### **Twelve Years a Slave** Solomon Northup, 2024-01-04

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes

his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**RA The Book Vol 1** Roger D'Arcy, Hugh Flynn, 2015-02-02 RA: The Book - The Recording Architecture Book of Studio Design was first

published as a single, hardcover volume in 2011 and which has sold in over fifty countries to critical acclaim. A necessarily large format dictated by the detailed drawings it contained, RA:The Book was unavoidably heavy and costly to produce and ship. This iBook version is the first of three stand alone volumes which will hopefully make this essential guide to recording studio design more accessible. It includes a new introduction with previously unavailable photographs. The following description is for the original hardcover: Established by Roger D'Arcy and Hugh Flynn on April 1st 1987 Recording Architecture has risen to become one of the premier recording studio design companies in the world. First Commissioned by ex Def Leppard guitarist Pete Willis for Blue Room studios In Sheffield swiftly followed by projects such as Hulgrave Hall, for composer Keith Hopwood the company has grown to design key installations around the world. Now for the first time they will be publishing a history of these ground breaking designs covering all aspects of architectural, acoustic and interior design of these studios and spaces specifically related to sound on a project by project basis. In a Career spanning Three decades Recording Architecture has virtually unrivalled experience in the design of studios which range in size and purpose from classical orchestral, residential, mixing, mastering, post production, film dubbing, video editing and rehearsal studios over 40 countries worldwide. Stating his desire to expand awareness with the new book Roger D Arcy states Over the years, and perhaps surprisingly, the only available books on recording studio design seem to have been written by individuals with little or no qualified background in Architecture or design in the field - we are trying show the detailed architectural/acoustic input behind a successful

design with each studio study showing drawings in large format . This is not a theoretical guide but a detailed presentation of tried and tested techniques as applied to real, built projects in many of the case studies, the actual drawings issued for construction are reproduced. The examples illustrate not only what we think should be done but what was in fact physically (and successfully) implemented in a wide variety of situations from small, private project studios to large, commercial land mark studios such as Lansdowne and CTS. Examples range in scope from individual spaces and rooms to multi studio facilities and cover the two principal strands of recording and mixing: MUSIC studios recording (tracking), mixing and mastering (including cutting) project to orchestral in scale examples have been taken from the private, commercial and educational sectors. POST PRODUCTION studios voice over (dubbing), FX recording ( Foley ), film mix studios (dubbing theatres) from small voice over studios for TV to large Dolby Premier Certified film mix theatres. Contents include hundreds of photographs together with detailed plans and construction drawings - including comprehensive specifications of materials and techniques - showing exactly how these environments were created.

*The Bloomsbury Handbook of Music Production*  
Simon Zagorski-Thomas, Andrew Bourbon, 2020-02-06  
The Bloomsbury Handbook of Music Production provides a detailed overview of current research on the production of mono and stereo recorded music. The handbook consists of 33 chapters, each written by leaders in the field of music production. Examining the technologies and places of music production as well the broad range of practices - organization, recording, desktop production, post-production and distribution - this edited collection looks at production as it

has developed around the world. In addition, rather than isolating issues such as gender, race and sexuality in separate chapters, these points are threaded throughout the entire text.

Autumn in Venice Andrea Di Robilant, 2019-05-14  
The illuminating story of writer and muse—which also examines the cost to a young woman of her association with a larger-than-life literary celebrity—Autumn in Venice is an intimate look at Hemingway's final years. In the fall of 1948, Ernest Hemingway and his fourth wife traveled for the first time to Venice, which Hemingway called "absolutely god-damned wonderful." A year shy of his fiftieth birthday, Hemingway hadn't published a novel in nearly a decade when he met and fell in love with Adriana Ivancich, a striking Venetian girl just out of finishing school. Here Andrea di Robilant re-creates with sparkling clarity this surprising, years-long relationship, during which Adriana inspired a man thirty years her senior to complete his great final work. Hemingway used Adriana as the model for Renata in Across the River and into the Trees, and continued to visit Venice to see her; when the Ivanciches traveled to Cuba, Adriana was there as he wrote The Old Man and the Sea.

*Wired for Sound* Paul D. Greene, Thomas

Porcello, 2012-01-01 Winner of the Society for Ethnomusicology's Klaus Wachsmann Award (2006) *Wired for Sound* is the first anthology to address the role of sound engineering technologies in the shaping of contemporary global music. Wired sound is at the basis of digital audio editing, multi-track recording, and other studio practices that have powerfully impacted the world's music. Distinctions between musicians and engineers increasingly blur, making it possible for people around the globe to imagine new sounds and construct new musical aesthetics. This collection of 11 essays employs primarily ethnographical, but also historical and psychological, approaches to examine a range of new, technology-intensive musics and musical practices such as: fusions of Indian film-song rhythms, heavy metal, and gamelan in Jakarta; urban Nepali pop which juxtaposes heavy metal, Tibetan Buddhist ritual chant, rap, and Himalayan folksongs; collaborations between Australian aboriginals and sound engineers; the production of heaviness in heavy metal music; and the production of the Austin sound. This anthology is must reading for anyone interested in the global character of contemporary music technology. CONTRIBUTORS: Harris M. Berger, Beverley Diamond, Cornelia Fales, Ingemar Grandin, Louise Meintjes, Frederick J. Moehn, Karl Neunfeldt, Timothy D. Taylor, Jeremy Wallach.

**Speak No Evil** Uzodinma Iweala, 2018-03-06 Winner of the Gold Nautilus Award for Fiction | A Lambda Literary Award Finalist | A Barbara Gittings Literature Award Finalist | One of *Bustle's* and *Paste's* Most Anticipated Fiction Books of the Year "Speak No Evil is the rarest of novels: the one you start out just to read, then end up sinking so

deeply into it, seeing yourself so clearly in it, that the novel starts reading you.” – Marlon James, Booker Award-winning author of *A Brief History of Seven Killings* In the tradition of Junot Diaz’s *The Brief Wondrous Life of Oscar Wao* and Chimamanda Ngozi Adichie’s *Americanah*, *Speak No Evil* explores what it means to be different in a fundamentally conformist society and how that difference plays out in our inner and outer struggles. It is a novel about the power of words and self-identification, about who gets to speak and who has the power to speak for other people. As heart-wrenching and timely as his breakout debut, *Beasts of No Nation*, Uzodinma Iweala’s second novel cuts to the core of our humanity and leaves us reeling in its wake. On the surface, Niru leads a charmed life. Raised by two attentive parents in Washington, D.C., he’s a top student and a track star at his prestigious private high school. Bound for Harvard in the fall, his prospects are bright. But Niru has a painful secret: he is queer—an abominable sin to his conservative Nigerian parents. No one knows except Meredith, his best friend, the daughter of prominent Washington insiders—and the one person who seems not to judge him. When his father accidentally discovers Niru is gay, the fallout is brutal and swift. Coping with troubles of her own, however, Meredith finds that she has little left emotionally to offer him. As the two friends struggle to reconcile their desires against the expectations and institutions that seek to define them, they find themselves speeding toward a future more violent and senseless than they can imagine. Neither will escape unscathed.

**Neurocomic** Hana Ros, 2014-04-15 Do you know what your brain is made of? How does memory function? What is a neuron and how does it work? For that

matter what's a comic? And in the words of Lewis Carroll's famous caterpillar: Who are you? Neurocomic is a journey through the human brain: a place of neuron forests, memory caves, and castles of deception. Along the way, you'll encounter Boschean beasts, giant squid, guitar-playing sea slugs, and the great pioneers of neuroscience. Hana Roš and Matteo Farinella provide an insight into the most complex thing in the universe.
