The Shrinking Spaces Sreedharan Pallikulath,2021-11-30 'The days when it was pissing with rain, when the dams sluiced out, the police and the armed forces between us, when our might was insufficient, the anglers were our superheroes!' One night when the rain howled and hooted outside, the comrades huddled around the table. Anjali recounted her experiences with the life of the Kurumbas in Attappadi. The tribal girl Amelia falls for an immigrant boy outside her tribe who takes her to cinema halls and eateries in the city. They met very often at the outcrops in the night and they have regular boff sessions. She was conceived. She did not disclose his name and lay dead on the doctors' table making Bubba's father an enigmatic outsider. Anjali and her husband are now his parents. It was a 1000 years flood. Thousands of people, including women, children and college students, techies, young professionals and youth icons from the tinsel world, worked in tandem at various relief centres across the state. The senior officers adored the role of head load workers. The tech-savvy youths set up spontaneous networks to register distress calls and guide the rescuers to the needy. Thousands of these unofficial helpdesks bounded the state together in these drastic times. 'Heroes are moulded by the need of times. The axiom is not alien- but it is the sheer scale at which it is being seen in Kerala; that was so amazing.' Lena said. We need to feel in the guts that how blessed we are!

New Dynamics in US-China Relations Mingjiang Li,Kalyan M. Kemburi,2014-10-17 Washington's strategic pivot to Asia and Beijing's pursuit of new strategic and security interests in the region have led to increasing tensions between the two powers. US leaders have stressed that their increased interest in Asia is driven by a desire to benefit from the thriving regional economies, as well as to play the leading role in maintaining peace and stability in the region. However, Beijing is particularly concerned about US efforts to consolidate its alliances and deepen security partnerships with a number of regional states. Given the centrality of the two powers to the strategic stability and economic development of the region, these new dynamics in US-China relations must be properly understood and appropriately handled. This book examines the growing Sino-US strategic rivalry in the Asia-Pacific alongside the strategies employed in the management of this relationship. In turn, it illuminates the sources of conflict and cooperation in US-China relations, looking specifically at maritime disputes, economic relations, energy security, non-traditional security, defence and strategic forces, and Taiwan. Finally, it explores the role of regional states in shaping US-China relations, and in doing so covers the influence of Japan, India, the Korean Peninsula, the Philippines, Vietnam, Myanmar, and Cambodia. With chapters from leading scholars and analysts this book deals with a diverse range of issues including strategic rivalry, expanding regional trade relations, non-traditional security issues, the role of energy security, maritime security and how Asian states view their relations with the US and China respectively. *New Dynamics in US-China Relations* will be of huge interest to students and scholars of Asian politics, US politics, international relation and security studies, as well as practitioners involved in framing and implementing foreign, security and economic policy pertaining to the Asia Pacific.
