MARGO M. Kucera, R. Schneider, M. Weinelt, 2006-04-10 MARGO - Multiproxy Approach for the Reconstruction of the Glacial Ocean surface summarizes the results of the MARGO international working group, with the aim to develop an updated and harmonised reconstruction of sea surface temperatures and sea-ice extent of the Last Glacial Maximum oceans. The MARGO approach differs from previous efforts by developing and consistently applying measures of various aspects of reconstruction reliability, and by combining faunal and geochemical proxies. In 14 papers, the volume provides a comprehensive review of earlier work and a series of new, proxy-specific reconstructions based on census counts of planktonic foraminifera, diatoms, radiolaria and dinoflagellate cysts as well as on Mg/Ca measurements in planktonic foraminifera. The approach of harmonising the calibration and application of different proxies is described in detail, various paleothermometry techniques and their results are compared and the challenge of treating sparsely sampled data as the basis for ocean circulation models is addressed. The use of stable oxygen isotope composition of foraminiferal shells as a proxy for past sea water composition is comprehensively reassessed, and a new approach to the transfer function paleothermometer is presented. This volume represents a landmark contribution to the understanding of ice-age oceanography as well as the proxies used to reconstruct past ocean states. The results will form the basis for forcing and validation of ocean circulation models. New regional reconstructions of Last Glacial Maximum ocean temperatures and sea ice cover. Compilation of new calibration and fossil datasets as well as documentation of techniques and approaches to paleoenvironmental reconstructions. Comparison of techniques, proxies and modelling approaches.

Grandma's Helper Helena Hayes Thomas, 2011-11 I was inspired by my grandson, Michael Thomas, Jr., to write *Grandma's Helper*. I didn't realize that over the years I had forgotten so much. As I spent treasured moments caring for my grandchild, I would jot down little reminders as to what to do next in the course of the day of grandparenting. Then it occurred to me to compile the notes into a book to help other grandmas, grandpas, moms, and dads.

Introducing a child to the world around him provides opportunity to bring out the physical as well as the spiritual side of his development. Early training and guidance of small children provide valuable lessons for grandparents. The main ingredients that we must possess are tender loving care and a reverence for God and His Word as we train our children in the way they should go. It is the purpose of this book to teach the fulfillment of that commission.

Language of Evil Robert Beattie, 2009-01-06 Brilliant linguist, charming professor, and renowned writer Tom Murray had a way with words. He used them to seduce. And he used them to get away with murder. Erudite Kansas City professor Tom Murray seduced, then married his starry-eyed student Carmin Ross. But when Carmin attempted to leave their violent marriage, Tom stabbed her in the throat thirteen times, but left behind no evidence. Convinced he'd committed a perfect crime, Tom didn't even solicit a lawyer. But he hadn't counted on relentless small town deputy sheriff Doug Wood, who refused to be underestimated. What happened next would result in one of the most unforgettable, shocking, and unexpected trials in Kansas state history.

The Hillside Roble George Bixley, 2018-08-10 Slater Ibáñez is only interested in two kinds of guys: the ones he wants to punch, and the ones he sleeps with. Things get interesting when they start to overlap. A freelance investigator, Slater trolls the dark side of Los Angeles, rooting out insurance fraud, not afraid to use whatever means necessary to get things done, and not about to hold back with his fists. A queer antihero for a new age, Slater walks the line between ordinary life and the frayed fringes of society, keeping his balance with the jobs that his employer, Della, throws his way, and the back-channel support he gets from his idiot cop ex-boyfriend, Conrad, and regular squeeze Andy. Investigating a million-dollar heist at a gallery in the Arts District, Slater can't get a face-to-face with the owner, Eli, until he applies a little pressure, which leads to an evening invite to a tony mansion in the hills. Eli turns out to be a minor celebrity, physically flawless but obsessed with his own image, and flaky in that uniquely LA way. Gallery manager Pilar and her girlfriend are hiding something too, but Slater works to uncover the dirt with some surveillance and subterfuge, briefly posing as a straight guy to get some answers. Eli's nephew Ty seems guileless at first, but what is he really up to at his massage-parlor job? Join Slater as he closes in on the truth, never

hesitating to use his fists or his libido to cut through the secrets and deception.

During his elementary school years, Scott attended Cole Elementary School in Oakland where he won his first poetry contest called My Dream for My Country. That poetry was base on Scotts account of the Vietnam War, and he also got recognition from the state of Washington governor during that time. Scott was sent to Longfellow Elementary School during his school years for gifted students. While at Longfellow he received the attention from his teacher Mrs. Jones who inspired and taught him how to write books. Scotts knowledge of writing books continues throughout his junior and senior school years at McClymonds High School. Later in life, Scott self published two of his poetry books called No Reasonable Explanations Required and The Afterbirth. Author House Publication published Scotts third poetry book called The Metamonphi of the Phenomeni, and all three books are now available.
