The volume also offers a state-of-the-art review of anaerobic digestion of biogenic solid wastes, the impact of different chemical pretreatment processes and products, and the influence of operating parameters on biomethane yields. Differentiating between the thermochemical technologies (e.g., gasification and pyrolysis) and biological technologies (e.g., anaerobic digestion) for biomethane production, the book assesses some recent advancements in biomethane production along with its socioeconomic impacts and applications. Other topics include gasification technology and syngas cleaning for biosynthetic natural gas production, the use of catalysts for enhanced synthetic natural gas production, biohythane fuel produced from microbial fermentative pathways, and more. Biomethane: Developments and Prospects offers valuable insight and information on the current status of production and utilization of biomethane that has cross-disciplinary value in biotechnology, fermentation technology, bioprocess engineering, chemical engineering, and environmental technology with a common interest in biofuels and bioenergy.

Middle of Diamond India Shashank Mani,2023-09-15 Middle of Diamond India proposes a revolutionary idea - that India has long ignored its largest and most talented segment, citizens in the Tier 2 and Tier 3 districts, its Middle. *Threshold* Sudha Sikrawar, 2020-01-20 This story of mine is an adaptation of the story, Chand Saawla Hai, published in Hindi. And the stories, inspired by some events, do represent both imagination and fragments that mirror the truth. What is happening today is a story, what was happening yesterday was also a story, and what happens tomorrow will also become a story. If everything was seen as truth instead of a story, then today, perhaps, the background of our society and families would have told a different story. Everyone has their boundaries and premises, and most of the time, they are violated. But there is no violation of these violations, nor is there any scale to measure all this. Just as one truth is different for different persons and becomes a story, in the same way, just like there was a king and there was a queen, this story gets over. And will this happen always...? We have not been able to learn anything from the Panchatantra stories of the animal kingdom till date, which in my view forms the biggest learning through stories. I think no writer can teach someone something by simply writing a story; One only tries to tell by expressing one's thoughts, Look, this is happening. And is it really happening!?

*A not so perfect Us* Deshanki Singhal, 2020-04-06 LOVE IS NOT ALWAYS A RAINBOW, FULL OF COLOURS, IT CAN BE BLACK AND WHITE TOO, FULL OF HURDLES... changing her life into a beautiful dream she never wanted to wake up from. As beautifully as it came it went away leaving her alone, empty and broken. What happens when two years later, she comes face to face with the same person who made her body tingle, and her thoughts restless, the one who didn't sleep at night? Will she get her love back, or she will have to live only with those memories? Read and find out...
