Bilingualism in the USA Fredric Field,2011-08-18 This text provides an overview of bi- and multilingualism as a worldwide phenomenon. It features comprehensive discussions of many of the linguistic, social, political, and educational issues found in an increasingly multilingual nation and world. To this end, the book takes the Chicano-Latino community of Southern California, where Spanish-English bilingualism has over a century and a half of history, and presents a detailed case study, thereby situating the community in a much broader social context. Spanish is the second most-widely spoken language in the U.S. after English, yet, for the most part, its speakers form a language minority that essentially lacks the social, political, and educational support necessary to derive the many cognitive, socioeconomic, and educational benefits that proficient bilingualism can provide. The issues facing Spanish-English bilinguals in the Los Angeles area are relevant to nearly every bi- and multilingual community irrespective of nation, language, and/or ethnicity.

**Culture/Power/History** Nicholas B. Dirks,Geoff Eley,Sherry B. Ortner,2021-04-13 The intellectual radicalism of the 1960s spawned a new set of questions about the role and nature of the political in social life, questions that have since revolutionized nearly every field of thought, from literary criticism through anthropology to the philosophy of science. Michel Foucault in particular made us aware that whatever our functionally defined roles in society, we are constantly negotiating questions of authority and the control of the definitions of reality. Such insights have led theorists to challenge concepts that have long formed the very underpinnings of their disciplines. By exploring some of the most debated of these concepts--culture, power, and history--this reader offers an enriching perspective on social theory in the contemporary moment. Organized around these three concepts, Culture/ Power/History brings together both classic and new essays that address Foucault's new economy of power relations in a number of different, contestatory directions. Representing innovative work from various disciplines and sites of study, from taxidermy to Madonna, the book seeks to affirm the creative possibilities available in a time marked by growing uncertainty about established disciplinary forms of knowledge and by the increasing fluidity of the boundaries between them. The book is introduced by a major synthetic essay by the editors, which calls attention to the most significant issues enlivening theoretical discourse today. The editors seek not only to encourage scholars to reflect anew on the course of social theory, but also to orient newcomers to this area of inquiry. The essays are contributed by Linda Alcoff (Cultural Feminism versus Post-Structuralism), Sally Alexander (Women, Class, and Sexual Differences in the 1830s and 1840s), Tony Bennett (The Exhibitionary Complex), Pierre Bourdieu (Structures, Habitus, Power), Nicholas B. Dirks (Ritual and Resistance), Geoff Eley (Nations, Publics, and Political Cultures), Michel Foucault (Two Lectures), Henry Louis Gates, Jr. (Authority, [White] Power and the [Black] Critic), Stephen Greenblatt (The Circulation of Social Energy), Ranajit Guha (The Prose of Counter-Insurgency), Stuart Hall (Cultural Studies: Two Paradigms), Susan Harding (The Born-Again Telescandals), Donna Haraway (Teddy Bear Patriarchy), Dick Hebdige (After the Masses), Susan McClary (Living to Tell: Madonna's Resurrection of the Fleshly), Sherry B. Ortner (Theory in Anthropology since the Sixties), Marshall Sahlins (Cosmologies of Capitalism), Elizabeth G. Traube (Secrets of Success in Postmodern Society), Raymond Williams (selections from Marxism and Literature), and Judith Williamson (Family, Education, Photography).
