**As It Is Written** Michael Evans,2022-12-13 In the dimly lit corridors under one of Rome's basilicas, there is an open doorway to a chamber of sacred artifacts. Kept in that chamber since the days of Constantine the Great rests an ancient writing tool that transforms whatever words are written into action. Through centuries past and those to come, there have been some that have yearned to master it for their own power and glory while contending with those who seek to honor its will. Hearts are tested and some will rise to glory while others will find themselves seeking their own destruction.

**Innovation for Development in Africa** Jussi S. Jauhiainen,Lauri Hooli,2019-11-13 This book uncovers the many ways in which innovations and innovation system development policies have become crucial to development policy formation across Africa. As new instruments, actors and tools emerge in development cooperation, the role of innovation in the societal development of developing countries needs to be addressed fully. This book delves into subjects as diverse as the changing development policies between the Global North and South, the role of innovation in international aid and development policies, the role of public, private and non-governmental sectors, universities and other development actors, and the potential for inclusive innovation in local communities. In particular, the book asks who benefits from innovation-focussed development policies, and if and how practical innovation instruments include the global poor. Written in an accessible and engaging style, the book includes a range of discussion questions and further reading suggestions to suit a range of readers, from students right through to policy makers and practitioners, or anyone else looking for an introduction to innovation policies and development in Africa.

**Divine Deliverance** Timothy R. Oesch,2010-05 Andela Tidmore yearns for matrimony. She is a Christian maiden who moves to St. Louis in hopes of finding a man, but her experiences in the big city compel her to return to her home town. Then an angel appears with an extraordinary proposition. An agnostic bachelor has acquired custody of two orphaned children, and Andela's assignment is to care for the children and to evangelize the bachelor. She accepts. Bill Stroggins works hard to manage his dairy farm. Law school disappointed him and he prefers working with cows. When his only sibling dies and leaves two orphaned children, he adopts them. It is difficult to maintain a dairy operation and care for two young children, so he hires a nanny. Aunt Dell, as the children call her, is the most mystifying individual Bill has ever encountered. It is an enchanted kiss that initiates a journey through virtual kingdoms personifying the inner essences of heart and soul. Colorful characters divulge information regarding sex, marriage, gender, Scripture, sin, salvation, angels, Satan, free will, predestination, eternal security, government, religion, faith, holiness, love, and God. Bill is enlightened in regards to the First Amendment of the Constitution of the United States, and in regards to the separation of Church and State. Andela learns what the Bible really teaches about women. At long last Bill sits as judge in the Arena of Judgment. The defense attorney argues with fervor on Andela's behalf. Lord Gelus relishes his accusatory role as plaintiff attorney while Rebelon and Decevon look on with ominous indulgence. Then Bill experiences a stunning revelation-it is the judge who is on trial. He faces the most crucial decision bequeathed to mankind.

**Destroyer of Worlds** Cameron Cooper, The Empire is crumbling and humanity is on its knees. The petulant, self-aware Array has retaliated. It has destroyed a space station, home to a million people, and stranded Danny and her crew on the surface of the tidally locked Nijeliya II. They must scratch for survival as best they can. While Danny works to save the city and her people, her fury over the Array's murder of her friends and loved ones stews deep inside. She will have her revenge, no matter what the cost. Only Nijeliya is a red star and notorious for throwing out superflares that can threaten the life of everything living thing. Time is running out, not just for Danny and her crew, but for everyone in the galaxy. Destroyer of Worlds is the fifth and final book in the Imperial Hammer space opera science fiction series by award-winning SF author Cameron Cooper. The Imperial Hammer series: 1.0: Hammer and Crucible 1.1: An Average Night on Androkles 2.0: Star Forge 3.0: Long Live the Emperor 4.0: Severed 5.0: Destroyer of Worlds Space Opera Science Fiction Novel \_\_ Praise for the Imperial Hammer series: I love sci-fi and this story makes me love it even more. I am in awe of the writing ability and imagination of Cameron Cooper. Before reading any of this author's work, I would have stated I did not really like science fiction. THAT has changed. It's full of action from beginning to end. Brilliant and intricate. Many memorable characters - but my favorite is Varg. Twists and turns so you're never really sure what is going on behind the scenes. I am so enthralled with the series that I am impatient for the release of the next book. Cameron somehow describes scenes in ways that make me feel like I am actually present This story truly does justice to the legacies of the greats, like Orson Scott Card and Frank Herbert. Edge of your seat action will keep you captivated until the final page!! \_\_ Cameron Cooper is the author of the Imperial Hammer series, an Amazon best-selling space opera series, among others. Cameron tends to write space opera short stories and novels, but also roams across the science fiction landscape. Cameron was raised on a steady diet of Asimov, Heinlein, Herbert, McCaffrey, and others. Peter F. Hamilton, John Scalzi, Martha Wells and Cory Doctorow are contemporary heroes. **The Digitalisation of African Agriculture Report 2018-2019** Tsan, Michael,Totapally, Swetha,Hailu, Michael,Addom, Benjamin K.,2019-06-30 An inclusive, digitally-enabled agricultural transformation could help achieve meaningful livelihood improvements for Africa's smallholder farmers and pastoralists. It could drive greater engagement in agriculture from women and youth and create employment opportunities along the value chain. At CTA we staked a claim on this power of digitalisation to more systematically transform agriculture early on. Digitalisation, focusing on not individual ICTs but the application of these technologies to entire value chains, is a theme that cuts across all of our work. In youth entrepreneurship, we are fostering a new breed of young ICT 'agripreneurs'. In climate-smart agriculture multiple projects provide information that can help towards building resilience for smallholder farmers. And in women empowerment we are supporting digital platforms to drive greater inclusion for women entrepreneurs in agricultural value chains.

**Handbook on Heritage, Sustainable Tourism and Digital Media** De Ascaniis, Silvia,Cantoni, Lorenzo,2022-02-04 Exploring the impact of the rise of digital media over the last few decades, this timely Handbook highlights the major role it plays in preserving and protecting heritage as well as its ability to promote and support sustainable tourism at heritage sites. Particularly relevant at this time due to the diffusion of smartphones and use of social media, chapters look at the experience and expectation of being 'always on', and how this interacts with heritage and tourism.

**Star Forge** Cameron Cooper,2020-08-21 Danny is trapped in a fragile relationship with the self-aware interstellar array which calls itself Noam. The array provides transport and communications. Without its cooperation, the Carinad Empire would collapse, stranding billions of people and causing chaos and death. Danny Andela, a former Ranger known as the Imperial Hammer, is the only human the array trusts. Danny's work to keep the array happy and minimize its deadly temper tantrums is draining. Worse, other humans distrust her because of her association with the array, including the crew of her one-of-a-kind ship, the Lythion. Broke and alone, Danny faces a new peril: The array may not trust her, afterall... Star Forge is the second book in the Imperial Hammer space opera science fiction series by award-winning SF author Cameron Cooper. I greedily read in this in one day. You will want to as well. Lots of action and a boatload of twists and turns that grab your attention and won't let go. It has kept me up way past bedtime! This is a read that really sucks you in! Excellent characters, twists and turns throughout. Written in such a natural hand that you can fully image the spectacular universe the author has created. \_\_ Cameron Cooper is the author of The Indigo Reports science fiction series and the alter ego for an Amazon #1 bestselling author in an unrelated genre. The Indigo Reports was originally conceived as a one-off series, but readers demanded more. The Imperial Hammer series was released in early 2020. *Crises in Continental Philosophy* Arleen B. Dallery, Charles E. Scott, 1990-10-02 This book punctuates the moments of crisis in continental thought from the foundational crisis of reason in Husserl's call for a rigorous science of phenomenology to the current crisis of postmodernism and its rejection of Husserl's metanarrative of history and rationality. The mediating links between these moments is the centrality of the epochal history of Being, the power of cultural and disciplinary practices, and the dispersal of meaning in the post-Husserlian and post-subjective philosophies of Heidegger, Foucault, Derrida, and others. Included here are the thoughts of leading scholars who critically discuss Husserl's analysis of the crisis of Western thought and the importance of the concepts of world in Husserl's early writings. The authors analyze the deprivileging of philosophy as social critique through the text of Husserl, Habermas, Foucault, and recent feminist theory. They examine the end of the epistemological and morally autonomous subject in continental thought. Together, these thoughts articulate multiple points or moments of crisis without cure or end.

**Grammatical Change and Linguistic Theory** Thórhallur Eythórsson, 2008-03-06 This book contains 15 revised papers originally presented at a symposium at Rosendal, Norway, under the aegis of The Centre for Advanced Study (CAS) at the Norwegian Academy of Science and Letters. The overall theme of the volume is 'internal factors in grammatical change.' The papers focus on fundamental questions in theoretically-based historical linguistics from a broad perspective. Several of the papers relate to grammaticalization in different ways, but are generally critical of 'Grammaticalization Theory'. Further papers focus on the causes of syntactic change, pinpointing both extra-syntactic (exogenous) causes and – more controversially – internally driven (endogenous) causes. The volume is rounded up by contributions on morphological change 'by itself.' A wide range of languages is covered, including Tsova-Tush (Nakh-Dagestan), Zoque, and Athapaskan languages, in addition to Indo-European languages, both the more familiar ones and some less well-studied varieties.

It's satisfying and reassuring to be back with these characters. This piece of the adventure definitely gets darker. This series reminds me of why I originally fell in love with this genre. Cameron Cooper's stories truly rival the greats, like Frank Herbert. The inventive nature of this series is beyond any I have read. Simply Stunning! The Carinds can't win, but refuse to lose. The huge reveal at the end of book 5 plays a large role in this book in a rather unexpected way. Fantastic series! Highly recommended! Two more books coming. I cannot wait to see what Danny and her team do next. I loved this book! Great characters, great storyline. Old and new characters. I love this series! — Cameron Cooper is the author of the Imperial Hammer series, an Amazon best-selling space opera series, among others. Danny and crew feel like family. I get lost in the world but more important I get lost in the characters. Highly recommend this series. The characters are real, fallible, distinct, and dynamic. Action scenes are exquisitely done too, there is one near the end you will not want to put down. so many little details which make this world truly come alive to the reader. **Navigate** Olumayowa Okediran, 2018-05-05 There are many reasons we all want to see how our future unfolds. Sometimes it is to pre-empt it, other times to prepare for it. Navigate is scenario planning taken on the world's most populous black nation. This book presents a clearer view of how Nigeria's future unfolds from now to 2030. What this book is not is a forecast. Forecast tend to assume the future as a trajectory of the present. Forecasts develop a single certain future around which a strategy must be built. There is not much early warning that the forecast may be wrong. Scenario planning instead understands that there are several possibilities of how the future may play out. Thus, Navigate develops multiple plausible futures for Nigeria to 2030. This will help you decide what strategies to build around those futures so that you, your business or your organization are adequately prepared for multiple eventualities.
