The Professional's Guide to Financial Services Marketing Jay Nagdeman, 2009-04-27 The Professional's Guide to Financial Services Marketing is directed to any financial services professional—from individual representatives to executives of large financial services companies—who is looking for better ways to create the relevant marketplace differentiation and competitive advantage needed to increase productivity and profitability. The purpose of this book is not to provide a how-to manual, but rather to offer practical information, examples, and thought-provoking tips that provide ideas and insights that will enable financial services professionals to improve their own marketing approaches and achieve ambitious marketing goals. With examples drawn from basic marketing approaches and successful consumer marketing, this book provides a fresh perspective on a variety of marketing issues that can make a significant difference to corporate success.

The End of Advertising Andrew Essex, 2017-06-13 A recovering Mad Man throws down the ultimate challenge to his profession: Innovate or die. The ad apocalypse is upon us. Today millions are downloading ad-blocking software, and still more are paying subscription premiums to avoid ads. This \$600 billion industry is now careening toward outright extinction, after having taken for granted a captive audience for too long, leading to lazy, overabundant, and frankly annoying ads. Make no mistake, Madison Avenue: Traditional advertising, as we know it, is over. In this short, controversial manifesto, Andrew Essex offers both a wake-up call and a road map to the future. In *The End of Advertising*, Essex gives a brief and pungent history of the rise and fall of Adland—a story populated by snake-oil salesmen, slicksters, and search-engine optimizers. But his book is no eulogy. Instead, he boldly challenges global marketers to innovate their way to a better ad-free future. With trenchant wit and razor-sharp insights, he presents an essential new vision of where the smart businesses could be

headed—a broad playing field where ambitious marketing campaigns provide utility, services, gifts, patronage of the arts, and even blockbuster entertainment. In this utopian landscape, ads could become so enticing that people would pay—yes, pay—to see them. Praise for *The End of Advertising* “New York media types aren’t quick to pass up a party, even one celebrating a book that predicts their demise. . . . The future of marketing will need to rely on creative, innovative models, Mr. Essex wrote, pointing to *The Lego Movie* and New York’s Citi Bike bicycle-share program as promising examples.”—The New York Times “A rabble-rousing indictment of the ad industry from one of its own. Essex predicts that success will depend less on the ability to annoy and more on the capacity to create and entertain.”—Adam Grant, New York Times bestselling author of *Originals* and *Give and Take* “Fresh and timely, *The End of Advertising* is an eye-opening take on the current media landscape. And along with it, Essex provides a road map for how brands can reinvent themselves and navigate this new world.”—Arianna Huffington “In this dynamic little book, Essex challenges brands—even those of us who pride ourselves on thinking outside the box—to think bigger still. He’s got me thinking.”—Neil Blumenthal, co-founder of Warby Parker “Mandatory reading for anyone who wants to get a message across in this age of authenticity.”—Alexis Ohanian, co-founder, Reddit

Marketing Services Leonard L. Berry,A. Parasuraman,2004-04-16 Excellent service is the foundation for services marketing, contend Leonard Berry and A. Parasuraman in this companion volume to Delivering Quality Service. Building on eight years of research, the authors develop a model for understanding the relationship between quality and marketing in services and offer dozens of practical insights into ways to improve services marketing. They argue that superior service cannot

be manufactured in a factory, packaged, and delivered intact to customers. Though an innovative service concept may give a company an initial edge, superior quality is vital to sustaining success. Berry and Parasuraman show that inspired leadership, a customer-minded corporate culture, an excellent service-system design, and effective use of technology and information are crucial to superior service quality and services marketing. When a company's service is excellent, customers are more likely to perceive value in transactions, spread favorable word-of-mouth impressions, and respond positively to employee-cross-selling efforts. The authors point out that a service company that does relatively little pre-sales marketing but is truly dedicated to delivering excellent quality service will have greater marketing effectiveness, higher customer retention, and more sales to existing customers than a company that emphasizes pre-sale marketing but falls short during actual service delivery. The focus of any company, they insist, must be customer satisfaction through integration of service quality throughout the entire system. Filled with examples, stories, and insights from senior executives, Berry and Parasuraman's new framework for effective marketing services contains the key to high-performance services marketing.
