TikTok as Entertainment or Misleading App? John Maish,2023-09-20 Essay from the year 2021 in the subject Communications - Mass Media, grade: 3.0, University of California, San Diego, course: Media Studies, language: English, abstract: This essay critically analyzes the popular video-sharing app TikTok and questions whether it should be perceived primarily as an entertainment platform or as a source of misleading content. The author reflects on how TikTok's algorithmically customized feed and divination videos promoted addictive viewing habits and dubious life advice in a friend. However, the app also spreads joy through funny videos. The essay concludes that while TikTok has merit as an entertainment app, users should be cautious of videos that try to deceptively influence major life decisions. Overall, the essay urges readers to approach TikTok with nuance, enjoying its amusing content while maintaining skepticism about guidance from its most exploitative corners.

The book's two main themes are freedom of expression and an individual's right to privacy. Regulation of the communication industries is covered extensively, including discussion of the print press and its online editions following Leveson, traditional broadcasting regulations for terrestrial TV and radio as well as media activities on converged devices, such as tablets, iPads, mobile phone devices and 'on demand' services. Intellectual property law (specifically copyright) in the music and entertainment industries is also explored in the book's later chapters. Also new to this edition are sections on: A focus on freedom of expression: its philosophical foundations; the struggles of those who have fought for it; and the varied ways in which the courts interpret freedom of expression regarding the taking and publishing of photographs. The 'right to be forgotten', data breaches, and the General Data Protection Regulation (GDPR). The media's increasing access to the courts, particularly when considering the privacy of those who are suspected of sexual offences. Press regulators, broadcasting and advertising regulations, and film and video regulations. Election and party-political broadcast regulations, with a focus on social media and recent election fraud. The emergence of online music distribution services, internet radio and free digital streaming music services, and their effect on the music industry. *Media & Entertainment Law 2/e* Ursula Smartt,2014-03-21 Media and Entertainment Law presents a contemporary analysis of the law relating to the media and entertainment industry both in terms of its practical application and its theoretical framework. It provides a clear, current and comprehensive account of this exciting subject. Fully updated and revised, this second edition is one of the first texts to contain a full analysis of the Leveson Inquiry and the implications for our press and media that are arising from it. The new edition contains; a new chapter analysing the Defamation Act 2013; the Digital Economy Act 2010 which aimed to toughen up against copyright infringement online and has been subject to parliamentary review since coming into power; and the liability of internet service providers, including recent cases such as Tamiz vs Google 2012, which goes some way to define the extent to which an ISP may or may not be found liable for their bloggers content. With integrated coverage of Scots and Northern Irish law, Media and Entertainment Law also highlights comparisons with similar overseas jurisdictions, such as with the liability of ISPs where there are differences in both US and European law, in order to help students demonstrate an awareness of media laws, which may then influence UK legislation. Looking at key aspects such as TV and radio broadcasting, the print press, the music industry, online news and entertainment and social networking sites, this text provides detailed coverage of the key principles, cases and legislation as well as a critical analysis of regulatory bodies such as OFCOM and the new regulator for the UK's newspapers and magazines (and online editions), the Independent Press Standards Organisation (Ipso). The text also provides the most comprehensive and up to date coverage of the law relating to Intellectual Property law for the entertainment industry with recent changes in EU law relating to performers' rights. *Wanghong as Social Media Entertainment in China* David Craig,Jian Lin,Stuart Cunningham,2021-02-25 In Chinese, the term wanghong refers to creators, social media entrepreneurs alternatively known as KOLs (key opinion leaders) and zhubo (showroom hosts), influencers and micro-celebrities. Wanghong also refers to an emerging media ecology in which these creators cultivate online communities for cultural and commercial value by harnessing Chinese social media platforms, like Weibo, WeChat, Douyu, Huya, Bilibili, Douyin, and Kuaishuo. Framed by the concepts of cultural, creative, and social industries, the book maps the development of wanghong policies and platforms, labor and management, content and culture, as they operate in contrast to its non-Chinese counterpart, social media entertainment, driven by platforms like YouTube, Facebook, Instagram, and Twitch. As evidenced by the backlash to TikTok, the threat of competition from global wanghong signals advancing platform nationalism.

**The future of Inflight Entertainment in Europe, according to passenger expectations: Why Airlines should embrace Consumer Technology** Jasmin Schawalder,2014-04-01 Consumerization - passengers toting their tablets, laptops, smartphones and e-readers on planes - has forced airlines to re-think. Should they continue to invest heavily into Inflight Entertainment (IFE) systems, or just concentrate on offering Wi-Fi and power in the cabin? The goal of this research was to define the IFE offer of the future. Four barriers that split the world into the three regions Europe, Asia and USA in terms of IFE development were identified: the cultural, the commercial, the technological and the legal barrier. This book focuses on Europe, which lags mostly behind with IFE out of these three regions. For example, as opposed to the US, no major European airline offers inflight Wi-Fi widely on its network, and in contrast to leading Middle Eastern airlines none offers inflight live TV or the usage of mobile phones without restriction, like on the ground. The target was to define IFE from a consumer perspective. To capture the latter the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach, which categorizes alternatives of a product or service, in this case IFE, in must-be, attractive and indifferent elements. A representative online survey revealed movies and power to be must-be, TV and Wi-Fi to be attractive and the rest, e-books, music, games and duty free onboard, to be indifferent elements of IFE. The majority of people indicated that they would pay for movies and Wi-Fi but not for power supply, TV or other content. Differently said, content-wise passengers only insisted in the supply of movies, for the rest they expected the airline to provide Internet and power so they themselves could get the content. Further, sub-groups were analysed - people within the sample with mutual characteristics like gender, travel frequency or ownership of smart devices. So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others. Overall, country of residence, travel purpose (leisure or business) and flight duration (long vs. short haul) were the greatest dividers re IFE requirements.
