Amit Chaudhuri Novelist and Musician Dr. Laxmikant Govindrao Bahegavankar,2021-06-05 Indian English Literature today has its own place in the world literature. Begun as an imitation of British literature, it has now its own identity and a large number of readers all over the world. Indian English Novel, to be more specific, has reached to a height where it is seen on the same line of world novels. It has gone through many evolutions such as style, subject matter, point of view, color, language etc. Indian English novel today boasts its newness through the hands of Amit Chaudhary. He is one of the contemporary Indian English novelists whose work leaves an impression of being new in its presentation, in style and in subject matter. The present research is an attempt to explore Amit Chaudhary's novels as new novels. This study undertakes five novels by him in order to see in what sense or the extent to which they are 'new novels'.

Artificial Intelligence Sumeet Gupta,Parul Sharma,Amit Chaudhary,2012-08 This book arose from our lectures on Artificial Intelligence at the Uttaranchal Institute of Technology, Dehradun and later at the Dehradun Institute of Technology, Dehradun. We started writing a new text out of dissatisfaction with the literature available at the time. Most books on Artificial Intelligence seemed to be chaotic collections of models and there was no clear unifying theoretical thread connecting them. The results of my efforts are published in this book. We tried in this book to put the accent on a systematic development of Artificial Intelligence theory and to stimulate the intuition of the reader by making use of many figures. Intuitive understanding fosters a more immediate grasp of the objects one studies, which stresses the concrete meaning of their relations. Since then some new books have appeared, which are more systematic and comprehensive than those previously available, but We think that there is still much room for improvement. The book has been written for undergraduates, and the only mathematical tools needed are those which are learned during the years at Institute.

Boundary Lab Nandan Kamath,2024-03-11 Sport is a petri dish. In it, society tests not only human limits but also individual and collective attitudes and norms, often before they impact the wider world beyond the boundary. In its quest for universal rules, organized sport must regularly balance multiple interests and answer difficult questions. This helps sport—and through sport, society—to tweak laws, markets, morals and technological advances. The outcomes of the resulting debates influence the way we live, view each other, and organize our world. Why should we care about sport and its governance? Within the covers of Boundary Lab lie the answers.

NMC OPINION POLL – AMBAZARI PRABHAG (53) Dr. Mukul Burghate, An opinion survey like this has been done with an objective to understand the performance, expectations & problems of the citizens at the grass root level. Ambhazari Prabhag was selected for the propose of this research as it is very varied with respect to area covered & the socio economic characteristics of the voters of this area. The first section of the report consists of project framework & research methodology followed for the research. The Survey was conducted for Ambazari Prabhag on 12237 voters. A voter is a person who is a permanent resident of Ambazari Prabhag & is above 18 years of age. The research objectives are to know local problems, awareness, level of satisfaction, expectations from the corporator & the parameters on which they select the corporator. The primary data from all the clusters was collected with the help of structured questionnaire. The second sections of the report details the socio economic background of the respondents of the Ambazari Prabhag. It gives information on the demographic characteristics of the Ambazari prabhag population, such as age and gender, as well as other socio-demographic variables, including marital status, living arrangements, religion, education class & the size of the family. These variables are important as they would help to correlate the expectations, problems & satisfaction level of the voters from the current administration of NMC in Ambazari Prabhag as well as unfulfilled expectations of the voters. The third section of the report gives the level of the awareness amongst the respondents about the upcoming NMC elections, level of satisfaction with the functioning of the current corporator & reasons for dissatisfaction, if any of the respondents. It also gives the results of the major problems of the respondents in their locality & also lists out the responses for the achievements of the current corporator. The fourth section of the report gives the results for the preferences & expectations of the respondents from the corporator. It give responses for the sought after qualities in the corporator like accessibility, reputation, popularity to name few. The preferred age group, personality traits of the next corporator in the opinion of the respondents is also listed in this section. The last section of the report gives the brief analysis of all the 9 clusters in which Prabhag was divided for the purpose of this survey. It enables to understand all the factors at the micro level & be more specific in conducting further analysis.

Waste of a Nation Assa Doron,2018-03-26 In India, you can still find the kabaadiwala, the rag-and-bone man. He wanders from house to house buying old newspapers, broken utensils, plastic bottles—anything for which he can get a little cash. This custom persists and recreates itself alongside the new economies and ecologies of consumer capitalism. Waste of a Nation offers an anthropological and historical account of India’s complex relationship with garbage. Countries around the world struggle to achieve sustainable futures. Assa Doron and Robin Jeffrey argue that in India the removal of waste and efforts to reuse it also lay waste to the lives of human beings. At the bottom of the pyramid, people who work with waste are injured and stigmatized as they deal with sewage, toxic chemicals, and rotting garbage. Terrifying events, such as atmospheric pollution and childhood stunting, that touch even the wealthy and powerful may lead to substantial changes in practices and attitudes toward sanitation. And innovative technology along with more effective local government may bring about limited improvements. But if a clean new India is to emerge as a model for other parts of the world, a “binding morality” that reaches beyond the current environmental crisis will be required. Empathy for marginalized underclasses—Dalits, poor Muslims, landless migrants—who live, almost invisibly, amid waste produced predominantly for the comfort of the better-off will be the critical element in India’s relationship with waste. Solutions will arise at the intersection of the traditional and the cutting edge, policy and practice, science and spirituality.

Caveman’s Secret Sauce Nimish Dayalu,2022-10-31 What if, one day, you find yourself in a Himalayan cave, far away from the world? For Jeet, this is a choice he made after leaving city life behind. One evening, a strange man called Adi, who does mysterious things, makes his way into Jeet's cave. The two develop a friendship that will help Jeet unravel the secrets of the wild. In his pursuit to grow, Jeet travels to a mountain village that has been untouched by time and then up a sacred mountain, meeting some fascinating characters along his journey. On this quest from the surreal to the supernatural, Jeet untangles some of the most complex mysteries of the world, which often kept him awake at night in the city. Intriguing, adventurous and containing the pearls of forgotten ancient Indian myths and legends, Caveman's Secret Sauce has the right ingredients that are missing in society today.
