*Business Innovation and Disruption in Publishing* Robert DeFillippi, Patrik Wikstrom, 2022-02-28 This is the first volume in a book series examining how organizations in the creative industries respond to disruptive change and how they themselves generate business innovations. The aspiration of this book series is to understand some of the common forces behind the disruptions occurring in so many creative industries today and identifying the most promising strategies and responses by organizations to create new value propositions, business models and business practices that can enable these industry participants to cope with and eventually thrive as their industries and sectors are transformed. The chapters included in the volume examine the processes of disruption and transformation due to the technology of the Internet, social forces driven by social media, the development of new portable digital devices with greater capabilities and smaller size, the decreasing costs of new information, and the creation of new business models and forms of intellectual property ownership rights for a digitized industry. One gap that this book series seeks to fill is that between the study of business innovation and disruption by innovation.

Localizing Apps Johann Roturier, 2015-05-08 The software industry has undergone rapid development since the beginning of the twenty-first century. These changes have had a profound impact on translators who, due to the evolving nature of digital content, are under increasing pressure to adapt their ways of working. Localizing Apps looks at these challenges by focusing on the localization of software applications, or apps. In each of the five core chapters, Johann Roturier examines: The role of translation and other linguistic activities in adapting software to the needs of different cultures (localization); The procedures required to prepare source content before it gets localized (internationalization); The measures taken by software companies to guarantee the quality and success of a localized app. With practical tasks, suggestions for further reading and concise chapter summaries, Localizing Apps takes a comprehensive look at the transformation processes and tools used by the software industry today. This text is essential reading for students, researchers and translators working in the area of translation and creative digital media.

**The American Comic Book Industry and Hollywood** Alisa Perren, Gregory Steirer, 2021-05-20 The American Comic Book Industry and Hollywood traces the evolving relationship between the American comic book industry and Hollywood from the launch of X-Men, Spider-Man, and Smallville in the early 2000s through the ascent of the Marvel Cinematic Universe, the Arrowverse, and the Walking Dead Universe in the 2010s. Perren and Steirer illustrate how the American comic book industry simultaneously has functioned throughout the first two decades of the twenty-first century as a relatively self-contained business characterized by its own organizational structures, business models, managerial discourses, production cultures, and professional identities even as it has remained dependent on Hollywood for revenue from IP licensing. The authors' expansive view of the industry includes not only a discussion of the "Big Two," Marvel/Disney and DC Comics/Time Warner, but also a survey of the larger comics ecosystem. Other key industry players, including independent publishers BOOM! Studios, IDW, and Image, digital distributor ComiXology, and management-production company Circle of Confusion, all receive attention. Drawing from interviews, fieldwork, archival research, and trade analysis, The American Comic Book Industry and Hollywood provides a road map to

understanding the operations of the comic book industry while also offering new models for undertaking trans- and inter-industrial analysis.

*Inside Book Publishing* Giles Clark, Angus Phillips, 2019-08-09 Now fully revised and updated for its sixth edition, *Inside Book Publishing* is the classic introduction to the book publishing industry. Giles Clark and Angus Phillips offer authoritative coverage of all sectors of the industry, from commercial fiction and non-fiction to educational publishing and academic journals. They reveal how publishers continue to adapt to a fast-changing and highly interconnected world, in which printed books have proved resilient alongside ebooks and the growth of audio. Major themes are explored, including the development of digital products and the use of social media in book marketing, as well as those that affect publishers' businesses, such as the rise of internet retailing; rental models for student textbooks; and open access, where academic content is free to the user. Case studies from industry experts give fascinating perspectives on topics such as crowdfunding, self-publishing and how authors can market themselves. The book provides excellent overviews of the main aspects of the publishing process: commissioning authors, product development, design and production, marketing, sales and distribution. As a manual for those in the profession and a guide for the potential publishers of the future, *Inside Book Publishing* remains a seminal work for anyone with an interest in the industry. It will also be of interest to authors seeking an insider's view of this exciting industry.
