions relating to interest and investment, and proposing financial models for benefiting the poorer segments of society while simultaneously satisfying economic necessities in keeping with Islamic law. Given its breadth of scope, combining perspectives from scholars and practitioners with extensive experience in the banking and finance sector from different Islamic settings including Malaysia, Saudi Arabia, Sri Lanka, Brunei and Indonesia, this edited volume will benefit practitioners, researchers, and graduate students studying finance, economics and business management in an Islamic context.
